Jeeves,2013-08-05 In this hypothetical correspondence Malcolm Jeeves urges Christian students to enter the brave new world of neuroscience ready to have their faith examined and their experiences of God put to the test When we do this he argues being mindful of oversimplifications as we go the integration of Christianity and psychology becomes possible

**Spiritual Intelligence** Danah Zohar,2012-04-12 At the beginning of the twentieth century psychologists discovered ways and means to measure intelligence that developed into an obsession with IQ In the mid 1990 s Daniel Goleman popularised research into emotional intelligence EQ pointing out that EQ is a basic requirement for the appropriate use of IQ In this century there is enough collective evidence from psychology neurology anthropology and cognitive science to show us that there is a third Q SQ or Spiritual Intelligence SQ is uniquely human and the authors argue the most fundamental intelligence SQ is what we use to develop our longing and capacity for meaning vision and value It allows us to dream and to strive It underlies the things we believe in and the role our beliefs and values play in the actions that we take and the way we shape our lives Great Myths of the Brain Christian Jarrett,2014-11-17 Great Myths of the Brain introduces readers to the

field of neuroscience by examining popular myths about the human brain Explores commonly held myths of the brain through the lens of scientific research backing up claims with studies and other evidence from the literature Looks at enduring myths such as Do we only use 10% of our brain Pregnant women lose their mind Right brained people are more creative and many more Delves into myths relating to specific brain disorders including epilepsy autism dementia and others Written engagingly and accessibly for students and lay readers alike providing a unique introduction to the study of the brain Teaches readers how to spot neuro hype and neuro nonsense claims in the media Church, Capitalism, and Democracy in Post-Ecological

Societies Cheng-tian Kuo, 2018-10-24 Most ecotheologies build their arguments on the Bible's creation story and resurrection narrative in the hope to save the ecology through spiritual meditation reforming capitalism and or deliberative democracy. However, based on a Chinese Christian social scientist's perspective, this book argues that few of these ecotheologies are theologically and empirically valid. Instead, it proposes a neuro-institutional post-ecology theology that builds on the major themes of the Last Judgment to refocus ecotheology toward evangelism and to adapt ecotheology to capitalism and democracy in order to embrace the already but not yet impacts of the inevitable total destruction of the ecology in the near future. The vanities in current ecotheologies are divided into religious, economic, and political categories. Among the major ones discussed in this book are the vanities of ecological meditation theology, leftist and rightist economic theologies, as well as ecotheologies of green authoritarianism and deliberative democracy. Even if these ecotheologies work perfectly as they were intended to, global ecological crises have passed the point of no return, i.e., post-ecology, and rendering all of them a global vanity. Based on a Chinese Christian social scientist's perspective, this book proposes a moderate course of ecological spirituality, economic behaviors, and democratic actions but with a radical devotion to crisis management and evangelism in preparation for the Doomsdays. This book is unique in its balanced interdisciplinary composition, employing theories from cognitive science, Christian theology, economics, and political science. **The Brain, the Mind, and the Person Within**

Mark Cosgrove, 2019-03-21 The brain, with its nearly one hundred billion neurons, is the most complex structure in the universe, and we are living in a period of revolutionary advancements in neuroscience. Yet scientists and skeptics often frame these findings in ways that challenge the Christian worldview. Many professionals and popularizers claim that human beings are their brains and that all human behavior and experience are merely by-products of brain physiology. In *The Brain, the Mind, and the Person Within*, professor of psychology Mark Cosgrove not only explains what the brain is and what it does but also corrects common misinterpretations and demonstrates that what we know about the brain coheres with the teachings of Scripture. He contends that humans are unities of soul and body in which both the spiritual and the physical interact. From this perspective, he presents informative overviews of contemporary debates about the brain, including consciousness, free will, God, spots, personhood, and life after death. The better we understand the brain, the better we understand ourselves and our exquisite design that reflects the wisdom of the Creator. Thoughtful readers will find this to be a fascinating, accessible survey of this unique part of the body and the profound theological and technological issues surrounding it. **The Routledge**

**Handbook of Neuroethics** L. Syd M. Johnson, Karen S. Rommelfanger, 2017-07-20 The Routledge Handbook of Neuroethics offers the reader an informed view of how the brain sciences are being used to approach, understand, and reinvigorate traditional philosophical questions, as well as how those questions, with the grounding influence of neuroscience, are being revisited beyond clinical and research domains. It also examines how contemporary neuroscience research might ultimately impact our understanding of relationships, flourishing, and human nature. Written by 61 key scholars and fresh voices, the

Handbook's easy to follow chapters appear here for the first time in print and represent the wide range of viewpoints in neuroethics. The volume spotlights new technologies and historical articulations of key problems, issues, and concepts and includes cross referencing between chapters to highlight the complex interactions of concepts and ideas within neuroethics. These features enhance the Handbook's utility by providing readers with a contextual map for different approaches to issues and a guide to further avenues of interest. The Gist in the Mist Dr. Anthony Roland Lethbridge, 2009-10-21

WHAT IS REALLY REAL

Is the chair you are sitting on really there? What does reality and existence mean to you? Can you, as an ordinary human, get a grip of what reality is or could be? Well, yes, you can. You can raise your perception horizons without becoming a nuclear physicist, philosopher, or priest. MAN IS AN UNCERTAINTY MACHINE. He is fine-tuned to deal with uncertainty. He is not primarily a love machine, I am of course the exception, nor a sex machine, nor a fighting machine, nor a hate machine, and not even a gene machine. He is an UNCERTAINTY MACHINE. People like and seek certainty in their lives, but is uncertainty the real path or key to reality? Should we celebrate and embrace uncertainty? So let's start using all that uncertainty and applying it to every component of our very being. Can we trust our senses, or is perception deception? Can we trust the physical objects we are seeing around us? What is the matter, matter holding us all together, and how does matter chatter? What is the relationship between mind and matter? Is it the case that if you don't mind, it doesn't matter? Do we have free will, or are we just a quantum puppet? If religion is the opium of the masses, is science the amphetamine of the individual? Do we put too much reliance on science, and is our conviction a restriction? Could it be that doubt gives you clout? Read on, and be transformed to another world, the world of THE GIST IN THE MIST.

*Cracking the Ancient Codes* Dr. Adekunle Rowaiye, 2015-02

There exist the forces of good and evil which are both actively interfering in the affairs of men and operate by dynamics not explicitly understood by mortals. It appears that man's actions and inactions are engineered by unseen forces that manipulate him to accomplish a specific purpose. It also appears that in the fulfillment of prophecy, Satan is an unpaid worker in the kingdom of God. This treatise, *Cracking the Ancient Codes*, captures vividly the intrigues behind the Bible stories from the spiritual dimension. It narrates the story of the Seed and the Serpent manifesting in different forms as they engaged in unabated contention throughout the ages. The intentions of Satan are clear to frustrate the manifestation of the Seed by either defiling or destroying the Seed's ancestors. In this plot, Israel and Jerusalem are the sacred sites, the Jews and later the church are the principal actors. Without ambiguity, the Light shines with an outstanding luminance, and Darkness cannot decipher the mystery behind it. Mortals have to make the constant choice between life and death. Events surrounding the state of Israel and the existence of the church remain the most valid markers for fulfillment of spiritual prophecy. The world must be conscious of the warfare that exists and must not be engulfed in the deception of a no-devil secularity.
