**Gold** Matthew Hart, 2014-12-02 From the lost empires of the Sahara to today's frenzied global gold rush, a blazing exploration of the human love affair with gold by the award-winning author of *Diamond*. Since the 2008 financial crisis, the price of gold has skyrocketed in three years more than doubling from 800 an ounce to 1900. This massive spike kicked off an unprecedented global gold mining and exploration boom much bigger than the Gold Rush of the 1800s. In *Gold*, acclaimed author Matthew Hart takes you on an unforgettable journey around the world and through history to tell the incredible story of how gold became the world's most precious commodity. Beginning with a page-turning dispatch from the crime-ridden, dangerous inferno of the world's deepest mine, Hart pulls back to survey gold's tempestuous past. From the earliest civilizations 6,000 years ago when gold was an icon of sacred and kingly power, Hart tracks its evolution through conquest, murder, and international mayhem into the speculative casino chip that the metal has become. On this spellbinding journey, the reader will witness the Spanish plunder of the New World, a century of pillage that crushed the glittering Inca empire of the Andes and transferred its staggering wealth to Europe. Hart describes each boom and bust in gold's long story, each panic and shock with a masterful storytelling hand, leading the reader to the present day to the London vaults that hold the multi-ton hoards of such shadowy investors as the American gold fund called the Spider, to the amazing gold-rich bamboo forests of eastern Senegal, and to the piratical carnival of theft that enlivens the world's greatest gold-producing engine, China. With writing described as polished and fiery, Publishers Weekly says Hart weaves together history and cutthroat economics to reveal the human dramas that have driven our lust for a precious yellow metal.

*African Gold* Roman Grynberg, Fwasa K. Singogo, 2021-03-19 The book explores the evolving economics of gold as a global commodity as well as the production and trade of gold in and from the African continent. The growth of gold as an increasingly important and diverse source of African wealth is examined alongside the impact that the rise of China in the 21st century has had on the demand for gold. The volatility of the gold price has increased as a result of the dramatic decline of gold demand for manufacturing purposes. Gold is Africa's second largest export after oil.
