Mann,2006-01-23 Reveals the true nature of the secret science the Templars discovered in the Holy Land that was the key to their power Shows the cartographic knowledge that allowed the Templars to cross the Atlantic and establish settlements in the New World Explains the connection of the Templar meridians to the journey of Lewis and Clark Shows the role played by secret societies in the establishment of the United States The most enduring mystery surrounding the Templars concerns the nature and whereabouts of their great treasure Whereas many believe this lost treasure contains knowledge of the bloodline of Christ William F Mann shows that it actually consists of an ancient science developed before the Great Flood knowledge discovered by the Templars in the Holy Land during the Crusades and still extant today in Templar Masonic ritual Among other things this knowledge enabled the Order to establish accurate latitudinal and longitudinal positions long before the foundations of the current science were laid in the seventeenth century This allowed them to cross the Atlantic to reach the New World where they established secret settlements and mining operations that gave them a limitless supply of precious metals and a military edge over their opponents Pursued farther into the interior of the North American continent by their adversaries from the Old World the Templars left artifacts relics and information caches at key sites confident that future initiates could use their understanding of the science of meridians and ley lines to locate them The author points out that not only did future masons such as Jefferson and Washington use this science as the basis of their designs for Monticello and Washington D C but the true motive of the expedition of Lewis and Clark was to identify the meridians mapped by the Templars and to search for the final resting place of Prince Henry Sinclair where the great Templar treasure could also be found Medieval Latin Palaeography Leonard E. Boyle,University of Toronto. Centre for Medieval Studies,1984-01-01 A comprehensive bibliography of medieval palaeontology for a student s use *Of Counselors and Kings* Anne D. Hedeman,2001 Pierre Salmon served as royal secretary to Charles VI of France at a time when papal schism plagued the church civil war divided the country and the king suffered from an intermittent but incapacitating psychosis In an effort to find a cure for the king s illness stabilize the turbulent political situation and secure his own future Salmon supervised the production of two distinct versions of the beautifully illuminated guidebooks to good kingship known as his Dialogues Where much previous scholarship has relied on an abridged edition of the Dialogues Anne D Hedeman returns to the complete

original manuscripts to present a fresh view of Salmon's purposes. She suggests that whereas the first version 1409 held out hope for the king's eventual complete recovery and accordingly counseled him on ruling wisely, the second version 1412-15 reflected a changed political situation: the French civil war had erupted, the compromise pope had died, and efforts to find a cure for the king had failed. It included the future governors of France, especially the heir Louis of Guyenne, who took on an increased role in the government of the realm during his father's attacks of madness. Hedeman shows how Salmon manipulated artistic style and iconography to construct a visual narrative that often was quite independent of its text. She also suggests how changes to the images in François de Rochechouart's copy of the manuscript ca. 1500 signal efforts to appropriate Salmon's stature as a trusted royal advisor for later political purposes. Richly illustrated with plates from the original manuscripts, *Of Counselors and Kings* is a treat to the eye as well as to the intellect.

A Lancastrian Mirror for Princes Rosemarie McGerr, Rosemarie Potz McGerr, 2011-11-15. The Yale New statutes manuscript and medieval English statute books: similarities and differences. Royal portraits and royal arms: the iconography of the Yale New statutes manuscript. The Queen and the Lancastrian cause: the Yale New statutes manuscript and Margaret of Anjou. Educating the prince: the Yale New statutes manuscript and Lancastrian mirrors for princes. Grace be our guide: the cultural significance of a medieval law book.

The Grief of God Ellen M. Ross, 1997. Analyzing a wide range of textual and pictorial evidence, the author finds that the bleeding flesh of the wounded Savior manifests divine presence in the intensified corporeality of the suffering Jesus, whose flesh not only condemns but also nurtures, heals, and feeds believers. Meet a trinitarian God of mercy.

Jan van Eyck and Portugal's 'Illustrious Generation' Barbara von Barghahn, 2013-12-31. This book investigates Jan van Eyck's patronage by the Crown of Portugal and his role as diplomat-painter for the Duchy of Burgundy following his first voyage to Lisbon in 1428-1429, when he painted two portraits of Infanta Isabella, who became the third wife of Philip the Good in 1430. New portrait identifications are provided for the Ghent Altarpiece (1432) and its iconographical prototype, the lost Fountain of Life. These altarpieces are analysed with regard to King João I's conquest of Ceuta, achieved by his sons, who were hailed as an illustrious generation. Strong family ties between the dynastic houses of Avis and Lancaster explain Lusitania's sustained fascination with Arthurian lore and the Grail quest. Several chapters of this book are overlaid with a chivalric veneer. A second secret mission to Portugal in 1437 by Jan van Eyck is postulated, and this diplomatic visit is related to Prince Henry the Navigator's expedition to Tangier and King Duarte's attempts to forge an alliance with Alfonso V of Aragon. Late Eyckian commissions are reviewed in the light of this ill-fated crusade, and additional new portraits are identified. The most significant artist of Renaissance Flanders appears to have been patronized as much by the House of Avis as by the Duchy of Burgundy. Barbara von Barghahn is Professor of Art History at George Washington University and a specialist in the art history of Portugal, Spain, and their colonial dominions, as well as Flanders. In 1993 she was conferred O. Grao Comendador in

the Portuguese Order of Prince Henry the Navigator She has spent nearly a decade completing research about Jan van Eyck's diplomatic visits to the Iberian Peninsula

Gendering the Master Narrative Mary C. Erler, Maryanne Kowaleski, 2018-08-06 Gendering the Master Narrative asks whether a female tradition of power might have existed distinct from the male one and how such a tradition might have been transmitted It describes women's progress toward power as a push pull movement showing how practices and institutions that ostensibly enabled women in the Middle Ages could sometimes erode their authority as well This book provides a much needed theoretical and historical reassessment of medieval women's power It updates the conclusions from the editors' essential volume on that topic Women and Power in the Middle Ages which was published in 1988 and altered the prevailing view of female subservience by correcting the nearly ubiquitous equation of power with public authority Most scholars now accept a broader definition of power based on the interactions between men and women In their Introduction Mary C Erler and Maryanne Kowaleski survey the directions in which the study of medieval women's agency has developed in the past fifteen years Like its predecessor this volume is richly interdisciplinary It contains essays by highly regarded scholars of history literature and art history and features seventeen black and white illustrations and two maps
