Department of Public Instruction, 1979 **The Golden Age** Ian Inkster, Colin Griffin, Judith Rowbotham, 2017-07-05 In 1850 the Industrial Revolution came to an end In 1851 the Great Exhibition illustrated to the whole world the supremacy of industrial England For the next twenty years Britain reigned supreme From around 1870 Britain began to decline Britain is now a second rate power with strong memories of its former supremacy The above five sentences summarise a common view of the sequencing of Britain's rise and relative fall a stereotype that is challenged and modified in the essays of *The Golden Age* By concentrating on central aspects of social and industrial change authors expose the underpinnings of supremacy its unsung underside its tarnished gold Major themes cover industrial and technological change social institutions and gender relations in a period during which industry and industrialism were equally celebrated and nurtured Against this background it is difficult to argue for any sudden decline of energy assets or institution nor for any significant move from an industrial society to one in which a hearty manufacturing was replaced by commerce and land sensibility and artifice **Books and Pamphlets, Including Serials and Contributions to Periodicals** Library of Congress. Copyright Office, 1971-07 **Postwar Emigration to South America from Japan and the Ryukyu Islands** Pedro Iacobelli, 2017-07-13 Placing a distinct focus on the role of the sending state this book examines the history of postwar Japan's migration policy linking it to the larger question of statehood and nation building in the postwar era Pedro Iacobelli delves into the role of states in shaping migration flows by exploring the genesis of the state led emigration from Japan and the US administered Ryukyu Islands to South America in the mid 20th century The study proposes an alternative political perspective on migration history to analyze the rationale and mechanisms behind the establishment of migration programs by the sending state To develop this perspective the book examines the state's emigration policies their determinants and their execution for the Japanese and Okinawan migration programs to Bolivia in the 1950s It argues that the post war migration policies that established those migration flows were a result of the political cost benefit calculations rather than only economic factors of the three governments involved With its unique focus on the role of the sending state and the relationship between Japan Okinawa and the United States this is a valuable study for students and scholars of postwar Japan and migration history 田中道雄, 1974 **El-Hi Textbooks in Print**, 1980 **A History of World Societies, Combined Volume** John P.
