The Portuguese And The Pacific International Colloquium At Santa Barbara

**Francis A. Dutra, João Camilo dos
Santos**

The Portuguese And The Pacific International Colloquium At Santa Barbara:

The Portuguese and the Pacific Francis A. Dutra, João Camilo dos Santos, 1995 Proceedings of the International Colloquium on the Portuguese and the Pacific Francis A. Dutra, João Camilo dos Santos, 1995 *Being the Nação in the Eternal City* James William Nelson Novoa, 2014-12-28 James William Nelson Novoa's new book *Being the Nação in the Eternal City* explores in a set of case studies focusing on seven carefully chosen figures the presence of Portuguese individuals of Jewish origin in Rome after the initial creation of a tribunal of the Portuguese Inquisition in 1531. The book delves into the varied ways in which the protagonists representing a cross section of Portuguese society went about grappling with the complexities of a New Christian identity and tracks them through their interactions with Roman society and its institutions. Some chose to flaunt Jewish origins. They espoused a sense of being part of a distinctive group, the Portuguese New Christian *nação* that set them apart from other Portuguese. Others chose to blend as much as possible into the broader Iberian world represented at Rome and avoided calling attention to their family past. All, however, had in their own way to work out the multiple shades of what was involved in being a Portuguese with Jewish roots, needing to navigate the social and cultural pathways through Rome, the urban center of the Catholic Church. The book draws on archival research conducted in the Vatican, elsewhere in Italy, in Spain, and in Portugal. It brings a variety of sources to bear on the complex phenomenon of emergent group identities. It also proposes a critical reflexion on diasporas, the formation of sub-national communities, and on the structuring of collective memory in Early Modern Europe. The work will be useful to scholars and general readers interested in the Portuguese New Christian diaspora in sixteenth-century Rome and in the dynamics of community consciousness in Early Modern Europe. In stock. Purchase direct from Baywolf Press editions. Baywolf Portuguese Studies Review. Le nouvel ouvrage de James William Nelson Novoa *Being the Nação in the Eternal City* se penche sur la présence des Portugais d'origine juive. Rome après l'installation d'un tribunal de l'Inquisition au Portugal en 1531. Le livre présente dans un cadre analytique sept vignettes de personnages historiques. Il documente en particulier les façons dont ces agents qui représentaient une coupe de la société portugaise contemporaine choisirent d'affronter les exigences de leur nouvelle identité chrétienne tout en jouant des interactions avec la société romaine et ses institutions. Certains affichaient leur racines juives. Ils poussaient un sens d'appartenir un groupe particulier, la *nação* des Chrétiens Nouveaux d'origine portugaise. D'autres choisirent de s'intégrer le plus étroitement possible au petit monde des expatriés ibériques de toutes sortes. Rome vitant d'afficher le passé. Tous durent affronter les multiples incertitudes nombreuses d'être Portugais d'origine juive navigant entre les cueils culturels et sociaux de Rome, le siège urbain de l'Église catholique. L'ouvrage est un fruit de recherches menées en Italie, au Vatican, en Espagne et au Portugal. Il invoque des sources diversifiées pour illuminer le phénomène complexe d'identités collectives émergentes. Il propose également des réflexions critiques au sujet de diasporas, de communautés sub-nationales en croissance et de la mémoire collective au sein de l'Europe moderne naissante. Le livre s'adresse surtout tous ceux spécialistes ou non

qui s'int ressent la diaspora des Nouveaux Chrétiens portugais la ville de Rome au seizième siècle et la dynamique formative communautaire au début de la période moderne *Seventeenth-century Burma and the Dutch East India Company, 1634-1680* Wil O. Dijk, 2006 Accompanying CD ROM contains Appendices **Conversions and Citizenry** Délio de Mendonça, 2002 Studies on Portuguese Asia, 1495-1689 George D. Winius, 2024-10-28 Portuguese Asia otherwise known as the Estado da Índia Oriental has been far less studied than the Spanish empire in America its counterpart in the Western hemisphere It differed from that vast entity in that it was essentially a maritime trading operation held together by strategic territories such as Goa Ceylon or Macau For more than a century these afforded it control of much of the Indian Ocean As Professor Winius shows it was certainly the most peculiar and colourful operation that existed in the history of European expansion even giving rise to a second shadow empire created by escapees and renegades from its royal administration Some of these essays reflect on Portuguese involvement in other areas notably the Atlantic and the impact this had in the East but their focus is on the Portuguese in South and Southeast Asia They describe its nature and its rise and fall from the first voyage of Vasco da Gama to its dismemberment by the Dutch in the mid seventeenth century and include studies on the jewel trade and on the Renaissance in Goa *Creolization and Diaspora in the Portuguese Indies* Stefan Halikowski Smith, 2011-09-20 This book provides an original study of the sizeable Portuguese community in Ayutthaya the chief river state in Siam during a period of apparent decline 1640 1720 Portuguese populations were displaced from their chief settlements like Melaka and Makassar and attracted to the river states of mainland South East Asia by a protective model of kingship hopes of international trade and the opportunity to harvest souls A variety of sources will be used to shed light on the fortunes and make up of this displaced mixed race tribe which was largely independent of the matrices of Portuguese colonial power and fared poorly alongside other foreign communities in this remarkably open dynamic environment Circumstances changed for the better after the National Revolution of 1688 when Portuguese started to fill many of the jobs at court and in commerce previously occupied by Frenchmen and northern Europeans **The Same But Different?** Jessica V. Roitman, 2011-02-14 Using cutting edge theory regarding trade networks and diaspora this book offers an innovative analysis of Sephardic merchants in 17th c Amsterdam's trade Challenging views that Sephardic success stemmed from endogamous business relationships it shows that Sephardic merchants traded with non Sephardim Portuguese Merchants in the Manila Galleon System Cuauhtémoc Villamar, 2020-12-16 Villamar examines the role of Portuguese merchants in the formation of the Manila Galleon as a system of trade founded at the end of the sixteenth century The rise of Manila as a crucial transshipment port was not a spontaneous incident Instead it came about through a complex combination of circumstances and interconnections that nurtured the establishment of the Manila Galleon system a trading mechanism that lasted two and half centuries from 1565 until 1815 Villamar analyses the establishment of the regulatory framework of the trade across the Pacific Ocean as a whole setting that provided legality to the transactions predictability to the

transportation and security to the stakeholders He looks both at the Spanish crown strategy in Asia and the emergence of a network of Portuguese merchants located in Manila and active in the long distance trade This informal community of merchants participated from the inception of the trading system across the Pacific with connections between Europe ports in Asia under the control of Portugal the Spanish colonies in America and the city of Manila From its inception the newly founded capital of the Philippines became a hub of connections attracting part of the trade that already existed in Asia Surveying the Portuguese commercial networks from the Estado da ndia across the Spanish lake this book sheds light on the early modern globalization from a truly comprehensive Iberian perspective This is a valuable resource for scholars of Pacific and Iberian trade history and the maritime history of Asia *Portuguese Colonial Cities in the Early Modern World* Liam Matthew Brockey, 2016-12-05 Portuguese Colonial Cities in the Early Modern World is a collection of essays on the cities of the Portuguese empire written by the leading scholars in the field The volume like the empire it analyzes has a global scope and a chronological span of three centuries The contributions focus on the social political and economic aspects of city life in settlements as far apart as Rio de Janeiro Mozambique Island and Nagasaki Despite the seeming and real disparities between the colonial cities located in South America Africa and Asia this volume demonstrates that they possessed a range of commonalities Beyond their shared language these cities had similar social religious and political institutions that shaped their identities In many cases the civic bodies analyzed in these essays such as the city councils or the Miseric rdias charitable brotherhoods no less than the convents and houses of Catholic religious orders contributed more to making these cities Portuguese than their allegiance to the crown in Lisbon Rather than dividing the globe into Atlantic and Indian Ocean spheres Portuguese Colonial Cities in the Early Modern World takes the novel approach of bringing together analyses of the social history of these cities in order to stress their shared aspects as well as to suggest paths for fruitful comparisons By encouraging further scholarship in this rich yet understudied subject this collection will not only further comparisons between cities found within the Portuguese empire but also raise important issues that will be of interest to historians of other European empires as well as urban historians generally
