The Post War History Of The British Working Class:

The Post-war History of the British Working Class George Allen Hutt,1937 **The British working class in postwar film** Philip Gillett,2019-01-04 An incidental pleasure of watching a film is what it tells us about the society in which it is made Using a sociological model The British working class in postwar film looks at how working class people were portrayed in British feature films in the decade after the Second World War Though some of the films examined are well known others have been forgotten and deserve reassessment Original statistical data is used to assess the popularity of the films with audiences With its interdisciplinary approach and the avoidance of jargon this book seeks to broaden the approach to film studies Students of media and cultural studies are introduced to the skills of other disciplines while sociologists and historians are encouraged to consider the value of film evidence in their own fields This work should appeal to all readers interested in social history and in how cinema and society works The Post-war History of the British Working Class Allen Hutt,1972 *A Short History of the British Working Class Movement* George Douglas Howard Cole,1927 A Short History of the British Working Class Movement, 1789-1925 George Douglas Howard Cole,1927 Representations of Working-Class Masculinities in Post-War British Culture Matthew Crowley,2020-02-06 This book presents an analysis of representations of white heterosexual working class masculinities in British culture between 1945 and 1989 to trace the development of the sociocultural and material conditions that shaped the masculinities which are helping to shape contemporary culture This book seeks to fan the spark of hope in the past that informs our present The period which saw the establishment of the welfare state and the construction and breakdown of the post war consensus in British politics was of great significance in the formation and maintenance of working class masculinities and their correspondent representations The author engages with a variety of cultural texts across various modes and media including films *Alfie* *Plays Don't Look Back* *In Anger* television *Boys from the Blackstuff* and music The Beatles and employs the analysis of the representation of working class masculinities as a lens through which to examine a range of historical and cultural moments This book reinstates class as a central precept in the study of British cultural representations and offers a timely intervention in ongoing debates around class and gender identities in Britain The book will be key reading for students and researchers with interests in twentieth century social and cultural British history masculinities and gender studies twentieth century British literature British television and cultural studies more broadly **Home in British Working-Class Fiction** Nicola Wilson,2016-03-09 *Home in British Working Class Fiction* offers a fresh take on British working class writing that turns away from a masculinist work based understanding of class in favour of home gender domestic labour and the family kitchen As Nicola Wilson shows the history of the British working classes has often been written from the outside with observers looking into the world of the inhabitants Here Wilson engages with the long cultural history of this gaze and asks how home is represented in the writing of authors who come from a working class background Her book explores the depiction of home as

a key emotional and material site in working class writing from the Edwardian period through to the early 1990s Wilson presents new readings of classic texts including *The Ragged Trousered Philanthropists* *Love on the Dole* and *Saturday Night and Sunday Morning* analyzing them alongside works by authors including James Hanley Walter Brierley Lewis Grassie Gibbon Buchi Emecheta Pat Barker James Kelman and the rediscovered ex mill girl novelist Ethel Carnie Holdsworth Wilson's broad understanding of working class writing allows her to incorporate figures typically ignored in this context as she demonstrates the importance of home's role in the making and expression of class feeling and identity

An Economic History of Western Europe 1945-1964 M.M Postan, 2013-11-05 This book includes the economic history of some of Western Europe with a focus on the United Kingdom Germany and France from 1945 to a few years before original date of publishing in 1967

Working-Class Community in the Age of Affluence Stefan Ramsden, 2017-02-24 It has appeared to many commentators that the most fundamental change in what it is meant to be working class in twentieth century Britain came not as a result of war or of want but of prosperity Social investigators documented how the relative affluence of the 1950s and 1960s improved the material conditions of life for working class Britons whilst eroding their commitment to the shared life of traditional communities Utilising an oral history case study of sociability and identity in the Yorkshire town of Beverley between the end of the Second World War and the election of Margaret Thatcher's government *Working Class Community in the Age of Affluence* challenges this influential narrative An introductory essay outlines how sociologists and historians understood the complex social cultural and economic changes of the post war decades through the prism of affluence and traces how these changes came to be seen as deleterious to the traditional working class community The book then proceeds thematically exploring change across areas of social life including family neighbourhood workplace and associational life This book represents the first sustained historical analysis of change and continuity in working class community living during the age of affluence It suggests not only that older social practices persisted but also that new patterns of sociability could strengthen as much as undermine community Ultimately *Working Class Community in the Age of Affluence* asks us to rethink assumptions about the decline of local solidarities in this pivotal period and to recognise community as a key feature of working class life across the twentieth century
