E.P. THOMPSON

The Poverty Of Theory And Other Essays

Scott Hamilton

The Poverty Of Theory And Other Essays:

The Poverty of Theory & Other Essays Edward Palmer Thompson, 1978 This classic collection of essays by E P Thompson one of England's most renowned socialist voices remains a staple text in the history of Marxist theory The bulk of the book is dedicated to Thompson's famous polemic against Louis Althusser and what he considers the reductionism and authoritarianism of Althusserian structuralism In lively and erudite prose Thompson argues for a self critical and unapologetically humanist Marxist tradition Also included are three essays of considerable importance to the development of the New Left Called essential reading for American radicals by *The Nation* this book is one no serious socialist can afford to be without **The Poverty of Theory & Other Essays**, 1981 **Poverty of Theory** E. P. P. Thompson, 1978-01-01 This classic collection of essays by E P Thompson one of England's most renowned socialist voices remains a staple text in the history of Marxist theory The bulk of the book is dedicated to Thompson's famous polemic against Louis Althusser and what he considers the reductionism and authoritarianism of Althusserian structuralism In lively and erudite prose Thompson argues for a self critical and unapologetically humanist Marxist tradition Also included are three essays of considerable importance to the development of the New Left **The Poverty of Theory and Other Essays** Edward Palmer Thompson, 1978 [The Crisis of Theory](#) Scott Hamilton, 2013-07-19 *The Crisis of Theory* available in paperback for the first time tells the story of the political and intellectual adventures of E P Thompson one of Britain's foremost twentieth century thinkers Drawing on extraordinary new unpublished documents Scott Hamilton shows that all of Thompson's work from his acclaimed histories to his voluminous political writings to his little noticed poetry was inspired by the same passionate and idiosyncratic vision of the world Hamilton shows the connection between Thompson's famously ferocious attack on the Stalinism in theory of Louis Althusser and his assaults on positivist social science in books like *The making of the English working class* and he produces previously unseen evidence to show that Thompson's hostility to both left and right wing forms of authoritarianism was rooted in first hand experience of violent political repression This book will appeal to scholars and general readers with an interest in left wing politics and theory British society twentieth century history modernist poetry and the philosophy of history *An Essay on the Need to Revise Marx' and Engels' Historical Materialism* Ib Gram-Jensen, 2025-04-29 This book argues that apart from a number of ambiguities and inner tensions Marx and Engels' historical materialism suffers from a misconception of the nature and motive power of historical development and transformations on which their unwarranted confidence in the inevitability of the transition from capitalism to socialism and eventually classless communist society is based and from a consequent failure to address the problems of accomplishing this transition the desirability of which is not denied No finished alternative is offered but some elements of a better version retaining the critical and revolutionary edge of Marx and Engels own are suggested Others doubtlessly remain to be thought out **The Crisis from Within: Historians, Theory, and the Humanities** Nigel Raab, 2015-05-19 In *The Crisis from*

Within Nigel Raab explores weaknesses that emerge when using interdisciplinary theories in historical analysis With chapters that focus on knowledge language memory imagining and inventing and civil society the analysis reveals how theoretical applications can be the source of interpretive confusion By drawing from a global range of historical works Nigel Raab demonstrates how this problem concerns all historical sub fields From science in the seventeenth century to communism in the twentieth century theories often overdetermine analysis in a way the historian never intended After the enthusiastic reception of theory for over a generation *The Crisis from Within* argues that the time has come to pause and think seriously about how we wish to proceed with theory

European Film Theory and Cinema Ian Aitken, 2001-08

European Film Theory and Cinema explores the major film theories and movements within European cinema since the early 1900s An original and critically astute study it considers film theory within the context of the intellectual climate of the last two centuries Ian Aitken focuses particularly on the two major traditions that dominate European film theory and cinema the intuitionist modernist and realist tradition and the post Saussurian tradition The first originates in a philosophical lineage that encompasses German idealist philosophy romanticism phenomenology and the Frankfurt School Early intuitionist modernist film culture and later theories and practices of cinematic realism are shown to be part of one continuous tradition The post Saussurian tradition includes semiotics structuralism and post structuralism

Theory and History Gerard McCann, 2019-05-23

First published in 1997 the aim of this book is to look at the historical materialism of E P Thompson while introducing him as a political thinker of distinction The study examines many aspects of Thompson s life and work to give a comprehensive statement on his theory of historical change It surveys the intellectual background from which he emerged the core values of socialist humanism as understood by his generation of the Left his contribution to history from below his critique of structuralist Marxism and his practical input to political dissent The scope of this study covers fifty years of socialist polemics and offers an insight into the battles which were fought out between the old and new Left until the collapse of command economy communism in 1989 Throughout the work of Thompson is presented as a testimony to a lineage of social thinkers as well as to the ideal of the common weal much cherished by radical practitioners of the past

The Oxford Handbook of Feminist Theory Lisa Disch, Mary Hawkesworth, 2018-02-01

The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to analyze the known world Featuring leading feminist theorists from diverse regions of the globe this collection delves into forty nine subject areas demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of contestation within feminist theory Demonstrating the interdisciplinary nature of feminist theory the chapters offer innovative analyses of topics central to social and political science cultural studies and humanities discourses associated with medicine and science and issues in contemporary critical theory that have been transformed through feminist theorization The handbook identifies limitations of key epistemic assumptions that inform traditional scholarship and shows how

theorizing from women's and men's lives has profound effects on the conceptualization of central categories whether the field of analysis is aesthetics biology cultural studies development economics film studies health history literature politics religion science studies sexualities violence or war
