The Power Of Reason:

The Power of Reason 1988 Lyndon H. LaRouche, Jr., 2015-09-02 From the Author's Foreword 1987 During the course of the past nearly twenty years I have become perhaps the most controversial among the influential international figures of this decade Unlike all of the other leading candidates for the U S presidency since 1945 I am an influential original thinker This is not to suggest that such prospective candidates as Vice President George Bush and Senator Robert Dole are lacking in intelligence or executive abilities For the past forty years the successful candidates for the presidency have been persons who in the customary manner of speaking advanced their political career up to that point by doing the right thing at the right time saying and doing nothing which will make enemies among important factions of the establishment Bush and Dole for example have adapted to those rules for success under ordinary conditions However this is a crisis in such crises what is customarily successful becomes a failure Our nation has once again entered into a time when only the unusual succeeds and the usual fails We have entered into a period of crisis in which only original thinkers are qualified to lead On paper our nation is a constitutional democratic republic In reality it has not been such a republic for approximately one hundred years certainly not since the sweeping changes in our form of government introduced during the presidency of Theodore Roosevelt Most of the time the policies of government the selection of most leading candidates for federal office and the majority of popular opinion have been regulated by behind the scenes committees representing what is called the establishment Under this arrangement candidates for leading office present themselves like job applicants for corporate executive appointments to this establishment The establishment either gives such candidates permission to campaign or not at this time If given such permission the candidate so authorized seeks backing for his or her election by the establishment by proving to the establishment that he or she can sell the policy which the establishment has decided to push at that time I began to understand this in 1947 I wished General Dwight Eisenhower to campaign for the 1948 Democratic nomination The general replied to me stating agreement with my policy arguments in support of his candidacy but informing me his candidacy was not appropriate at that time There is no doubt that Eisenhower could have won the 1948 nomination and election by a landslide had the establishment permitted him to campaign

Legitimacy Arthur Isak Applbaum, 2019-11-19 At an unsettled time for liberal democracy with global eruptions of authoritarian and arbitrary rule here is one of the first full fledged philosophical accounts of what makes governments legitimate What makes a government legitimate The dominant view is that public officials have the right to rule us even if they are unfair or unfit as long as they gain power through procedures traceable to the consent of the governed In this rigorous and timely study Arthur Isak Applbaum argues that adherence to procedure is not enough even a properly chosen government does not rule legitimately if it fails to protect basic rights to treat its citizens as political equals or to act coherently How are we to reconcile every person's entitlement to freedom with the necessity of coercive law Applbaum's answer is that a government legitimately governs its citizens only if the government is a free group agent constituted by free citizens To be a such a group agent a government must uphold three principles The liberty principle requiring that the basic rights of citizens be secured is necessary to protect against inhumanity a tyranny in practice The equality principle requiring that citizens have equal say in selecting who governs is necessary to protect against despotism a tyranny in title The agency principle requiring that a government's actions reflect its decisions and its decisions reflect its reasons is necessary to protect against wantonism a tyranny of unreason Today Applbaum writes the greatest threat to the established democracies is neither inhumanity nor despotism but wantonism the domination of citizens by incoherent inconstant and incontinent rulers A government that cannot govern itself cannot legitimately govern others *The New Schelling* Judith

Metaphysical Artifact Obed Frausto, 2023-02-06 In the nineteenth century French and Mexican intellectuals had a common interest in providing a groundwork for educating better citizens in response to social crises There were political and philosophical controversies regarding science and technology in this environment between spiritualists humanists and positivists scientists Power and knowledge were intertwined in these controversies Another objective of the book is to show that controversies can be seen as a dispute between two cultures between those in favor of science and technology and those in favor of philosophy and the humanities Their continuous arguments articulated a third culture based on an intertwining of

power and knowledge This articulation had an implicit dimension in which philosophy science and technology had to interact to enrich the political potential of the human experience of thinking They were able to grasp a mix or a synthesis that conceptualized the power of a metaphysical artifact in which philosophy science and technology belong to the same culture where politics helps invite dialogue between different cultural religious and political perspectives [The Reasoning Power is Animals](#) John Selby Watson,2021-11-07 Reprint of the original first published in 1867 **Power and Care** Tania Singer,Matthieu Ricard,Kate Karius,2019-05-07 Leading thinkers from a range of disciplines discuss the compatibility of power and care in conversation with the Dalai Lama For more than thirty years the Dalai Lama has been in dialogue with thinkers from a range of disciplines helping to support pathways for knowledge to increase human wellbeing and compassion These conversations which began as private meetings are now part of the Mind power can be used to benefit others or to harm them to build or to destroy Care on the other hand is not a neutral force it aims at increasing the wellbeing of others Power and care are not incompatible power imbued with care can achieve more than a powerless motivation to care power without the intention to benefit others can be ruthless The contributors who include such celebrated figures as Frans B M de Waal Olafur Eliasson Sarah Blaffer Hrdy and Jody Williams discuss topics including the interaction of power and care among our closest relatives the chimpanzees the effect of meditation and mental training practices on the brain the role of religion in promoting peace and compassion and the new field of Caring Economics Contributors Paul Collier Brother Thierry Marie Courau Frans B M de Waal Olafur Eliasson Scilla Elworthy Alexandra M Freund Tenzin Gyatso His Holiness the Dalai Lama Markus Heinrichs Sarah Blaffer Hrdy Fr d ric Laloux Alaa Murabit Matthieu Ricard Johan Rockstr m Richard Schwartz Tania Singer Dennis J Snower Rabbi Awraham Soetendorp Theo Sowa Pauline Tangiora Jody Williams **The Power Of Purpose** Patrizia Patz,2023-04-06 We have been conditioned in a society where work primarily ensures survival and grants status Vocation is not really an aspect worth thinking about in the current world of work And even when we have clarity about what we burn for what we really want to do most people seeking their calling remain in the established model Why do we so freely trade freedom and fulfilment for apparent security Why have we lost our courage Patrizia Patz s book provides answers It explores the feasibility between desire and reality provides attractive possibilities to get on the track of our passions and talents and to realise a good life with a job that also pays the bills For this to succeed we need a new way of thinking and a little courage to leave the pre drawn mainstream career path and expand our own comfort zone The first steps are simple get clear about what you like to do and what you are passionate about Free yourself from expectations that you should live up to Take courage and trust in the creative power that lies dormant within you **The Power Of Your Mind** Chris Oyakhilome D.Sc., D.D.,2019-04-01 God s dream is for you to come into full possession of His manifold blessings and your mind is the vital instrument He s given you to appropriate this provision This timely classic opens to you that realm of endless possibilities and helps you explore the unlimited potential of your mind So get ready to make the right changes in the

On Knowing Richard P. McKeon, 2017-02-09 As a philosopher Richard McKeon spent his career developing Pragmatism in a new key specifically by tracing the ways in which philosophic problems arise in fields other than philosophy across the natural and social sciences and aesthetics and showed the ways in which any problem pushed back to its beginning or taken to its end is a philosophic problem The roots of this book *On Knowing The Social Sciences* are traced to McKeon's classes where he blended philosophy with physics ethics politics history and aesthetics This volume the second in a series leaves behind natural science themes to embrace freedom power and history which McKeon argues lay out the whole field of human action The author McKeon considers Hobbes Machiavelli Spinoza Kant and J S Mill show brilliantly how philosophic methods work in action via analyses that do not merely reduce or deconstruct meaning but enhance those texts by reconnecting them to the active history of philosophy and to problems of ethics politics and history The waves of modernism and post modernism are receding Philosophic pluralism is now available fully formulated in McKeon's work spreading from the humanities to the social sciences
