The Practice of Love Teresa De Lauretis, 1994 Between 1970 and now in conjunction with earlier and contemporaneous social movements feminism and poststructuralism have made way for the rise of minority discourse and gay and lesbian studies as fields of scholarly and theoretical research Conceived from the vantage point of the latter this book returns to Freudian psychoanalysis and semiotics to the questions of representation subjectivity desire and their relations to social signification and material reality

The Practice of Love Lair Torrent, 2022-02-15 A master class in relationship repair and connection At its core this book delivers an inconvenient truth Our relationships have to be a daily practice if we want them to thrive We should treat them like we treat anything that we want to succeed by giving them time and attention For far too long it has been assumed that we should innately understand how to love one another Relationships have fallen into the category of things we should know how to do But we are not born knowing how to make a relationship work any more than we are born knowing how to file taxes or buy insurance and there are no classes in high school or college that teach us how to do this The Practice of Love is that class In his work Lair Torrent a licensed marriage and family therapist brings together concepts and tools that can actually help couples heal for the long haul Diving beneath the symptoms most therapies focus on he helps couples develop a deeper understanding of the wounds that brought them together and how they show up in their relationships The 5 Practices gives the reader an opportunity to weed out and take responsibility for limiting or negative habits while allowing them to learn and adopt new and healthier practices with their partner These are not short term solutions but rather a path to profound healing deeper connection and stronger happier relationships

The Path to Love is the Practice of Love Carol Riddell, 1995 The book explains the meaning of a spiritual life and provides a way for people to get together with like minded friends to practice its principles Through understanding and practice the book promotes the chance to transform daily life to give meaning to its experiences and to find happiness in the service of others The teachings can apply equally to Christians Buddhists Moslems Hindus or Humanists as long as it is accepted that the essential principle of the cosmos is love a love both detached and personal all pervasive and specific wisdom that can be learned first third of the book The exercises have been tested out over a period of four years in workshops in several European countries and at the Findhorn Foundation
