The Praetorian Guard The Us Role In The New World Order:

The Praetorian Guard John Stockwell, 1991 Since its publication in 1991 this book has stayed in print although some parts may now be dated Stockwell examines often unjustified involvement of the CIA in many parts of the world through thousands of covert operations which have ended the lives of millions of people He describes secret and obscure operations some of which entailed the killing of people by the thousands at Angola and others such as the one which overthrew the first democratic government in Guatemala and the creation of the infamous death squads in that country and El Salvador to murder civilians and seed terror among the people

Who Paid the Pipers of Western Marxism? Gabriel Rockhill, 2025-12 Who Paid the Pipers of Western Marxism offers a crash course in the history of imperialist propaganda as well as in the Marxist method for analyzing culture and ideology Author Gabriel Rockhill demonstrates the explanatory and transformative superiority of a dialectical and historical materialist approach while elucidating how the world of ideas is a crucial site of class struggle He then engages in a meticulous counter history of the Frankfurt School which made a foundational contribution to Western Marxism by situating it within the global relations of class struggle and the imperialist war on actually existing socialism With the explicit and direct backing of powerful elements in the capitalist ruling class and the world s leading imperialist state the Frankfurt School developed a widely promoted form of compatible critical theory as an ersatz for dialectical and historical materialism The volume concludes by bringing to the fore the positive project that serves as the guiding methodological framework for the work as a whole a thoroughly anticolonial and anti imperialist Marxism dedicated to

building socialism in the real world Drawing on extensive archival research to pull back the curtain on ruling class machinations Rockhill's book elucidates how the intellectual world war on the socialist alternative has sought to shore up and promote a compatible left intelligentsia while misrepresenting, maligning and trying to destroy the revolutionary left

Winning the War on War Joshua S. Goldstein, 2012-07-31 The most important political book of the year Gregg Easterbrook author of *The Progress Paradox* Everyone knows wars are getting worse more civilians are dying and peacemaking achieves nothing right Wrong Despite all the bad news headlines peacekeeping is working Fewer wars are starting more are ending and those that remain are smaller and more localized But peace doesn't just happen it needs to be put into effect Moreover understanding the global decline in armed conflict is crucial as America shifts to an era of lower military budgets and operations Preeminent scholar of international relations Joshua Goldstein definitively illustrates how decades of effort by humanitarian aid agencies popular movements and especially the United Nations have made a measureable difference in reducing violence in our times Goldstein shows how we can continue building on these inspiring achievements to keep winning the war on war This updated and revised edition includes more information on a post 9/11 world and is a perfect compendium for those wishing to learn more about the United States armed conflicts in Iraq and Afghanistan

Crimes of the American Nuclear State David Kauzlarich, Ronald C. Kramer, 1998 In this provocative book the authors outline the crimes committed by the state under the protective shield of national security including the shaping of foreign policy around the threat of nuclear hostility the subjection of Americans to human radiation experiments and the massive environmental contamination caused by radioactive waste This insightful work clearly shows that the threats posed by nuclear states extend far beyond the dangers of nuclear war The authors argue convincingly that criminologists government officials and the general public have for too long avoided and neglected the illegal aspects of nuclear weapons policies in particular and the larger issue of state crime in general

Animal Oppression and Human Violence David Nibert, 2013-04-30 By comparing practices of animal exploitation for food and resources in different societies over time David Nibert finds in the domestication of animals which he renames domesecration a perversion of human ethics the development of large scale acts of violence disastrous patterns of destruction and epidemics of infectious disease

Shadow Warfare Larry Hancock, Stuart Wexler, 2015-03-17 Contrary to its contemporary image deniable covert operations are not something new Such activities have been ordered by every president and every administration since the Second World War In many instances covert operations have relied on surrogates with American personnel involved only at a distance insulated by layers of deniability *Shadow Warfare* traces the evolution of these covert operations detailing the tactics and tools used from the Truman era through those of the contemporary Obama Administrations It also explores the personalities and careers of many of the most noted shadow warriors of the past sixty years tracing the decade long relationship between the CIA and the military *Shadow Warfare* presents a balanced non polemic exploration of American secret warfare detailing its

patterns consequences and collateral damage and presenting its successes as well as failures Shadow Wars explores why every president from Franklin Roosevelt on felt compelled to turn to secret deniable military action It also delves into the political dynamic of the president's relationship with Congress and the fact that despite decades of combat the U S Congress has chosen not to exercise its responsibility to declare a single state of war even for extended and highly visible combat

Decolonization and Conflict Martin Thomas, Gareth Curless, 2017-06-15 Insurgency based irregular warfare typifies armed conflict in the post Cold War age For some years now western and other governments have struggled to contend with ideologically driven guerrilla movements religiously inspired militias and systematic targeting of civilian populations Numerous conflicts of this type are rooted in experiences of empire breakdown Yet few multi empire studies of decolonisation's violence exist Decolonization and Conflict brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe's empires after 1945 The contributors analyse multiple forms of colonial counter insurgency from the military engagement of anti colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare Contributors to the collection also show how insurgencies their propaganda and methods of action were inherently transnational and inter connected The resulting study is a vital contribution to our understanding of contested decolonization It emphasises the global connections at work and reveals the contemporary resonances of both anti colonial insurgencies and the means devised to counter them It is essential reading for students and scholars of empire decolonization and asymmetric warfare
