The Price Of Love Sermon:

The Relevance of Newman in a "Post-Christian" World Keith Beaumont, Robert C. Christie, 2021-02-01 What has Newman to say today not just to Christians but to those shapers of public opinion in education and the media for whom Christianity is no longer a point of reference or to those for whom all religion is merely a matter of personal and subjective opinion This is the central question of this volume As it shows Newman challenges us to think in an integrated way connecting different areas of thought and experience He invites us to reflect on the nature of the human person and the self on the nature of conscience and its role in contemporary political life and on the relationship between the individual and the community The contributions here show that Newman challenges us to examine the relationships between different academic disciplines in the quest for a connected view or grasp of things He invites us to see faith as not just a question of believing but also as a quest for a personal living relationship His thought throws fresh light on the nature of inter religious dialogue and contemporary evangelism

Ethical Patterns in Early Christian Thought Eric

Osborn,1976-01-08 In so called Christian countries an increasing number of people openly reject Christian morality It is a commonplace that they do this for values that can be shown to be Christian How did this state of affairs come about An examination of the beginning of Christian ethical thought shows that within great personal variety certain patterns or concepts remain constant Righteousness discipleship faith and love are traced in this book from the New Testament through to Augustine There is a necessary tension between high ideals and practical performance or between perfection and contingency When this tension is lost Christian ethics can easily go wrong The amoral perfectionism of second century Gnostics is remarkably similar to the mysticism of communal movements the opposite threat of legalism has always been present in conservative forms of Christianity Dr Osborn is concerned to explain rather than to defend to look at the way conclusions are reached and to show the rich diversity of early Christian thought Successive chapters deal with the New Testament Clement of Alexandria Basil the Great John Chrysostom and Augustine
