The Primal Revolution:

The Primal Revolution Arthur Janov, 1972 **The Primal Revolution** Arthur Janov, 1974-01-01 *An Anatomy of the Primal Revolution* Walter Kaufmann, 1974 *The Mother and Narrative Politics in Modern China* Sally Taylor Lieberman, 1998 A modernist icon an object of forbidden desire a symbol of loss and suffering and an incorrigible survivor the mother takes all of these forms in Chinese literature from the 1920s and 1930s In an innovative analysis Sally Taylor Lieberman explores the meanings the maternal figure acquired at a particular place and time and then engages those meanings in a feminist rereading of the master narratives of modern Chinese intellectual and literary history Drawing on feminist literary criticism and the theories of Julia Kristeva Melanie Klein and Sigmund Freud Lieberman breaks traditional analytical boundaries as she explores the place of the mother in the ideological struggles through which the modern Chinese canon attained its present shape **Europe in 1848** Dieter Dowe, 2001 The events of 1989 90 in Europe demonstrated the renewed relevance of the mid nineteenth century uprisings both by showing once again how a revolutionary initiative could quickly spread through different European countries but also by calling into question the nature of revolution and the criteria for a revolution s success and failure To commemorate the 1848 revolution in a spirit of renewed critical inquiry an international team of prominent historians have come together to produce what must be the most comprehensive work on this topic to date and to offer a synthesis that sums up the current state of scholarly research emphasizing the many new interpretations that have developed over several decades *Mariale* , 1925 **The Book of Highs** Edward Rosenfeld, 2018-04-17 Blow your mind with this catalog of drug free techniques from the mystical to the mechanical and from the ancient to the state of the art An encyclopedia for the curious and courageous The Book of Highs catalogs the hundreds of ways humans can alter consciousness minus drugs and alcohol Drawn from cultures around the world as well as from neurological research here are positive techniques Self Hypnosis Alterations of Breathing Fervent Prayer Spinning And here are negative techniques Self Flagellation Sleep Deprivation Fire Walking Methods derived from religious and mystic traditions Transcendental Meditation Tea Ceremony Tantric Sex Methods that use devices from the domestic Metronome Watching to the state of the art Brain Wave Biofeedback Electrodermal Activity EDA Ganzfeld Effect and Psychedelic Bathtub Whether you re looking for a life changing adventure like Skydiving something to do every day just to change things up like Zen Morning Laugh or just some enlightenment about the lengths people have gone to in order to experience something new The Book of Highs will get you there **The Indivisible Globe, the Indissoluble Nation** Li-Chun Hsiao, 2021-04-20 Li Chun Hsiao attempts to rethink under the rubric of globalization several key notions in postcolonial theory and writings by revisiting what he conceives as the primal scene of postcoloniality the Haitian Revolution He unpacks and critiques the post structuralist penchants and undercurrents of the postcolonial paradigm in First World academia while not reinstating earlier Marxist stricture Focusing on Edouard Glissant s C L R James s and Derek Walcott s representations of Toussaint L

Ouverture and the Haitian Revolution the textual analyses approach the issues of colonial mimicry postcolonial nationalism and postcoloniality in light of recent reconsiderations of the universal and the particular in critical theories and psychoanalytic conceptions of trauma identity and jouissance Hsiao argues that postcolonial intellectuals characteristic celebration of the Particular together with their nuanced denunciation of the postcolonial nation and the Revolution doesn't really do away with the category of the Universal nor twist free of the problematic of the logics of difference equivalence that sustains the living on of the nation state despite an ever expanding globality rather such a postcolonial phenomenon is symptomatic of a disavowed traumatic event that mirrors and prefigures the predicament of the postcolonial experience while invoking its simulacra and further struggles centuries later *On Metaphysical Necessity* Franklin I. Gamwell, 2020-08-01 In this collection of essays Franklin I Gamwell offers a defense of transcendental metaphysics especially in its neoclassical form and builds a case for its importance as a tool for addressing abiding problems in philosophical theology and morality including talk about God human fault moral decision and the relationship of politics and religious freedom In Part I Gamwell argues against Kant and a wide range of contemporary philosophers for the validity of transcendental metaphysics designated in the strict sense He engages with Aquinas Schleiermacher Augustine and Reinhold Niebuhr to argue that neoclassical metaphysics for which the divine whole is itself temporal or forever self surpassing provides a more coherent account of God than does classical metaphysics for which the divine whole is completely eternal In Part II Gamwell looks at transcendental metaphysics designated in the broad sense In particular he takes up the moral opportunity with which humans are presented and argues that the moral law depends on a comprehensive good that is a good defined metaphysically in the strict sense He then offers an extended discussion of the relation between transcendental metaphysics and morality and explores Ronald Dworkin's view of the relationship between democracy and religion the question of whether religious activities are properly exempted from generally applicable laws and the constitutional debate about national and states rights *Alternative Psychotherapies* Jean Mercer, 2014-07-30 *Alternative Psychotherapies* Evaluating Unconventional Mental Health Treatments addresses concerns about current and newly emerging mental health treatments that are considered unconventional In a parallel to complementary and alternative medical treatments alternative psychotherapies lack research support are at odds with established information about human personality and development and may actually be harmful Professionals and students in the helping professions may find such treatments confusing and difficult to differentiate from emerging therapies that have not yet established a foundation of evidence this is especially problematic if clients propose using unconventional therapies they have found on the Internet *Alternative Psychotherapies* examines a series of unconventional treatments in terms of the research supporting them their theoretical and historical backgrounds and the potential or documented adverse events that may be associated with them Therapies for both adults and children are included and topics range from recovered memory therapies to bodywork to treatments for autism and to

special education issues Alternative psychotherapies frequently share certain historical backgrounds and psychotherapists can use historical insights as well as an understanding of basic research rules and psychological theory to identify unconventional treatments other than the ones discussed The book concludes with a discussion of the advantages and disadvantages of greater regulation of alternative therapies as compared to the current situation in which few mental health interventions are banned or limited by law
