

The Prisoner

**X. B. Saintine (pseud. [i.e. Joseph
Xavier Boniface.])**

The Prisoner:

The Prisoner Carlos J. Cortes, 2009-09-29 2049 Earth's prisons are shut down and all inmates placed in massive hibernation tanks. In the ten years since then no one has broken out until now. When prisoners check into Washington D.C.'s maximum security sugar cube they don't check out. Here lie suspended not just the planet's most dangerous criminals but also half a million so-called center inmates, troublesome activists whose only offense is to challenge those in power. Laurel Cole was one of those inmates and now she's on the run. After pulling off a meticulously executed escape plan, she and her team must elude the police by descending into the tunnels that run like poisoned veins beneath the city. Pursued by a ruthless mercenary who knows these sewers better than anyone, Laurel seeks help from a group of renegades who live huddled in the fetid darkness. But if she ever hopes to see daylight again and expose the government's lies, she'll have to go even deeper and the clock is ticking.

The Prisoner's Release Keith Soothill, 2023-10-25 For well over one hundred years, society had considered ways of helping prisoners on their release from prison, but there had been no serious attempt to assess in a scientific manner the value of such efforts. Originally published in 1974, this book broke with this tradition and was the first full-scale work published in this country evaluating carefully whether an active policy of finding suitable employment for men immediately on their release from prison had beneficial results. The first part of the book discusses the historical development of prison after care from its early origins in the nineteenth century and indicates how up to the Second World War the primary object of after care had been regarded as the reinstatement of the ex-prisoners in employment. Gradually the specific task of finding jobs for ex-prisoners had become a peripheral activity considered as the responsibility of the Department of Employment. The effectiveness of the Department's pre-release procedure for prisoners is discussed. The rest of the book considers the fascinating Apex project set up to examine the effectiveness of finding work for ex-prisoners. The work of Apex continued to develop and expand, but the present study considers the first five years when over four hundred men were randomly selected from two London prisons and offered the services of a specialist employment agency. The outcome for these men is compared with a control group of over three hundred men randomly selected from the same prisons. This study is concerned with the general run of the prison population and interestingly shows how some prisoners accept and others reject the offer of an employment service. It further indicates the enormous efforts sometimes needed to find suitable employment for prisoners on release. The outcome of the job interviews arranged in terms of the proportions attending the interviews, starting the jobs, and the length of time men stayed in the jobs arranged is vital reading for anyone involved in after care. An important part of the work is the examination of the subsequent reconviction rates for the various groups of offenders and the implication that it seems possible to predict men who are unlikely to be helped by the simple provision of employment on release. The final chapter considers critically some of the assumptions upon which the Apex project was based and the possible use of computer techniques in the individualization of treatment is briefly discussed. The author was

particularly well qualified to discuss this subject for apart from his work over a number of years with several after care organizations the present project involved working in prisons for over three years as well as interviewing and talking to men after their release The findings of this study will interest the wide variety of people concerned with prison after care Criminologists sociologists probation officers and all others working in prisons and after care will recognize the important implications of the material presented in this book
