The Genesis Of Capitalism The Origins Of Modernity:

The Genesis of Capitalism and the Origins of Modernity Luciano Pellicani, 1994 Max Weber: From History to Modernity Profesor Bryan S Turner, 2002-09-11 This wide ranging and assured book written by one of the leading Weber scholars in the English speaking world shows us the many sides of Max Weber The book provides an authoritative guide to the current burning issues in social theory religion rationalization the body modernization and capitalism It will be essential reading for anyone interested in Weber s claim that the aim of sociology must be to explain what is distinctive about the times in which we live History, Politics and Theory in the Great Divergence Debate Olya Murphy, 2023-12-31 World history suffers from a paucity of clearly articulated convincing explanations While the rise of postmodernism and challenges to Eurocentrism did lead to some important correctives the pendulum has swung too far the other direction with a corresponding danger of throwing the baby out with the bathwater We need careful theoretically informed debates about ways of organizing world history What constitutes a good historical explanation What should guide historians to choose relevant facts Which theoretical schools could be made useful and to what ends These questions are especially relevant to the main topic of this book the great divergence between the west and the rest of the world and how this historical rupture is to be explained The book provides extensive critical analyses of some of the key claims in world history analyzing their strengths as well as their major weaknesses too often rooted in insufficient familiarity of historians with theories they discard It also historicizes the field and the debates to partly account for what caused some theories to become more influential and others to fall into oblivion despite the fact that the more influential frameworks are seriously flawed and some of the more marginalized ideas are more coherent and plausible The book offers insights regarding the theoretical and political relevance of older debates about the transition to capitalism and historical materialism Three major schools of thought in world history are critically examined through an in depth theoretical and comparative analysis that has not been undertaken elsewhere the so called California School World Systems Analysis and Marxist theories of history capitalism and the transition from feudalism to capitalism Murphy argues that despite some of the more recent criticisms of older approaches to world history the older theories remain indispensable for the writing of world history and for coming to terms with issues of global poverty inequality and eco catastrophe **Rethinking Modernity** G. Bhambra, 2007-04-11 Arguing for the idea of connected histories Bhambra presents a fundamental reconstruction of the idea of modernity in contemporary sociology She criticizes the abstraction of European modernity from its colonial context and the way non Western others are disregarded It aims to establish a dialogue in which others can speak and be heard **Deleuze and Guattari's Philosophy of History** Jay Lampert, 2006-06-08 Deleuze and Guattari s Philosophy of History constructs problematizes and defends a Deleuzian philosophy of history Drawing on Deleuze s philosophy of time it identifies key ideas and suggestions related to the philosophy of history from Deleuze and Guattari s major writings including the seminal contemporary texts *Anti Oedipus* A

Thousand Plateaux Difference and Repetition and The Logic of Sense The book covers the following themes the role of dates in historical chronology historical causality historical origins the character of historical events and the diagnosis of such actual historical events as the rise of capitalism in Europe This text is a groundbreaking valuable and original contribution to the scholarship on Deleuze and Guattari and contemporary Continental philosophy as a whole *Questions of Modernity* Timothy Mitchell, 2000 Well known contributors offer an illuminating look at how modernity develops in non Western contexts Modernity has always laid claim to universal certainty which meant assigning a different and lesser significance to anything deemed purely local non Western or lacking a universal expression This book makes those very non Western non universal elements the tools for fashioning a more complex rigorous and multifaceted understanding of how the modern comes about Focusing on the making of modernity outside the West eight leading anthropologists historians and political theorists explore the production of new forms of politics sensibility temporality and selfhood in locations ranging from nineteenth century Bengal to contemporary Morocco Topics include the therapeutics of colonial medical practice the multiple registers of popular film television serials and their audiences psychiatrists and their patients the iconic figure of the young widow and the emergence of new political forms beyond the grasp of civil society Contributors Lila Abu Lughod Columbia U Dipesh Chakrabarty U of Chicago Partha Chatterjee Centre for Studies in Social Sciences Calcutta Veena Das U of Delhi Nicholas B Dirks Columbia U Stefania Pandolfo UC Berkeley and Gyan Prakash Princeton U **The Myth of 1648** Benno Teschke, 2003 The Treaty of Westphalia in 1648 is widely interpreted as the foundation of modern international relations Benno Teschke exposes this as a myth In the process he provides a fresh re interpretation of the making of modern international relations from the eighth to the eighteenth century Inspired by the groundbreaking historical work of Robert Brenner Teschke argues that social property relations provide the key to unlocking the changing meaning of international across the medieval early modern and modern periods He traces how the long term interaction of class conflict economic development and international rivalry effected the formation of the modern system of states Yet instead of identifying a breakthrough to interstate modernity in the so called long sixteenth century or in the period of intensified geopolitical competition during the seventeenth century Teschke shows that geopolitics remained governed by dynastic and absolutist political communities rooted in feudal property regimes The Myth of 1648 argues that the onset of specifically modern international relations only began with the conjunction of the rise of capitalism and modern state formation in England Thereafter the English model caused the restructuring of the old regimes of the Continent This was a long term process of socially uneven development not completed until World War I **Global Easts** Jie-Hyun Lim, 2022-07-05 South Korean historian Jie Hyun Lim raised under an anticommunist dictatorship turned to Marxian thought to explain his country's development even as he came to struggle with its Eurocentrism As a transnational scholar working in postcommunist Poland Lim recognized striking similarities between Korean and Polish history and politics One realization stood out Both Korea and

Poland at once the West for Asia yet Eastern Europe had been assigned the role of East This book explores entangled Easts to reconsider global history from the margins Examining the politics of history and memory Lim reveals the affinities linking Eastern Europe and East Asia He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory Ranging across Poland Germany Israel Japan and Korea Lim traces the global history of how notions of victimhood have become central to nationalism He criticizes mass dictatorships of right and left in the Global Easts considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy Lim argues that nationalism is inherently transnational critiquing how the nationalist imagination of the Global East has influenced countries across borders Theoretically sophisticated and conceptually innovative this book sheds new light on the transnational complexity of historical memory and imagination the boundaries between democracy and mass dictatorship and the fluidity of East and West History in the Discursive Condition Elizabeth Ermarth, 2011-03-25 Elizabeth Deeds Ermarth University of Edinburgh UK and Trent University Canada teaches and writes about interdisciplinary cultural history and theory Book Jacket The Theft of History Jack Goody, 2012-03-29 Goody raises questions about theorists historians and methodology and proposes a new comparative approach to cross cultural analysis

The Oxford History of the British Empire: Historiography Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries **The Oxford History of the British Empire: Volume V: Historiography** Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future A History of the Modern British Ghost Story S. Hay, 2011-10-27 Ghost stories are always in conversation with novelistic modes with which they are contemporary This book

examines examples from Sir Walter Scott Charles Dickens Henry James and Rudyard Kipling amongst others to the end of the twentieth century looking at how they address empire class property history and trauma *The Song-Yuan-Ming Transition in Chinese History* Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271 1368 This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China The contributors argue that the Song Yuan Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution They trace this transition by investigating such subjects as contemporary impressions of the period the role of the Mongols in intellectual life the economy of Jiangnan urban growth neo Confucianism and local society commercial publishing comic drama and medical learning *The Oxford Handbook of Early Modern European History, 1350-1750* Hamish Scott, 2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam *The Oxford Handbook of the History of Consumption* Frank Trentmann, 2012-03-22 The Oxford Handbook of the History of Consumption offers a timely overview of how our understanding of consumption in history has changed in the last generation *The Ellen Meiksins Wood Reader* Ellen Meiksins Wood, Larry Patriquin, 2012-10-12 This Reader includes selections from Ellen Meiksins Wood s groundbreaking scholarship providing an overview of her original interpretations of capitalism precapitalist societies the state political theory democracy citizenship liberalism civil society the Enlightenment globalization imperialism and socialism *A Cultural History of Ideas in the Modern Age*
