Science and Technology Department, 1986 Handicrafts and do it yourself projects have always been a library's most popular and heavily requested subject And for more than a decade a definitive index to handicraft books has not been published To fill this gap the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the Index to Handicraft Books listing more than 900 books and over 12 400 subject entries covering books published from 1974 to 1984 The Index to Handicraft Books is an essential reference tool for librarians who want to help someone find instructions for a varied range of do it yourself projects providing quick access to craft projects in books more recent than previous handicraft index books have listed Each entry in the index consists of a subject heading the name of the project as listed in the book the author and title of the book and the page numbers on which the project can be found The author and title correspond to those in the List of Works Cited section which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through inter library loan Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974 the list concentrates mainly on medium priced books that most libraries buy

Scaduto, 1985 Business Practice in Socialist Hungary, Volume 1 Philip Scranton, 2022-01-29 This study aims to reconstruct the activities of enterprises and individuals over two decades in one developing country Hungary within and across four politico economic domains agriculture infrastructure construction commerce and manufacturing from the initial Stalinist obsession with heavy industry Volume 1 Creating the Theft Economy 1945 1957 through later reforms paying greater attention to profitable farming and the provision of abundant consumer goods Volume 2 From Chaos to Contradiction 1957 1972 forthcoming 2023 It provides hundreds of grounded granular stories for reflection as reported by actors and direct observers ranging from innovation and improvisation to obstruction failure and fraud Further it offers an otherwise unobtainable close encounter with another world familiar in some respects while

amazingly peculiar in others The social history of enterprise and work in postwar Central European nations building socialism has long been underdeveloped Through extensive macro level research on planning and policy in Hungary Poland Czechoslovakia and other Bloc countries a grand narrative has been framed reconstruction and breakneck industrialization under Soviet tutelage then eventual mismanagement stagnation and crisis leading to collapse This book seeks to explore what socialism actually looked like to those sustaining or enduring it as they faced forward into an unknowable future to assess how and where it did or didn t work and to recount how ordinary people responded to its opportunities and constraints This study will appeal to readers interested in understanding how businesses worked day to day in a planned economy how enterprise practices and technological strategies shifted during the first postwar generation how novice managers and technicians emerged during rapid industrialization how peasants learned to farm cooperatively how organizations improvised and adapted how political purity and practical expertise contended for control and how the controversies and convulsions of the postwar decades shaped a deeply flawed project to build socialism
