AHMED,2023-06-15 Summary of this story Milo a young mammoth begins an amazing trip through an ancient landscape with tall trees and wide grasslands Milo who is always looking for new things to do follows a strange path that looks like it was made by a huge snake writhing through the ground Milo can t resist the temptation so he follows the trail even though it means he has to leave his herd for a short time As he goes deeper into the bush the area around him gets darker and more mysterious Milo s senses get better when he pays close attention to what s going on around him He can hear the leaves rustling and sounds of many kinds coming from far away In the middle of all these sounds he hears a slow crawling that gives him chills Milo will not let anything stop him from getting what he wants and he is very determined He finally gets to the end of the trail where he finds a prehistoric giant snake curled up in the middle of the area Milo and the snake had a brief moment when they both realized that they were still interested in the amazing things in their old world They live as animals who know a lot about the old world in which they live This is what keeps them together Milo shows the snake respect by letting it go back to its curled up state Milo takes a few steps back and says Thanks but he also realizes that the conversation went well He has not only found an amazing new species but he has also learned more about himself in the world of the past He will never forget the experience and it will always remind him of how many opportunities are out there for people who are brave enough to try new things Milo s choice to go into the unknown and briefly leave his herd sets the stage for what happens next Milo the main character goes on an adventure in the wilds of the past followed by a huge snake He decides to follow the trail without fear and keep going which leads him to the scary animal in the end The book talks about things like interest bravery friendship and the bond that all living things have that can t be broken Through Milo s adventures the book shows how important it is to find and enjoy the world s treasures to protect nature s fragile balance and to remember the prehistoric realm s long past When Milo and his herd are in trouble they stick together to protect themselves from an old giant snake This shows how much power can be found when people work together As the story comes to a happy end we learn more about Milo s place in old society The reader is told of the treasures that are out there for those who are brave enough to look for them and of the spirit of the world that has always been there Here s how the story starts Once upon a time Milo a young mammoth lived with his family in a place with tall trees and lots of grass Milo was a curious mammoth who liked to explore and find out more about their ancient world He had a wicked look in his eye and an attitude that made him want to try new things and go on adventures Milo felt like his group was his family They went on their journey together eating the lush fields and drinking from the clear cold watering holes Milo s mother Matilda was a kind and smart woman who always kept a close eye on her rowdy calf Max Milo s dad was a strong protective figure who looked out for the well being of the whole group Even though they were safe and happy with their group Milo was very interested in what was going on He wanted to know everything about the world outside of where he lived He was drawn to go into the unknown by the

stories the wind told and the sounds of other animals in the distance Milo was driving on a strange road one day when the sun made everything look golden It was huge and twisting like a huge snake had gone through the ground Milo s eyes got bigger as he looked at the strange road in front of him The long deep footprints in the dirt looked like the path of a huge snake As the giant got closer to the cave its heart raced with a mix of excitement and worry Who or what could have left such a big mark that is easy to spot Milo stood at the side of the trail and looked at the tracks that went off into the distance When he saw the marks which were much bigger than any he had ever seen before he was both amazed and scared He knew right away that this wasn t just any animal They could only have been made by something so big and strong that it could leave such big marks Milo s eyes got big when he saw a huge snake with shiny scales come out of the darkness It was twice as big as the rest of Milo s herd It had sharp teeth and eyes that looked like they were on fire When he saw it the mammoth had no question that it was a huge snake from the past that had been told about Milo s heart was racing with fear but he kept his cool during the whole thing He was well aware of how important it was to protect his sheep from this terrible beast Milo blew a horn that could be heard throughout the countryside to call his herd together and tell them to get ready for battle The sound of the trumpet could be heard all over the country Milo s horn made an amazing sound that could be heard all over the prehistoric landscape This made Milo s herd move quickly The mammoths came out of the forests and grasslands one by one their huge bodies coming together to make a single front They knew that Milo s call gave them a limited amount of time and that there was danger ahead Milo was surrounded by the herd which made a barrier to protect him by raising their tusks high and standing up straight Their cries matched the determination in their eyes and rang out with a mix of boldness and unity They were ready to fight the prehistoric big serpent to protect their ecosystem and the people they cared about from the huge danger it posed Milo moved forward his eyes fixed on the huge animal that stood in front of them in the huge gap Fear and energy were pumping through his body making his heartbeat fast and hard in his chest He knew that the fight that was coming would test their bravery and resolve but he was determined to keep his herd safe no matter what The huge prehistoric snake slithered forward Its moves were graceful but their power was scary Its scales shone in the sun which showed how bad the situation was Milo s spine tingled when he saw the creature s fiery red eyes and sharp teeth but he kept his cool and drew strength from his herd s steady support The mammoths rushed forward with a loud roar shaking the ground fiercely as their huge bodies moved forward They blew huge horns and lifted their trunks into the air to make a rallying call that could be heard all over the countryside It showed that they were sure they wanted to keep their family and home safe During the fight the old great serpent moved incredibly fast Its sharp teeth stuck out in front of it ready to tear the thick hides of the mammoths The group on the other hand stood their ground and relied on their size and strength to win Their huge tusks turned into dangerous weapons which helped them fight off the snake s attack Milo went to fight against the huge snake sure that he would win The battlefield was filled with the sound of his tusks hitting the snake s teeth The

mammoth s huge size and overwhelming strength met the snake s attack and each blow showed the mammoth s determination and unwavering will to win Over time the fight turned into a dance of strength and strategy The mammoths fought bravely and in unison and their movements made it impossible for the enemies to get through They charged blew horns and hit not flinching in the face of the huge snake s relentless attack On the other hand the snake turned out to be a very scary enemy because it was smart and quick It curled up and moved slowly before hitting with great accuracy and speed The mammoths knew that their opponent was much stronger than them but they still wouldn t give up They fought hard and didn t give up Their friendship as herders gave them the strength to keep going when things got hard As the most important part of the battle got closer Milo s drive grew stronger He ran forward with all his heart aiming his tusks at the weak spot in the snake s middle When he struck the prehistoric giant snake he yelled in pain and anger Milo s huge blow slowed the snake down and made it back away When the chance came the other mammoths got together and attacked the huge creature in an organized way As they swung their trunks and hit their tusks against each other the earth shook from the weight of their fight The prehistoric giant snake fought with a fierceness that came from nature but the mammoths fought just as hard and were just as determined to win Milo took the lead and moved forward because he wanted to protect his group He tried to break down the snake s defenses with each hit of his big tusks As he hit him with punch after punch the ground started to shake Every step he took showed how strong his desire was On the other hand the huge snake from ancient times was a dangerous foe It responded by twisting and swirling its body in a beautiful dance of speed and strength Its sharp teeth barely got through the thick hides of the mammoths but the fact that they did shows how deadly it was As the war seemed to last for days the sun and the moon took turns watching the epic fight Every second that went by the huge prehistoric snake got weaker and its hits which were once very powerful became less so The mammoths stayed strong and didn t give up because they loved their surroundings and each other Milo used all of the strength he still had to finally hit the snake hard On the battlefield people were determined and never gave up The mammoths fought nonstop and because they were so big and had strong wills they were a terrible opponent for the huge ancient snake They were sure that they would protect not only their country but also each other As the fight went on the prehistoric huge snake which had been strong and dangerous started to show signs of weariness Its blows were not as strong or accurate as they used to be As the snake moved more slowly and slowly its sharp teeth started to lose their deadly edge As soon as the mammoths learned they were in charge they moved faster Milo the strong head of the herd woke them up with a loud trumpet call The scream resounded all around us like a trumpet call strong and sure It served as a rallying cry getting his friends fired up and pushing them to keep going and win

Man the Hunted Donna Hart,2018-04-17 Man the Hunted argues that primates including the earliest members of the human family have evolved as the prey of any number of predators including wild cats and dogs hyenas snakes crocodiles and even birds The authors studies of predators on monkeys and apes are supplemented here with the observations of

naturalists in the field and revealing interpretations of the fossil record Eyewitness accounts of the man the hunted drama being played out even now give vivid evidence of its prehistoric significance This provocative view of human evolution suggests that countless adaptations that have allowed our species to survive from larger brains to speech stem from a considerably more vulnerable position on the food chain than we might like to imagine The myth of early humans as fearless hunters dominating the earth obscures our origins as just one of many species that had to be cautious depend on other group members communicate danger and come to terms with being merely one cog in the complex cycle of life **THE GODS**

This two volume publication offers an in depth analysis of ophidian symbolism in Eastern Africa while setting the topic within its regional and historical context namely with regards to the rest of Africa ancient Egypt and Mesopotamia the Greek world ancient Palestine Arabia India and medieval and pre Christian Europe Through the ages most of those areas have connected

with Eastern Africa in a broad sense where ophidian symbolism was as rampant and far reaching if not more so as anywhere else on the continent and perhaps in past civilisations Much as in the wider context snakes were held to be long lived closely related to holes caverns trees and water life and death and credited with a liking for milk Even though ophidian symbolism has always been developed out of the outstanding biological and ethological features of snakes the process of symbolisation which plays a crucial role in the elaboration of cultural systems and the shaping of human experience was inevitably at work This first volume deals with snakes as a zoological category snake symbolism as perceived by encyclopaedists and psychologists and ophidian symbolism as it occurred in ancient civilisations It explores the traditional African scene in general with a view to set the scene for a more proximate baseline for comparison The divide between animals and humans was porous and snakes had a more or less equal footing in both the animal realm and the spiritual world Key features of snake symbolism in traditional Eastern Africa are then examined in detail especially phantasmagorical snakes the rainbow serpent snake totems and snake related witches and ritual leaders among others In Eastern Africa the meanings attributed to snakes were multifaceted and paradoxical Overall the two volumes of this publication show that African snake symbolism broadly echoed the diverse representations of ancient civilisations The widely acknowledged assimilation of snakes to death and Evil is therefore unrepresentative both historically and culturally
