Kindelberger, 2017-05-17 The author's theological inquiry is intended to raise questions of interpretation within the camp of openness theology and to direct a discussion on the implications of this movement for the charismatic Pentecostal community Open theism or openness theology affirms that the universe is open the future is not settled God is essentially relational love and the risks of love and the threats against it are real The author digs deep into this area of doctrine in order to question

how far openness theology is willing to go Is it only the future that is open to God or are there perhaps unknown aspects to the past and present as well What does God know about sin and when does he know it Is it possible for God to be totally absent from a person s life or even from an entire nation If God can be absent can he also be exceptionally present in the lives of believers What would the divine presence and the charismata spiritual ministries look like in an open universe

Real Presence Michael Hickey,2025-09-04 Christ's real presence is manifested not only in the Eucharist but also in all aspects and subsections throughout humanity the author engages with many of these manifestations devoting an entire chapter to the exploration of each Any books written on the subject of Real Presence thus far have confined the writing to be strictly writing about the real presence of God Christ in the Eucharist which confines itself mostly to a discussion among Catholics who are the principal Christian church which believes in Christ's real presence in the Eucharist This book differs for several reasons First the author writes about the real presence of Jesus Christ not only in the Eucharist but also in the poor and lowly in children in the suffering in creation in the stranger and the prisoner in the neighbor and the family in the Word of God in the Bible in the church community etc Each area is examined through an entire chapter devoted to it This broadens the scope of God's real presence in the world as God is continually revealing Godself to humanity in many other ways than only the Eucharist Because Christ is revealing Himself through the power and presence of the Holy Spirit within us each moment can be seen as a Sacrament of the present moment The book continues to discuss the principle of sacramentality and how each moment we are alive on this earth is a sacramental moment involving more than we can be mortally aware of This moment is not only a moment in time but a reflection of the timelessness of all of eternity Christ continues to reveal his presence to us not only through the Eucharistic Banquet but Christ attempts to encounter us with his presence throughout all created reality Because Christians believe in faith that after the crucifixion death and resurrection of Jesus the Holy Spirit of Jesus Christ we received in Baptism is in us as the Body of Christ Because the resurrected Christ is now the universal Christ throughout all of creation the entire universe has become Christocentric Therefore all created reality now being imbued with the presence of Christ at its center can prove to be a potential encounter with the REAL PRESENCE of Christ a greater interest not only to Catholics but because of its universality to Christians of all denominations

God's Praise and God's Presence Gabriele G. Braun, 2020-06-19 The main aim of this book is to provide an answer to the question is there a connection between God's people's praise and God's presence The central argument is that Scripture in both Testaments testifies to a correlation between human praise and divine presence This hypothesis has been investigated in the light of contemporary Christian worship culture and the ensuing need for further biblical studies which represents the background for this investigation The study achieves the above aim by applying biblical theology as a discipline and canonical and intertextual models as a method
