The God Who Comes Dionysian Mysteries Reclaimed:

The God who Comes Rosemarie Taylor-Perry, 2003 The most widely acclaimed and influential religious cult in the ancient Greek world for almost 2000 years was the Eleusinian Mysteries the Mystery Rites of Dionysos and associated Hellenic deities Drawing participants from Rome Egypt and all around the Mediterranean the Mysteries influenced and inspired many of the greatest minds including Aristotle Homer and Plutarch But initiates were sworn to secrecy and with the advent of Christianity the Roman Empire stamped out this cult How did adherents of Hellene Mystery Deities performed their worship What was the symbolism of the sacred objects and the actions performed The God Who Comes is a meticulously researched exploration of how and why these rites were performed based upon archaeological scholarly and iconographic evidence a refutation of facile New Age inventions Cicero said Athens never created anything nobler than those sublime Mysteries through which we became gentler and have advanced from a barbarous and rustic life to a more civilized one so that we not only live more joyfully but also die with a better hope The author traces how the rituals were related chronologically why it seems that many aspects of ritual action are unclear or appear transposed and why no scholar intent upon probing the hows and wherefores of ancient Mystery rites had ever presented them in any sort of chronological easily understood manner She examines parallels in diverse civilizations including the use of hallucinogens in religious rites and archetypal deities such as shape changers like the Navajo Coyote The book includes an index Greek to English glossary extensive footnotes and bibliography

Death and the Maiden Brigid Burke, 2019-05-01 America was certainly the big winner of World War II being the last major country intact Euphoria hubris and a naive self confidence became hallmarks of the people This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyone feel so smart and the U 2 spy incident of 1960 that revealed Americans were being lied to by the government The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day When the War ended the United States still had its economy infrastructure and industry intact Taking up where the British Empire left off the powerful new America expanded its influence around the globe Suddenly light years ahead of any competitor Americans abandoned themselves to a haze of consumerism and entertainment trusting that they were safe and could not be harmed The contestants on the big money quiz shows turned out to be fakes and the respected TV executives were also revealed to be liars and cheats Far worse was yet to come The United States government was caught in a lie regarding the CIA's U 2 reconnaissance planes overflying the Soviet Union On the eve of a crucial summit meeting in 1960 the USSR knocked Gary Powers out of the sky along with plenty of incriminating hardware and data Moscow delayed revealing what it knew and Washington spent ten days denying it was a spy plane then denying that President Eisenhower was aware of it The world was turning into a very scary place and soon American schoolchildren were being taught to duck under their desks if a bomb should strike Fear began to percolate into the heart of the nation

Philosophy and Religion in Plato's Dialogues Andrea Nightingale,2021-05-06 In ancient Greece philosophers developed new and dazzling ideas about divinity drawing on the deep well of poetry myth and religious practices even as they set out to construct new theological ideas Andrea Nightingale argues that Plato shared in this culture and appropriates specific Greek religious discourses and practices to present his metaphysical philosophy In particular he uses the Greek conception of divine epiphany a god appearing to humans to claim that the Forms manifest their divinity epiphanically to the philosopher with the result that the human soul becomes divine by contemplating these Forms and the cosmos Nightingale also offers a detailed discussion of the Eleusinian Mysteries and the Orphic Mysteries and shows how these mystery religions influenced Plato's thinking This book offers a robust challenge to the idea that Plato is a secular thinker *Stories in Stone* Aïcha Ben Abed Ben Khader,2006 Between the second and the sixth centuries of the common era elaborate mosaics were designed and created to pave the floors of town homes and rural estates of the Roman settlements in North Africa These stunning mosaics were especially widespread in the colony of Africa Proconsularis modern day Tunisia and covered a wide range of subject matter from scenes of daily life and classical mythology to abstract floral and geometric designs of rare vibrancy and complexity A distinctive African style emerged whose influence would extend throughout the Mediterranean basin and beyond This catalogue is being published to coincide with an exhibition at the J Paul Getty Museum at the Getty

The Immortality Key Brian C. Muraresku, 2020-09-29 THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience A groundbreaking dive into the role psychedelics have played in the origins of Western civilization and the real life quest for the Holy Grail that could shake the Church to its foundations The most influential religious historian of the 20th century Huston Smith once referred to it as the best kept secret in history Did the Ancient Greeks use drugs to find God And did the earliest Christians inherit the same secret tradition A profound knowledge of visionary plants herbs and fungi passed from one generation to the next ever since the Stone Age There is zero archaeological evidence for the original Eucharist the sacred wine said to guarantee life after death for those who drink the blood of Jesus The Holy Grail and its miraculous contents have never been found In the absence of any hard data whatever happened at the Last Supper remains an article of faith for today s 2.5 billion Christians In an unprecedented search for answers The Immortality Key examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet Religion and science converge to paint a radical picture of Christianity s founding event And after centuries of debate to solve history s greatest puzzle Before the birth of Jesus the Ancient Greeks found salvation in their own sacraments Sacred beverages were routinely consumed as part of the so called Ancient Mysteries elaborate rites that led initiates to the brink of death The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis where a holy beer unleashed heavenly visions for two thousand years Others drank the holy wine of Dionysus to become one with the god In the 1970s renegade scholars claimed this beer and

wine the original sacraments of Western civilization were spiked with mind altering drugs In recent years vindication for the disgraced theory has been quietly mounting in the laboratory The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity And with a single dose of psilocybin the psychopharmacologists at Johns Hopkins and NYU are now turning self proclaimed atheists into instant believers But the smoking gun remains elusive If these sacraments survived for thousands of years in our remote prehistory from the Stone Age to the Ancient Greeks did they also survive into the age of Jesus Was the Eucharist of the earliest Christians in fact a psychedelic Eucharist With an unquenchable thirst for evidence Muraresku takes the reader on his twelve year global hunt for proof He tours the ruins of Greece with its government archaeologists He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine He unravels the Ancient Greek of the New Testament with the world s most controversial priest He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity s oldest monuments He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English And with leads from the archaeological chemists at UPenn and MIT he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity The Immortality Key reconstructs the suppressed history of women consecrating a forbidden drugged Eucharist that was later banned by the Church Fathers Women who were then targeted as witches during the Inquisition when Europe s sacred pharmacology largely disappeared If the scientists of today have resurrected this technology then Christianity is in crisis Unless it returns to its roots Featuring a Foreword by Graham Hancock the NYT bestselling author of *America Before* [Biblia Pan-Satanica](#) Ecclesia Luciferi, 2025-08-13 The concept of Pan Satanism contained in this godless book is a metaphysical description of reality using satanic symbolism as best reflecting the true nature of things according to Satanic System of Godlessness Ecclesia Luciferi This description is based on philosophy science and theology three fields that allow us to understand reality from a metaphysical and ontological point of view Pan Satanism is not directed at those who consciously choose to escape from the truth that may cause existential fear into the comfort provided by religious myths about life after death and a heavenly paradise where there will be no more death and suffering to people whom the Biblia Satanae calls blind people who do not want to see Such people are incurable Pan Satanism is aimed at people capable of marveling at the truth that they are natural part of the Self Organizing Eternal Satanic Being All Things which is constantly evolving in a seemingly aimless way whose future forms no one can predict and which together with the beings born in it is heading into the unknown Biblia Pan Satanica consists mainly of two satanic books of the Ecclesia Luciferi Pan Satanism with pan satanic letters and the writing Apostolus Satanae as well as the rewritten book The Satanic Kerygma In the new version of The Satanic Kerygma the main emphasis has been placed on its Pan Satanic accents and a new chapter has also been added to it It can therefore be considered that this new version of The Satanic Kerygma is synoptic in relation to the original version The collection of ungodly writings that make up the Biblia Pan
