Homerus,2015-11-15 The Golden Chain of Homer is indeed a masterpiece of alchemical literature Written in down to earth language one can begin to understand alchemical principles and thus unveil the mysteries that shroud the Holy Science of Alchemy The footnotes alone form a compendium of data that is of enormous value      *The Golden Chain of Homer* Anton Josef Kirchweger, Nature comprehends the visible and invisible Creatures of the Whole universe What we call Nature especially is the universal fire or Anima Mundi filling the whole system of the Universe and therefore is a Universal Agent omnipresent and endowed with an unerring instinct and manifests itself in fire and Light It is the First creature of Divine Omnipotence Thus God created first this invisible fire and endowed it with an unerring Instinct and a Capacity to manifest itself in 3 Principles In its Original most Universal state it is perfectly invisible immaterial cold and occupies no space in this tranquil state it is of no use to us yet in this unmoved state it is omnipresent In its second state it is manifested by motion or agitation into light In this state it was separated out of the Chaos when God said Let there be Light Yet it is still cold When gently moved or agitated it manifests warmth and Heat as in the case in all Frictions and in Fermentation of moist things When collected in a sufficient quantity and violently agitated it is manifested into burning fire This continues burning as long as it is agitated and has a fit subject to act upon when that fails it returns to its first state of tranquil Universality In the character of burning fire it manifests Light and Heat      *The Golden Chain of Homer* Anton Kirchweger,2017-03-04 Frater Albertus was once asked if he could only have one book on alchemy which would it be He answered that it would be the Golden Chain of Homer This collection of books written by several authors and printed in various editions was first printed in 1723 Concepts of Platonic Mosaic and Pythagorean philosophy provide extensive

instruction in Cosmic Cabbalistic and laboratory Alchemical Philosophy      *The Golden Chain of Homer* Anton Josef Kirchweger,2004-06-01 This Chaotic Waters are commonly called Dew Rain Showers Hail Snow But really and truly it is the true regenerated Chaos the genuine spirit and Anima Mundi animates it who generates preserves kills and regenerates all sublunary Creatures agreeably to their original form by means of their Seed or Sperm and this Anima Mundi is Nature truly

The Golden Chain of Homer Anton Josef Kirchweger,2021-06-19 The Golden Chain of Homer is a masterpiece of esoteric literature It was written in clear alchemical language offering insight into the idea that all creation no matter what its nature is closely intertwined that a deeply secret connection pulses through all of nature that one thing relates to the next and all things depend upon each other In other words as above so below      **The golden chain of Homer** Ludwig Edelstein,1953

Homer in its various forms and editions is perhaps one of the most descriptive and least ambiguous manuscripts on alchemical lore and the early explanations given during the late Renaissance and early Enlightenment periods regarding chemical and earthly processes Less concerned with celestial and angelic symbolism and more focused on outright experimentation it covers the processes of fixation putrefaction and generation in far more depth than most works of the era It seeks to prove the chemical processes it describes and admonishes the reader to try the same things themselves using fairly simplistic compounds and experiments to generate life from the lifeless and create materials which in the era seemed markedly different from the original things being transformed using heat light humidification and distillation Its philosophical content is dense but understandable and its chemical content mostly literal      Hölderlin and the Golden Chain of Homer Emery Edward George,1992 Consisting of two essays this book investigates the impact on Holderlin s poetic imagery of the

Homeric metaphor of the golden chain of nature It contrasts A O Lovejoy s ideas on the great chain of being with the results of recent research It also announces discovery of an unknown source to which Holderlin was indebted an early seventeenth century Jesuit devotional tract The study considers the full range of the poetic work including the poems Hyperion and Empedokles The book is illustrated with two figures and concludes with two appendices of verbal data a bibliography and indexes of names and of Holderlin s works

**The Look of Van Dyck** John Peacock,2017-07-05 Based on a close study of Van Dyck s Self portrait with a Sunflower this book examines the picture s context in the symbolic discourses of the period and in the artist s oeuvre The portrait is interpreted as a programmatic statement made in the ambience of the Caroline court after Van Dyck s appointment as Principal Painter of his view of the art of painting This statement formulated in appropriately visual terms characterizes painting as a way of looking and seeing a mode of vision In making such a claim the artist steps aside from the familiar debate about whether painting was a manual or an intellectual discipline and moves beyond any idea of it as simply a means of representing the external world the painter s definitive faculty of vision can reach further than those realities which present themselves to the eye John Peacock analyses the motif of looking the ways in which figures regard or disregard each other throughout Van Dyck s work and the images of the sunflower and the gold chain in this particular portrait to reveal what is essentially an idealist conception of pictorial art He contradicts previous opinions that the artist was pedestrian in his thinking by showing him to be familiar with a range of ideas current in contemporary Europe about painting and the role of the painter
