*A Necklace of Stories* Moncure Daniel Conway,2010-09 This is a facsimile reprint of the original book by Moncure D Conway rebuilt using the latest technology There are no poor missing or blurred pages and all photographic images have been professionally restored At Yokai Publishing we believe that by restoring this title to print it will live on for generations to come      *George Washington's Rules of Civility* Moncure Conway,2016-12-17 Among the manuscript books of George Washington preserved in the State Archives at Washington City the earliest bears the date written in it by himself 1745 Washington was born February 11 1731 O S so that while writing in this book he was either near the close of his fourteenth or in his fifteenth year It is entitled Forms of Writing has thirty folio pages and the contents all in his boyish handwriting are sufficiently curious Amid copied forms of exchange bonds receipts sales and similar exercises occasionally in ornate penmanship there are poetic selections among them lines of a religious tone on True Happiness Some of the Rules may strike the modern reader as snobbish even for the observance of youth But the originals are in that respect toned down in Washington s MS Rule 9 takes no cognizance of the principle of the original that to approach nearer the fire than others and to turn one s back to it are privileges of persons of rank The 17th Maxim of chapter iii which directed certain kissings of the hands of superiors or of the robe and other abasements is entirely omitted Where the original commands that we should never dispute in any fashion with our superiors in rank Rule 34 says we ought not to begin with them The only thing clear about which is that the instructor did not wish to admit authority so absolutely into the realm of argument Rule 46 omits so much of the original as counsels grateful acceptance of reproof from another the more if you depend on his authority Other instances of this more liberal tendency will be noticed by those who make a careful comparison of the Rules and the French Maxims Here then are rules of conduct taught if my theory be correct by a French Protestant pilgrim unknown to fame in the New World They were taught to a small school of girls and boys in a town of hardly a hundred inhabitants They are maxims partly ethical but mainly relate to manners and civility they are wise gentle and true A character built on them would be virtuous and probably great The publisher of the English version 1665 says that Mr Pinchester a learned scholar of Oxford bought 250 copies for a great school he was about to open in London Probably the school founded by James Marye was the first in the New World in which good manners were seriously taught 1 Nay where is there any such school to day
