Chapman, 2001-04-11 **Psychic Children** Peggy Day, Susan Gale, 2004-11 The late twentieth and early twenty first centuries have heralded the birth of many special children who exhibit unique sensitivities and abilities This book shows how these children can be recognized and nurtured as the special people they truly are **Lemuria** Una Marcotte, 2018-10-25 Before Atlantis there was Lemuria No one is certain as to when this civilization existed but an educated guess is around 300 000 BC It was a time when people began to live in communities and build shelters by the sea for water was very sacred to them The Lemurians were a highly spiritual people and practiced equality as it has never been practiced since Everyone was equal regardless of what labor they provided for the welfare and comfort of everyone else There was a Council of Elders wise men and women who offered advice and suggestions to those asking for help but even this group had no jurisdiction over anyone else in their village The Lemurians possessed a group mind where no individuality existed or was even thought about and where no one belonged to anyone else Even children did not belong to their mothers but to everyone residing in the community The concept of marriage and family simply did not exist No one owned anything either Land homes and even possessions belonged to everyone in the community It was also a matriarchal society where women were highly respected and had an equal voice with men Learning about their lifestyle and culture it quickly becomes apparent that modern humans would have a difficult time understanding the people of this ancient civilization Yet it is important for humans of today to learn about Lemuria as this shift in thinking in consciousness that is permeating the world is actually a return to this kind loving compassionate Lemurian energy The whole world is now slowly stepping up or ascending into this higher vibrational energy of love as exhibited by the earth s first civilization namely Lemuria **The Jews and the Expansion of Europe to the West, 1450-1800** Paolo Bernardini, Norman Fiering, 2004-01-01 Jews and Judaism played a significant role in the history of the expansion of Europe to the west as well as in the history of the economic social and religious development of the New World They played an important role in the discovery colonization and eventually exploitation of the resources of the New

World Alone among the European peoples who came to the Americas in the colonial period Jews were dispersed throughout the hemisphere indeed they were the only cohesive European ethnic or religious group that lived under both Catholic and Protestant regimes which makes their study particularly fruitful from a comparative perspective As distinguished from other religious or ethnic minorities the Jewish struggle was not only against an overpowering and fierce nature but also against the political regimes that ruled over the various colonies of the Americas and often looked unfavorably upon the establishment and toleration of Jewish communities in their own territory Jews managed to survive and occasionally to flourish against all odds and their history in the Americas is one of the more fascinating chapters in the early modern history of European expansion

The Last Prophecy Murat Ugray, 2021-04-16 Do the number Pi contain everything within Such as your date of birth your date of death even the date of the Doomsday Well what if someone knew that a long time ago and coded it somewhere Could someone else have discovered America in the Middle Ages before Columbus Well what if this mysterious person is really a great Oracle who has to hide his talent and what if his purpose of going there is not to discover a new continent but to solve one of the world's greatest secrets the Secret of a Mayan prophetic calendar that explains when the Doomsday in a Mayan pyramid is coming The Mayans actually calculated the date of the Doomsday as 13 0 0 0 0 Baktun and they encoded it into a giant calendar Well what did that actually mean 13 Baktun was actually a giant code in which the Mayans who were also adept at mathematics placed the true date of the Doomsday into the number Pi and it indicated a date that was not 2012 but further Did the Mayans come up with this information themselves or did they get it from a lost civilization far more advanced than themselves called Atlantis Now everything was ready he was about to find out which date actually 13th Baktun coincide with that is the biggest secret of human history hidden in the Mayan Calendar which is impossible to solve by calculating the hidden code in the number of Pi 13th Baktun 13 3333 366 6666 day 4903rd code The 4903rd number of the Pi number Coincide with the year 2222 In 1500 on a dark night in a farmhouse near Granada in Southern Spain a gray colored 1 meter extraterrestrial creature who called himself Alien in his notes stood in front of the door with two letters containing a series of prophecies about the future of the world and a mysterious map with a place marked on it and with a huge picture that consisted of 100 scrambled numbers of some cryptic complex numbers and writing of future dates and he was staring at Bruno with his big black eyes In fact this number picture which is a giant Anagram was a small piece of a giant spiral that began with 3 14 and extending to infinity in which the histories of all the past and future events in the world were encoded Alien suddenly threw the things in his hand towards him and began to run rapidly through the cornfield towards the lights descending from the sky 1 km away As he began to run the flying object began to quickly descend from the sky and disappeared into the darkness Bruno first glanced toward the direction of the alien and went with fearful eyes The chain of events that began in medieval Spain with a dramatic and bitter life and death struggle in the Inquisition led Bruno and his sister Sofia on a dangerous and long journey from Andalusia to a Mayan temple in Mexico the center of the Mayan civilization and it would eventually end with their execution But the Great Prophecy that was announced would bring an end not only for the church or for them but also the whole world this time Because The Last Prophecy was leading humanity to the end of its story the Doomsday which started with the expulsion from Heaven Where did humanity come from where are we going You will find the answer to this question in The Last Prophecy

Idea of the Golden Age in Friedrich Schlegel's Philosophy of History Asko Nivala, 2017-02-03 The nineteenth century Romantic understanding of history is often confused with the longing for the past Golden Age In this book the Romantic idea of Golden Age is seen from a new angle by discussing it in the context of Friedrich Schlegel's works Interestingly Schlegel argued that the concept of a past Golden Age in the beginning of history was itself a product of antiquity imagined without any historical ground The Golden Age was not bygone for Schlegel but to be produced in the future His utopian vision of the Kingdom of God was related to the millenarian expectations of perpetual peace aroused by the revolutionary wars Schlegel understood current era through the kairos concept which emphasized the present possibilities for public agency Thus history could not be reduced to any kind of pre established pattern of redemption for the future was determined only by the opportunities manifested in the present time

The Worldmakers Ayesha Ramachandran, 2015-10-13 In this beautifully conceived book Ayesha Ramachandran reconstructs the imaginative struggles of early modern artists philosophers and writers to make sense of something that we take for granted the world imagined as a whole Once a new exciting and frightening concept the world was transformed in the sixteenth and seventeenth centuries But how could one envision something that no one had ever seen in its totality The Worldmakers moves beyond histories of globalization to explore how the world itself variously understood as an object of inquiry a comprehensive category and a system of order was self consciously shaped by human agents Gathering an international cast of characters from Dutch cartographers and French philosophers to Portuguese and English poets Ramachandran describes a history of firsts the first world atlas the first global epic the first modern attempt to develop a systematic natural philosophy all part of an effort by early modern thinkers to capture the world on the page
