The Politics Of Violence

Christopher A. Haw

The Politics Of Violence:

The Politics of Violence Carl Leiden, 1973 Politics and the Concept of the Political James Wiley, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer, displace or moralize politics. James Wiley's book takes the next step from criticizing contemporary political theory to showing what a more politics-centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber, Carl Schmitt, Paul Ricoeur, Hannah Arendt, Sheldon Wolin, Claude Lefort and Ernesto Laclau and Chantal Mouffe. These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors. They represent state-centered, republic-centered and society-centered conceptions of politics as well as realist, authoritarian, idealist, republican, populist and radical democratic traditions of political thought. This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics-centered political theory. *Politics and the Concept of the Political* will be a useful resource to general audiences as well as to specialists in political theory.

The Politics of Memory in Post-Authoritarian Transitions, Volume Two Joanna Marszałek-Kawa, Anna Ratke-Majewska, Patryk Wawrzyński, 2017-01-06 History is a powerful tool in the hands of politicians and can be a destructive weapon as power over the past is the power to decide who is a hero and who is a traitor. Tradition, the remembrance of ancestors, experiences of previous generations are keys that unlock the doors to citizens' minds and allow certain ideas, visions and political programs to flourish. However, can history be a proper political weapon during democratization processes when the past is decisively divided from the present? Are the new order and society founded on the basis of some interpretation of the past or rather are they founded only with reference to the imagined future of the nation? This book explores such questions through a detailed description of the use of remembrance policies during political transformations. It discusses how interpretations of the past served the realization of transitional objectives in countries as varied as Chile, Estonia, Georgia, Poland, South Africa and Spain. The book is a unique journey through different parts of the world, different cultures and different political systems, investigating how history was remembered and forgotten by certain democratic leaders. Individual chapters discuss how governments' remembrance policies were used to create a new citizen, to change a political culture and to justify a vision of society promoted by new elites. They explain why some sore topics were avoided by politicians and why sometimes there was no transitional justice or punishment of leaders of the authoritarian state. The book will be of interest to anyone wishing to explore policies of remembrance, democratization and the role of memory in contemporary societies.

The Politics of Atrocity and Reconciliation Michael Humphrey, 2013-04-15 *The Politics of Atrocity and Reconciliation* examines contemporary political violence and atrocity in the context of the crisis of the nation state. It explores the way violence is used to unmake the social world and how its product, suffering, is used to try to remake the social world. Humphrey considers both the unmaking of the world through torture, war, urbicide and ethnic cleansing and the resultant remaking of

the world through testimony and witnessing in the forums of truth commissions and trials The discussion thus moves from terror to trauma

Understanding Political Violence Vincenzo Ruggiero, 2006-03-16 *Understanding Political Violence* introduces political violence in the context of sociological and criminological debates The author distinguishes between political violence from below for example collective violence insurgency armed struggle and terrorism and political violence from above which includes indiscriminate repression institutional and state violence torture and war Vincenzo Ruggiero discusses and critiques the contribution of criminological theory to understanding political violence He draws on stimulating case studies to illustrate the theory including interviews with former members of the Red Army Faction in Germany and the Brigade Rosse in Italy The concluding chapter examines the recent development of a criminology of war and calls for a general ceasefire and the criminalisation of war the most extreme form of institutional violence This is essential reading for students and researchers in criminology political studies sociology and war and conflict studies

United Nations Peacekeeping and the Politics of Authoritarianism Sarah von Billerbeck, Birte Julia Gippert, Kseniya Oksamytna, Oisín Tansey, 2025-01-11 What impact does UN peacekeeping have on the politics of authoritarianism in host countries This book advances a theoretically innovative and empirically rich answer to this question while the UN does not intentionally promote authoritarianism it faces a number of constraints and dilemmas that give rise to what we call authoritarian enabling Enabling can occur through two mechanisms capacity building and the creation of a permissive environment which enhance the ability of host governments to engage in authoritarian behavior and signal to them that doing so is low cost This book illustrates these two mechanisms with four in depth case studies of UN peacekeeping operations UNTAC in Cambodia MONUC MONUSCO in the Democratic Republic of Congo MINUSTAH in Haiti and UNMIL in Liberia The analysis is based on primary interview data from over 200 interviews The authors explore the sources of enabling identifying the trade offs and contradictions that give rise to these two mechanisms They include respect for sovereignty the importance of working relations with the host government the tension between democracy and other mission goals the pressure to demonstrate quick results and divergences within missions and the broader international community While enabling stops short of the outright promotion of authoritarianism it explains why the UN s activities often appear to contradict its stated objectives and

the outcomes it delivers fall short of its goals In addition to its theoretical and empirical contributions the book suggests how these dilemmas and challenges can be overcome *The Politics of Terrorism and Counterterrorism in Bangladesh* Saimum Parvez, Mohammad Sajjadur Rahman, 2022-12-30 This book examines contemporary issues and debates of terrorism in Bangladesh including national and transnational terrorist outfits operating within the country their narratives and counternarratives ideologues women and the youth media representation counterterrorism laws and challenges Bangladesh is a fascinating and often paradoxical case study for terrorism studies The book examines major terrorist groups in contemporary Bangladesh and their international connections and narratives as well as a case study of an influential ideologue who encouraged some Bangladeshis to engage in violence The chapters discuss how women and youth play a role in Bangladeshi terrorism how the internet is used for recruiting terrorists the discourses of the media and state regarding terrorism as well as the politics of law and counterterrorism initiatives including critically evaluating non state actors and government responses In addition to providing an up to date analysis of terrorism and counterterrorism in Bangladesh this book offers a balanced and unbiased perspective on this subject It will appeal to academics and international policymakers who are researching violence and extremism in South Asia **Responding to Violent and Hateful Extremism** Anthony Ware, Leanne M. Kelly, Greg Barton, 2024-09-06 This book surveys the state of knowledge regarding development and humanitarian non government organisation NGO responses to preventing and countering violent extremism P CVE It delineates the nexus and shared objectives between P CVE and development humanitarian NGO frameworks and outlines a reframing of the concept of VE into violent and hateful extremism VHE as a shift to a more nuanced understanding which addresses inherent complexities and entanglements more deeply The diversity of case studies datasets and author perspectives serves to advance knowledge on this topic and provide useful evidence and insights to inform policy and practice This book will be a valuable resource for students academics and professionals interested in international humanitarian development operations and conflict resolution The chapters in this book were originally published as a special issue of Conflict Security Development *Monotheism, Intolerance, and the Path to Pluralistic Politics* Christopher A.
