Social Dimensions Of Canadian Youth Justice:

Social Dimensions of Canadian Youth Justice Bernard Schissel, 1993 A critical sociology of law investigation suggests that youth justice in Canada is not simply the result of guilt or innocence but to a substantial degree is dependent upon a young offender's social characteristics This text examines the history of criminology theory and its relation to youth crime and the history of Canadian youth justice from the Industrial Revolution to the Young Offenders Act **Youth Criminal Justice**

Policy in Canada Shahid Alvi, 2012-02-02 In the past ten years much has changed in terms of youth justice policies in Canada as well as in the way Canadian society has evolved Canada has a new Act governing youth crime and there are indications that the Act will be revised again to make it tougher on youth in conflict with the law a development reflecting what many scholars are calling the punitive turn in youth justice policies in Canada and elsewhere At the same time Canadian child poverty rates which are strongly correlated with criminality have remained high despite a commitment made by governments in 1989 to eradicate the problem by the year 2000 Immigration patterns have changed and unemployment rates for young Canadians remain almost twice as high as those for adults In this volume Youth Criminal Justice Policy in Canada A Critical Introduction the author addresses these and other developments in relation to youth crime in Canada from a critical criminological perspective **Marginality and Condemnation, 3rd Edition** Carolyn Brooks, Bernard

Schissel, 2021-12-13T00:00:00Z Includes test bank and PowerPoint slides for professors who have adopted the text in their course Contact examrequest@fernpub.ca for more information This well received criminology textbook now in its third edition argues that crime must be understood as both a social and a political phenomenon Using this lens Marginality and Condemnation contends that what is defined as criminal how we respond to crime and why individuals behave in anti social ways are often the result of individual and systemic social inequalities and disparities in power Beginning with an overview of criminological discourse mainstream approaches and new directions in criminological theory the book is then divided into sections based on key social inequalities of class gender race and age each of which begins with an outline of the general issues for understanding crime and an introduction that guides readers through the empirical chapters that follow The studies provide insights into general issues in criminology ranging from the historical and current nature of crime and criminal justice to the various responses to criminality Readers are encouraged and challenged to understand crime and justice through concrete analyses rather than abstract argumentation In addition to a new introductory chapter that confronts how we define crime measure crime and understand and use criminology in this millennium the third edition provides new chapters examining crime in relation to the environment terrorism masculinity children and youth and Aboriginal gangs and the legacy of colonialism *Research Handbook on Youth Criminology* Greg Martin, Estrella Pearce, 2025-07-15 This timely Handbook provides historical contemporary theoretical and methodological perspectives on youth criminology It explores cutting edge research on juvenile justice and youth governance and proposes directions for

future research **Youth and the Canadian Criminal Justice System** Shahid Alvi,2000 *Moral Panics over Contemporary Children and Youth* Charles Krinsky,2016-12-05 The concept of moral panic has received considerable scholarly attention but as yet little attention has been accorded to panics over children and youth This is the first book to examine this important and controversial social issue by employing a rigorous intellectual framework to explore the cultural construction of youth through the dissemination of moral panics It is accessible in manner and makes use of the latest contemporary research by addressing some of the pressing recent concerns relating to children and youth including cyber related panics child abuse and pornography education and crime A truly international collection this volume features new global research focusing on the United Kingdom Australia Canada South Africa and France as well as the United States Genuinely multidisciplinary in approach it will appeal to researchers and students across the social sciences and humanities from sociology and social theory to media education anthropology criminology geography and history Sporting Dystopias Ralph C. Wilcox,David L. Andrews,Robert Pitter,Richard L. Irwin,2012-02-01 Reaching beyond the popular celebration of commercial gains often associated with the proliferation of stadiums events and teams in the city *Sporting Dystopias* explores the role of sport in the process of community building Scholars from various fields including anthropology cultural studies history marketing media studies and sociology examine the cultural economic and political interplay of sport and the city The book systematically challenges the overwhelming claims of sport s benefit to the city as it scrutinizes the various tensions inherent in the relationship Grounded in economic means racial and ethnic affiliation and the contestation for space sport is seen as precipitating a broad range of human challenges The Social Dimensions of Fiction Steven Tötösy de Zepetnek,2013-11-11 This work is a comparative study of nineteenth century English Canadian and French Canadian novel prefaces a previously unexplored literary topic As a study in Comparative Literature with the application of a specific literary framework and methodology the study conforms to theoretical and methodological postulates formulated in and prescribed by this framework when applied This a priori postulate necessitates that the research on and the presentation of the Canadian novel preface be carried out in a specific manner as follows First the study will establish the hypothesis that the preface to nineteenth century English Canadian and French Canadian novels is a genre in its own right This hypothesis will rest on the following 1 a taxonomical survey of related terms meaning preface 2 a survey of secondary literature of works dealing with the preface 3 a discussion of the theoretical framework and methodology of the Empirical Theory of Literature and its appropriateness for the study of the preface and 4 a discussion of the process of the compilation of the corpus of nineteenth century Canadian novel prefaces Chapter one In a second step the theoretical postulate outlined in the hypothesis will be put into practice by the development and production of a preface typology Chapter two In a third step further tenets of the Empirical Theory of Literature will be tested on the corpus of the prefaces Chapter three In a fourth step the prefaces will be analysed following the tenets formulated in and prescribed by the systemic framework applied Chapter four

STILL Blaming Children Bernard Schissel, 2021-01-10T00:00:00Z The media enhanced moral panic surrounding youth has continued unabated over the past two decades Its form and substance varies but the politics of blaming and exploiting children underlies it all Despite the reality that rates for most youth crime have gone down the public condemnation of youth especially through the news media continue unabated and the position of children and youth in our societies is still as precarious as ever Put bluntly the lives of too many children and youth are fraught with potential danger Not only are they the victims of excessive legal scrutiny and scapegoats for panic driven public policy but they also go off to war proportionately more than adults and they work at unskilled jobs for no benefits and insultingly low wages Children and youth live outside the protections of human rights

STILL Blaming Children an expanded and updated version of Blaming Children shows how getting tough on young offenders ignores the reality of their lives and the reality of their misconduct The book ends by describing more humane and mindful alternatives for youth offenders based on the human rights our children deserve
