Social Justice And Church Authority The Public Life Of Archbishop Robert Elucey:

Catholicism in the American West Roberto R. Treviño, Richard V. Francaviglia, 2007 Like the rosary itself the influence of Catholicism on the social and historical development of the American West has been both visible and hidden visible in the effects of personal conviction on lives and communities hidden in that the fuller context of this important American religious group has been largely marginalized or undervalued in traditional historiographic treatments of the region This volume an outgrowth of the 2004 Walter Prescott Webb Memorial Lectures seeks to redress this imbalance Editors Roberto R Trevi o and Richard Francaviglia have assembled here a variety of scholarly voices to present according to the preface little known stories about a religion whose traditions and adherents had until recently remained largely at the periphery of U S history narratives The result is a work that offers at once a fuller portrait of the Catholic experience in and impact on the American West and also tantalizing glimpses that are highly suggestive of fruitful areas for further study The contributors to Catholicism in the American West bring to light the variety the hardships and ultimately some of the triumphs of Catholicism in the American West These studies are fine examples of the scholarship currently reshaping how historians understand the role of Catholicism both in the development of the West and in the broader history of the nation **Empowering the**

People of God Christopher D. Denny, Mary Beth Fraser Connolly, 2013-11-01 The early 1960s were a heady time for Catholic laypeople Pope Pius XII s assurance You do not belong to the Church You are the Church emboldened the laity to challenge Church authority in ways previously considered unthinkable Empowering the People of God offers a fresh look at the Catholic laity and its relationship with the hierarchy in the period immediately preceding the Second Vatican Council and in the turbulent era that followed This collection of essays explores a diverse assortment of manifestations of Catholic action ranging from genteel reform to radical activism and an equally wide variety of locales apostolates and movements

American Catholic Charles Morris, 2011-08-24 A cracking good story with a wonderful cast of rogues ruffians and some remarkably holy and sensible people Los Angeles Times Book Review Before the potato famine ravaged Ireland in the 1840s the Roman Catholic Church was barely a thread in the American cloth Twenty years later New York City was home to more Irish Catholics than Dublin Today the United States boasts some sixty million members of the Catholic Church which has become one of this country s most influential cultural forces In *American Catholic The Saints and Sinners Who Built America s Most Powerful Church* Charles R Morris recounts the rich story of the rise of the Catholic Church in America bringing to life the personalities that transformed an urban Irish subculture into a dominant presence nationwide Here are the stories of rogues and ruffians heroes and martyrs from Dorothy Day a convert from Greenwich Village Marxism who opened shelters for thousands to Cardinal William O Connell who ran the Church in Boston from a Renaissance palazzo complete with golf course Morris also reveals the Church s continuing struggle to come to terms with secular pluralist America and the theological sexual authority and gender issues that keep tearing it apart As comprehensive as it is provocative *American*

Catholic is a tour de force a fascinating cultural history that will engage and inform both Catholics and non Catholics alike The best one volume history of the last hundred years of American Catholicism that it has ever been my pleasure to read What s appealing in this remarkable book is its delicate sense of balance and its soundly grounded judgments Andrew Greeley

The Church in the Barrio Roberto R. Treviño, 2006-12-08 In a story that spans from the founding of immigrant parishes in the early twentieth century to the rise of the Chicano civil rights movement in the early 1970s Roberto R Trevino discusses how an intertwining of ethnic identity and Catholic faith equipped Mexican Americans in Houston to overcome adversity and find a place for themselves in the Bayou City Houston s native born and immigrant Mexicans alike found solidarity and sustenance in their Catholicism a distinctive style that evolved from the blending of the religious sensibilities and practices of Spanish Christians and New World indigenous peoples Employing church records newspapers family letters mementos and oral histories Trevino reconstructs the history of several predominately Mexican American parishes in Houston He explores Mexican American Catholic life from the most private and mundane such as home altar worship and everyday speech and behavior to the most public and dramatic such as neighborhood processions and civil rights marches He demonstrates how Mexican Americans religious faith helped to mold and preserve their identity structured family and community relationships as well as institutions provided both spiritual and material sustenance and girded their long quest for social justice

Claiming Rights and Righting Wrongs in Texas Emilio Zamora, 2009 For Mexican workers on the American home front during World War II unprecedented new employment opportunities contrasted sharply with continuing discrimination inequality and hardship

Católicos Mario T. García, 2010-01-01 Chicano Catholicism both as a popular religion and a foundation for community organizing has over the past century inspired Chicano resistance to external forces of oppression and discrimination including from other non Mexican Catholics and even the institutionalized church Chicano Catholics have also used their faith to assert their particular identity and establish a kind of cultural citizenship Based exclusively on original research and sources Mario T Garc a here offers the first major historical study to explore the various dimensions of the role of Catholicism in Chicano history in the twentieth century This is also one of the first significant studies in the still limited field of Chicano religious history Topics range from how early Chicano Catholic intellectuals and civil rights leaders were influenced by Catholic Social Doctrine to the role that popular religion has played in the lives of ordinary men and women in both rural and urban areas Garc a also examines faith based Chicano community movements like Cat licos Por La Raza in the 1960s and the Sanctuary movement in Los Angeles in the 1980s While Latino a history and culture has been for the most part inextricably linked with the tenets and practices of Catholicism there has been very little written until recently about Chicano Catholic history Garc a helps to fill that void and explore the impact both positive and negative that the Catholic experience has had on the Chicano community

Latinos and the New Immigrant Church David A. Badillo, 2006-06-19 Latin Americans make up the largest new immigrant population in the United States and Latino

Catholics are the fastest growing sector of the Catholic Church in America In this book historian David A Badillo offers a history of Latino Catholicism in the United States by looking at its growth in San Antonio Chicago New York and Miami Focusing on twentieth century Latino urbanism Badillo contrasts broad historic commonalities of Catholic religious tradition with variations of Latino ethnicity in various locales He emphasizes the contours of day to day life as well as various aspects of institutional and lived Catholicism The story of Catholicism goes beyond clergy and laity it entails the entire urban experience of neighborhoods downtown power seekers archdiocesan movers and shakers and a range of organizations and associations linked to parishes Although parishes remain the key site for Latino efforts to build individual and cultural identities Badillo argues that one must consider simultaneously the triad of parish city and ethnicity to fully comprehend the influence of various Latino populations on both Catholicism and the urban environment in the United States By contrasting the development of three distinctive Latino communities the Mexican Americans Puerto Ricans and Cuban Americans Badillo challenges the popular concept of an overarching Latino experience and offers instead an integrative approach to understanding the scope depth and complexity of the Latino contribution to the character of America s urban landscapes

Farm Workers and the Churches Alan J. Watt, 2010-02-23 In the mid 1960s the charismatic Cesar Chavez led members of California s La Causa movement in boycotting the grape harvest and melon pickers in South Texas called a strike against growers contesting unfair labor and wage practices in both states In *Farm Workers and the Churches* Alan J Watt shows how the religious and social contexts of the farm workers their leaders and the larger society helped or hindered these two pivotal actions Watt explores the ways in which liberal expressions of Northern Protestantism transplanted to California and combined with the pro labor wing of the Catholic Church and the heritage of Mexican popular piety provided a fertile field for the growth of broad support for Chavez and his organizing efforts Eventually La Causa was able to achieve collective bargaining victories including a historic labor contract between California agribusiness and farm workers The movement did not fare as well in Texas where the combination of a locally weak union leadership a more conservative Southern Protestant ethos and the strikebreaking measures of the Texas Rangers all boded ill However a general Chicano movement ultimately took permanent root in the state because of the workers struggle Watt offers a careful examination of the complex interactions among religious traditions social heritage and ethnicity as these factors affected the course and outcomes of these two pioneering campaigns undertaken by La Causa

Desegregating Dixie Mark Newman, 2018-10-04 Winner of the 2020 American Studies Network Book Prize from the European Association for American Studies Mark Newman draws on a vast range of archives and many interviews to uncover for the first time the complex response of African American and white Catholics across the South to desegregation In the late nineteenth and first half of the twentieth century the southern Catholic Church contributed to segregation by confining African Americans to the back of white churches and to black only schools and churches However in the twentieth century papal adoption and dissemination of the doctrine of the Mystical

Body of Christ pressure from some black and white Catholics and secular change brought by the civil rights movement increasingly led the Church to address racial discrimination both inside and outside its walls Far from monolithic white Catholics in the South split between a moderate segregationist majority and minorities of hard line segregationists and progressive racial egalitarians While some bishops felt no discomfort with segregation prelates appointed from the late 1940s onward tended to be more supportive of religious and secular change Some bishops in the peripheral South began desegregation before or in anticipation of secular change while elsewhere especially in the Deep South they often tied changes in the Catholic churches to secular desegregation African American Catholics were diverse and more active in the civil rights movement than has often been assumed While some black Catholics challenged racism in the Church many were conflicted about the manner of Catholic desegregation generally imposed by closing valued black institutions Tracing its impact through the early 1990s Newman reveals how desegregation shook congregations but seldom brought about genuine integration
