Social Origins Of The Iranian Revolution:

Social Origins of the Iranian Revolution Misagh Parsa, 1989 Misagh Parsa develops a structural theory of the causes and outcomes of revolution applying the theory in particular to Iran. He focuses on the ends and means of various groups of Iranians before, during, and after the revolution. For Parsa, revolution is not a direct result of ideologies which may be less important than structural factors such as the nature of the state and the economy as well as each group's interests, capacity for mobilization, autonomy, and solidarity structures. Existing theories of revolution explain earlier revolutions better than the Iranian revolution. In Iran, most of the protest was in urban areas; the peasants never played a major role and power was transferred to the clergy, not to an intelligentsia. In the 1970s, oil revenues increased, the economy developed rapidly but unevenly, and the state's expanded intervention undermined market forces and politicized capital accumulation. Systematic repression of workers' aid to the upper class and attacks on secular and religious opposition showed that the state was serving the interests of particular groups. When the state tried to check high inflation by imposing price controls on bazaaris, merchants, shopkeepers, artisans, their protests forced the state to introduce reforms, providing an opportunity for industrial workers, white collar workers, intellectuals, and the clergy to mobilize against the state. Thus, structural features rendered the state vulnerable to challenge and attack. Parsa's thorough explanation of the collective actions of each major group in Iran in the three decades prior to the revolution shows how a coalition of classes and groups, using mosques as safe gathering places and led by a segment of the clergy, brought down the monarch in 1979. In the years since the revolution, the conflicts that existed before the revolution seem to be reemerging in slightly altered form. The clergy now has control, and the state has become centrally and powerfully involved in the economy of the country.

Ardalan, 2022-12-08 This book explores the field of history through a multi-paradigmatic approach. For this purpose, it begins with a discussion of four most diverse worldviews or paradigms: namely, functionalist, interpretive, radical humanist, and radical structuralist. Before moving on to consider four aspects of the field of history: historiography, grand narrative, progress, and time, from the viewpoints of the four most diverse worldviews or paradigms. Next, the book looks at three historical events: the French Revolution, the American Civil War, and the Iranian Revolution, from the viewpoints of the four most diverse worldviews or paradigms. It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi-faceted nature of the subject matter.

revolutionary fervor the cruelty and brutality of the new regime remains shocking In Class Politics and Ideology in the Iranian Revolution Mansoor Moaddel provides the theoretical underpinnings for a richer and clearer understanding of Iran's tumultuous recent history Analyzing the causes and processes of the revolution through the prisms of class politics and ideology Moaddel argues that the currently dominant theories of revolution insufficiently address the requisite question of ideology Ideology is not simply another factor that adds an increment to the causes of revolution Ideology is the constitutive feature of revolution Moaddel explains how revolutionary conditions in Iran were created by a combination of state economic policies favoring international capital which enraged segments of the powerful bourgeoisie and fluctuations in the world economy that financially weakened Iran But the central element of the revolutionary crisis of the late 1970s was the development of Shi'i revolutionary discourse as the dominant ideology As liberalism and communism declined the potent discourse of revolutionary Islam with its martyrdom its religious rituals its symbolic structures formed a powerful conduit for popular mobilization Karl Marx likened the French Revolution to a gigantic broom which swept away all the medieval rubbish Drawing from his abundant theoretical historical and sociological knowledge Moaddel illuminates the process by which the gigantic broom of the Iranian Revolution swept all the medieval rubbish back in **Social Movements in Egypt and Iran**
