Brewer, 2013-03-28 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com What is the purpose of social science How can social science make itself relevant to the intractable problems facing humanity in the twenty first century The social sciences are under threat from two main sources One is external reflected in a global university crisis that imposes the marketization of higher education on the ancient practice of scholarship The other internal threat is social science s withdrawal from publicly engaged teaching and research into the protective bunker of disciplinarity In articulating a vision for the public role of social science in the twenty first century John Brewer argues that these threats also constitute an opportunity for a new public social science to emerge confident in its public value and fully engaged with the future of humanity in its teaching research and civic responsibilities while also remaining committed to science The argument is presented in the form of an interpretive essay thought provoking forward looking and challenging to intellectual orthodoxy It should be read and debated by all researchers and teachers in the social science disciplines who are concerned by the future of higher education and the relevance of their subjects to the future of humankind **The Social Sciences in Canada** Donald Fisher, 2006-01-01 The Social Sciences in Canada is about the background and history of the Social Science Federation of Canada in honour of its fifty years of national activity There can be little doubt that during the last fifty years the federation and its predecessors have had a substantial impact on the development of the social sciences in Canada The history of this organization is probably the best barometer that we have for recording the changes that have occurred in the relation between social scientists and Canadian society **The Politics of Social Science Research** P.
