Social Economy International Debates And Perspectives:

Social Economy Jean-Marc Fontan, Eric Shragge, 2000 An examination of the social economy from a variety of vantage points *The Social Economy* Hasmet M. Uluorta, 2009-01-13 Critically examining economic developments within the last sixty years this book argues that a crisis in global social reproduction is altering existing understandings of work labour and the economy The author of this original volume Hasmet M Uluorta contends that the crisis in the global economy is triggering a potential paradigm shift from one defined under the rubric of Employment to an alternative theorized as Work Discussing the Employment paradigm that formed the dominant mode of development after the Second World War through to the 1970s the author considers the economic and political forces that resulted in its eventual decline Focusing on already existing practices of organizations and workers in Toronto Canada the book goes on to consider the shift to Work and the consequent rise in the social economy which has broken down conventional categories of work and leisure The author concludes that the social economy presents fundamental challenges to understandings that underpinned the previous economic order Building on insights from a range of disciplines *The Social Economy* will be of interest to students and scholars of international political economy international relations labour studies sociology and globalization studies *The Black Social Economy in the Americas* Caroline Shenaz Hossein, 2017-09-18 This pioneering book explores the meaning of the term Black social economy a self help sector that remains autonomous from the state and business sectors With the Western Hemisphere's ignoble history of enslavement and violence towards African peoples and the strong anti black racism that still pervades society the African diaspora in the Americas has turned to alternative practices of socio economic organization Conscientious and collective organizing is thus a means of creating meaningful livelihoods In this volume fourteen scholars explore the concept of the Black social economy bringing together innovative research on the lived experience of Afro descendants in business and society in Argentina Brazil Canada Colombia Guyana Haiti Jamaica and the United States The case studies in this book feature horrific legacies of enslavement colonization and racism and they recount the myriad ways that persons of African heritage have built humane alternatives to the dominant market economy that excludes them Together they shed necessary light on the ways in which the Black race has been overlooked in the social economy literature *Handbook of Research on the Global Political Economy of Work* Maurizio Atzeni, Dario Azzellini, Alessandra Mezzadri, Phoebe Moore, Ursula Apatzsch, 2023-10-06 This ground breaking Handbook broadens empirical and theoretical understandings of work work relations and workers It advances a global intersectional labour studies agenda laying the foundations for the politically emancipatory project of decolonising the political economy of work **Business and Society** Doctor Kean Birch, Mark Peacock, Richard Wellen, Caroline Hossein, Sonya Scott, Alberto Salazar, 2017-01-15 Corporations dominate our societies They employ us sell to us and influence how we think and who we vote for while their economic interests dictate local national and global agendas Written in clear and accessible terms this much needed textbook provides

critical perspectives on all aspects of the relationship between business and society from an historical analysis of the spread of capitalism as the foundation of the corporate revolution in the late nineteenth century to the regulation ethics and exclusionary implications of business in contemporary society Furthermore it examines how corporate power and capitalism might be resisted outlining a range of alternatives from the social economy through to new forms of open access or commons ownership

The Oxford Handbook of Mutual, Co-Operative, and Co-Owned Business Jonathan Michie, Joseph R. Blasi, Carlo Borzaga, 2017-03-23 The Oxford Handbook of Mutuals and Co Owned Business investigates all types of member owned organizations whether consumer co operatives agricultural and producer co operatives worker co operatives mutual building societies friendly societies credit unions solidarity organizations mutual insurance companies or employee owned companies Such organizations can be owned by their consumers the producers or the employees whether through single stakeholder or multi stakeholder ownership This complex set of organizations is named differently across countries from mutual in the UK to solidarity cooperatives in Latin America In some countries such organizations are not even officially recognized and thus lack a specific denomination For the sake of clarity this Handbook will refer to member owned organizations to encompass the variety of non investor owned organizations and in the national case study chapters the terms used will be those most widely employed in that country These alternative corporate forms have emerged in a variety of economic sectors in almost all advanced economies since the time of the industrial revolution and the development of capitalism through the subsequent creation and dominance of the limited liability company Until recently these organizations were generally regarded as a rather marginal component of the economy However over the past few years member owned organizations have come to be seen in some countries at least as potentially attractive in light of their ability to tackle various economic and social concerns and their relative resilience during the financial and economic crises of 2007 2013

buoyant fiscal surplus escalating concerns about liberal ethics and corruption and a growing volatility in public opinion are examined as are Canadians increasingly uncertain views about the new Liberal leadership versus the old Liberal Party's ten year hold on power A new Conservative Party and a suddenly feisty New Democratic Party are also a central part of the new 2004 2005 Canadian political and policy milieu
