Social Fabric Of Health An Introduction To Medical Anthropology:

Encyclopedia of Medical Anthropology Carol R. Ember, Melvin Ember, 2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice The more we know how health and disease are managed in different cultures the more we can recognize what is culture bound in our own medical belief and practice The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world's cultures and to provide an overview of important topics in medical anthropology No other single reference work comes close to matching the depth and breadth of information on the varying cultural background of health and illness around the world More than 100 experts anthropologists and other social scientists have contributed their firsthand experience of medical cultures from around the world

The Social Fabric of Health John M. Janzen, 2002 This book covers the familiar themes in medical anthropology but places them in a unique perspective Using a fabric metaphor The Social Fabric of Health weaves together relationships bodies feelings narratives idea material support and institutions in the human experience of health illness and healing In addition to the unique fabric perspective the book brings to the subject of medical anthropology it also brings another unique perspective to this subject Using signs an approach commonly known as semiotics the text formulates the nuances between the subjective realm of individual experience and the more objective public world of symbols codes and laws

Olsen, Carolyn Sargent, 2017-02-27 In most places on the African continent multiple health care options exist and patients draw on a therapeutic continuum that ranges from traditional medicine and religious healing to the latest in biomedical technology The ethnographically based essays in this volume highlight African ways of perceiving sickness making sense of and treating suffering and thinking about health care to reveal the range and practice of everyday medicine in Africa through historical political and economic contexts

The Anthropology of Alternative Medicine Anamaria Iosif Ross, 2020-05-27 Alternative medicine is not a fashionable new trend but an established cultural strategy as well as a dynamic feature of mainstream contemporary medicine in which elements of folk traditions are often blended with western scientific approaches The Anthropology of Alternative Medicine is a concise yet wide ranging exploration of non biomedical healing The book addresses a broad range of practices including substance energy and information flows e g helminthic therapy spirit consciousness and trance e g shamanism body movement and the senses e g reiki and aromatherapy as well as classical medical traditions as complements or alternatives to Western biomedicine e g Ayurveda Exploring the cultural underpinnings of contemporary healing methods while assessing current ideas topics and resources for further study this book will be invaluable to undergraduate and graduate students in anthropology sociology psychology and health related professions such as nursing physical and occupational therapy and biomedicine

Reproduction, Childbearing and Motherhood Pranee Liamputtong, 2007 Although reproduction including infertility abortion childbearing and motherhood is a significant human experience its social meaning is shaped by the culture in which birthing women live Reproduction and its management therefore occur within the social and cultural context of the event As such reproductive beliefs and practices differ across social and cultural settings This book focuses on reproduction childbearing and motherhood In this volume the authors show that despite the modernisation of the society and advanced medical technology and knowledge in reproduction traditions continue to exert influence on how the women and their families manage their reproduction childbearing and motherhood in their societies
