Social Neuroscience People Thinking About Thinking People:

Social Neuroscience John T. Cacioppo, Penny S. Visser, Cynthia L. Pickett, 2006 Social neuroscience uses the methodologies and tools developed to measure mental and brain function to study social cognition emotion and behavior In this collection John Cacioppo Penny Visser and Cynthia Pickett have brought together contributions from psychologists neurobiologists psychiatrists radiologists and neurologists that focus on the neurobiological underpinnings of social information processing particularly the mechanisms underlying people thinking about thinking people In these studies such methods as functional brain imaging studies of brain lesion patients comparative analyses and developmental data are brought to bear on social thinking and feeling systems the ways in which human beings influence and are influenced by other humans The broad range of disciplines represented by the contributors confirms that among the strengths of social neuroscience are its interdisciplinary approach and the use of multiple methods that bridge disciplines and levels of analysis Social neuroscience has yielded insights into such aspects of social behavior as social regulation social rejection impression formation self awareness and attitudes regarding social groups The studies in Social Neuroscience examine topics including the neural substrates of self awareness and social cognition theory of mind cortical mechanisms of language processing stereotyping prejudice and race and the special quality of social cognition **Social neuroscience** John T. Cacioppo,

Characters in Fictional Worlds Jens Eder, Fotis Jannidis, Ralf Schneider, 2010-11-19 Although fictional characters have long dominated the reception of literature films television programs comics and other media products only recently have they begun to attract their due attention in literary and media theory The book systematically surveys today's diverse and at times conflicting theoretical perspectives on fictional character spanning research on topics such as the differences between fictional characters and real persons the ontological status of characters the strategies of their representation and characterization the psychology of their reception as well as their specific forms and constellations in and across different media from the book to the internet *Self Awareness and Personal Development* Chris Rose, 2011-11-30 Personal

development is integral to much counselling and psychotherapy training Self awareness and critical reflection are also vital for developing effective therapeutic relationships This uniquely focused sourcebook offers a fascinating range of approaches to the challenging and sometimes elusive task of self development and self understanding This textbook begins by introducing four core ways of seeing the self as multiple contextual open to change and always in relation to the other and finishes by bringing together a range of specialist practitioners to explore different pathways to self understanding Self Awareness and Personal Development provides hands on resources for the ongoing project of exploring the self It is an invaluable text for students trainees and practitioners in counselling and psychotherapy **Understanding Culture** Robert S. Wyer, Chi-yue Chiu, Ying-yi Hong, 2013-05-13 This volume contains contributions from 24 internationally known scholars covering a broad spectrum of interests in cross cultural theory and research This breadth is reflected in the diversity of the

topics covered in the volume which include theoretical approaches to cross cultural research the dimensions of national cultures and their measurement ecological and economic foundations of culture cognitive perceptual and emotional manifestations of culture and bicultural and intercultural processes In addition to the individual chapters the volume contains a dialog among 14 experts in the field on a number of issues of concern in cross cultural research including the relation of psychological studies of culture to national development and national policies the relationship between macro structures of a society and shared cognitions the integration of structural and process models into a coherent theory of culture how personal experiences and cultural traditions give rise to intra cultural variation whether culture can be validly measured by self reports the new challenges that confront cultural psychology and whether psychology should strive to eliminate culture as an explanatory variable

First Impressions Nalini Ambady, John Joseph Skowronski, 2008-05-23 This volume brings together leading investigators to explore the science of first impressions how they are formed their underlying processes and effects on emotions cognitions and behavior Integrating cutting edge theories methods and findings from diverse research traditions the book accessibly conveys the big picture of this dynamic area of study Showcasing the best current work on a fundamental aspect of person perception and social cognition this book will be read with interest by researchers and students in social and personality psychology as well as scholars in applied domains It will fill a unique niche as a text in graduate level courses

Self Control in Society, Mind, and Brain Ran Hassin, Kevin Ochsner, Yaacov Trope, 2010-04-12 This book presents social cognitive and neuroscientific approaches to the study of self control connecting recent work in cognitive and social psychology with recent advances in cognitive and social neuroscience In bringing together multiple perspectives on self control dilemmas from internationally renowned researchers in various allied disciplines this is the first single reference volume to illustrate the richness depth and breadth of the research in the new field of self control

Neuropsychology of Communication Michela Balconi, 2010-09-08 In this volume the communicative and neuropsychological correlates of daily interactions are discussed The predominant account on explaining the construction of meaning by humans is the inter relational perspective that postulates an intentional convergence of meaning arising as a consequence of the active exchanges between people The neural correlates of communication were illustrated in the light of new empirical results considering the main topics of a language and language development b pragmatics and neuropragmatics of communication c neurocognition and the cognitive bases of intentions d nonverbal communication and emotion contribution to the communicative systems New methodological approaches are considered with particular attention to neuroimaging such as PET and fMRI and brain stimulation techniques as MEG and TMS as well as their application to the clinical field

Psychotherapeutic Approaches to Schizophrenic Psychoses Yrjö O. Alanen, Manuel González de Chávez, Ann-Louise S. Silver, Brian Martindale, 2009-06-02 Highly Commended in the Psychiatry category at the 2010 BMA Medical Book Awards Psychotherapeutic Approaches to Schizophrenic Psychoses brings together professionals from around the world to provide

an extensive overview of the treatment of schizophrenia and psychosis Divided into three parts past present and future the book begins by examining the history of the treatment of schizophrenia and psychosis with reference to Freud Jung Harry Stack Sullivan and Adolf Meyer amongst others Part two then takes a geographical look at treatment and its evolution in different parts of the world including the UK USA Northern Europe and Eastern Asia Finally part three covers the range of interventions from pharmacological treatments to psychoanalytic psychotherapy to CBT with the aim of helping to shape the future integration of treatment With contributions from leading figures in the field this book will provide a varied examination of treatment and spark much needed debate about its future As such it will be essential reading for all mental health professionals in particular those involved in psychiatry psychology and psychotherapy

Ulysses and the Poetics of Cognition Patrick Colm Hogan, 2013-09-05 Given Ulysses perhaps unparalleled attention to the operations of the human mind it is unsurprising that critics have explored the work's psychology Nonetheless there has been very little research that draws on recent cognitive science to examine thought and emotion in this novel Hogan sets out to expand our understanding of Ulysses as well as our theoretical comprehension of narrative and even our views of human cognition He revises the main narratological accounts of the novel clarifying the complex nature of narration and style He extends his cognitive study to encompass the anti colonial and gender concerns that are so obviously important to Joyce's work Finally through a combination of broad overviews and detailed textual analyses Hogan seeks to make this notoriously difficult book more accessible to non specialists
