

George Herbert Mead:

The Self Is Born of Society

Few people were surprised that George Herbert Mead became a college professor. He was born to a Massachusetts family with a strong intellectual tradition, and both his parents were academics. His father was both a preacher and a teacher at a number of colleges, and his mother served for a decade as president of Mount Holyoke College. But Mead also had a hand in shaping his own life, rebelling against the strongly religious atmosphere of his home and community. After completing college, he restlessly traveled throughout the Pacific Northwest, surveying for the railroad and reading voraciously. He gradually settled on the idea of studying philosophy, an academic endeavor he pursued at Harvard and in Europe. Mead took a teaching position at the new University of Chicago. But his outlook still veered from the conventional. For one thing, he rarely published, going against a long-standing tradition among academics.

Mead's reputation and stature grew only after his death, when colleagues and former students collected and published his lecture notes. For another, Mead drew together a wide range of ideas to help launch the new field of social psychology. Finally, never content with life as it was, Mead was an active social reformer. To him, the course of an entire society was as ongoing and changeable as the life of any individual. This insight follows from his basic contention: Society may have the power to shape individuals, but people also have the capacity to mold their society.

George Herbert Mead on Social Psychology George Herbert, 2024-05-31 One of the most brilliantly original of American pragmatists George Herbert Mead published surprisingly few major papers and not a single book during his lifetime Yet his influence on American sociology and social psychology since World War II has been exceedingly strong This volume is a revised and enlarged edition of the book formerly published under the title *The Social Psychology of George Herbert Mead* It contains selections from Mead's posthumous books *Mind Self and Society* *Movements of Thought in the Nineteenth Century* *The Philosophy of the Act* and *The Philosophy of the Present* together with an incisive newly revised introductory essay by Anselm Strauss on the importance of Mead for contemporary social psychology Required reading for the social scientist Milton L Barron Nation

Mind, Self & Society George Herbert Mead, 2015-05-12 This foundational text of social psychology presents the most complete summation of Mead's theory of symbolic interactionism George Herbert Mead is widely recognized as one of the most brilliantly original American pragmatists Although he had a profound influence on the development of social philosophy he published no books in his lifetime This makes the lectures collected in *Mind Self and Society* all the more remarkable as they offer a rare synthesis of his ideas This collection gets to the heart of Mead's meditations on social psychology and social philosophy With wry humor and shrewd reasoning Mead teases out the genesis of the self and the nature of the mind Included in this edition are an insightful foreword from leading Mead scholar Hans Joas a revealing set of textual notes by Dan Huebner that detail the text's origins and a comprehensive bibliography of Mead's other published writings

Essays on Social Psychology George Mead, 2017-09-08 George Herbert Mead 1863 1931 is a central founding figure of modern sociology comparable to Karl Marx and Max Weber Mead's early work prior to his posthumous publications that appeared after 1932 is believed to be a series of articles contemporary scholarship defines as disconnected A previously unknown never published set of galley proofs for a book of essays by Mead written between 1892 and 1910 unites these articles into a logical perspective *Essays on Social Psychology* Mead's first book clearly locates him within a significantly different tradition and network than documented in his posthumous volumes The discovery of this work is a major scholarly event Instead of being abstract and unemotional as some scholars argue Mead's early scholarship focused on the significance of emotions instincts and childhood as well as political issues underlying political problems in Chicago

During these early years he was involved with the emerging Laboratory Schools at the University of Chicago which was then the center of progressive education. These early topics, interpretations, and scholarly networks are dramatically different in these writings from those of Mead as a mature scholar. They demonstrate that he was clearly making a transition from psychology to social psychology at a time when the latter was in its infancy. Mary Jo Deegan, a world renowned Meadian scholar, has comprehensively edited this volume, footnoting now obscure references and authors. Her introduction explains how this previously lost manuscript affects contemporary Meadian scholarship and how it reflects the city and times in which he lived. Unlike the posthumous volumes assembled from lecture notes, *Essays in Social Psychology* is the only book actually written by Mead and challenges most current scholarship on him. The selections are highly readable, surprisingly timely, yet historically significant. Psychologists, sociologists, and educators will find it immensely important. George Herbert Mead (1863-1931) taught at the University of Chicago from 1894 to 1931. His posthumous volumes are *The Philosophy of the Present*, *Mind, Self, and Society*, and *The Philosophy of the Act*. Mary Jo Deegan is professor of sociology at the University of Nebraska-Lincoln. She is the author of *Jane Addams and the Men of the Chicago School, 1892-1918*, named by Choice as among the outstanding academic books of 1989. **The Individual and the Social Self** George Herbert Mead, 1982
