Social Security as a Human Right Eibe H. Riedel, 2006-11-07 Article 9 of the International Covenant on Economic Social and Cultural Rights on the right to social security is the shortest article in the entire Covenant and for that reason alone highly abstract and vague A comprehensive analysis of the article 9 is still lacking not least because it is widely regarded as a Pandora's box better not to be opened Experience has shown that the quality of the state reporting procedure is greatly improved once the Committee on Economic Social and Cultural Rights has adopted a General Comment Thus it seems very desirable to close this gap For the reason an International Expert Workshop on the Right to Social Security was held in April 2005 at the German Institute for Human Rights whose purpose was to highlight specific issues of the right to social security which should be addressed by the Committee when drafting a General Comment on article 9 The results of this workshop are published in this volume providing an insight into the current challenges on social security as a human right

Globalization and Welfare Restructuring in China Huisheng Shou, 2016-10-14 In the past few decades the change in China's welfare system has been characterised by a balanced distribution of benefits across social sectors and the institutionalization of welfare redistribution This process has occurred without significant political change that would empower politically disadvantaged groups such as the urban and rural poor This book questions what has motivated the regime to redistribute welfare benefits through an institutionalized manner whilst its political structure remains largely unchanged By situating China within the broader context of East Asia and against the backdrop of globalization since the 1980s this book examines the institutional origin and development of China's new welfare system Through doing this it provides an understanding of the nature of the Chinese state in dealing with its economy and society in a context of global economic integration A global local dynamics framework highlights the importance of the interactive relationship between China's integration into the world economy and its unique geopolitical constraints which together induce the regime to listen to its subjects and follow a move to the middle in welfare restructuring Offering a novel

explanation of the welfare globalization relations in a non democratic setting this book will be of interest to students and scholars of Social Policy International Political Economy and Chinese Politics Cuban Studies 18 Carmelo

The Rise and Fall of the Privatized Pension System in Chile Andrés Solimano, 2021-02-18

The Rise and Fall of the Privatized Pension System in Chile focuses on the Chilean experience with a privatized pension system since the early 1980 when launched by the Pinochet regime. It explores economic, financial, and political economy dimensions of a private pension system based on individual savings capacity implemented in a highly unequal country. The book also highlights the role played by the pension system as a mechanism of savings redistribution from wage earners and the self-employed to the funding of big corporations at home and abroad in a process intermediated by profit-making pension fund management companies. The book compares the resilience of Chile's private pension system with the reversals of the privatized pension system in recent years in countries of Latin America and Central Eastern Europe. It outlines a program of structural pension reform towards a more progressive public-based system.
