Scheurell, 2002-09-11 Presents articles that provide a comparison of Indigenous social welfare policy in Africa Australia Pacific Central and South America Europe and North America see separate entry for article by J C Altman and W Sanders [Social Welfare with Indigenous Peoples](#) Professor John Dixon, John Dixon, Robert P. Scheurell, 2002-09-11 In many areas of the world there has been an earlier indigenous population which has been conquered by a more recent population group In *Social Welfare with Indigenous Peoples* the editors and contributors examine the treatment of many indigenous populations from five continental areas Africa Sierra Leone Zimbabwe Australasia New Zealand Central and South America Brazil Mexico Europe Scandinavia Spain and North America They found that regardless of whether the newer immigrants became the majority population as in North America or the minority population such as in Africa there were many similarities in how the indigenous peoples were treated and in their current situations This treatment is examined from many perspectives political subjugation negligence shifting focus of social policy social and legal discrimination provision of social services and ethnic cultural and political rejuvenation *Globalization and the Health of Indigenous Peoples* Ahsan Ullah, 2016-11-18 In 70 countries worldwide there is an estimated 370 million indigenous peoples and their rich diversity of cultures religions traditions languages and histories has been significant source of our scholarships However the health status of this population group is far below than that of non indigenous populations by all standards Could the persisting reluctance to understand the influence of self governance globalization and social determinants of health in the lives of these people be deemed as a contributor to the poor health of indigenous peoples Within this volume Ullah explores the gap in health status between indigenous and non indigenous peoples by providing a comparative assessment of socio economic and health indicators for indigenous peoples government policies and the ways in which indigenous peoples have been resisting and adapting to state policies A timely book for a growing field of study *Globalization and the Health of Indigenous Peoples* is a must read for academics policy makers and practitioners who are interested in indigenous studies and in understanding the role that globalization plays for the improvement of indigenous peoples health across the world **Taiwan's Contemporary Indigenous Peoples** Chia-yuan Huang, Daniel Davies, Dafydd Fell, 2021-07-08 This edited volume provides a complete introduction to critical issues across the field of Indigenous peoples in contemporary Taiwan from theoretical approaches to empirical analysis Seeking to inform wider audiences about Taiwan's Indigenous peoples this book brings together both leading and emerging scholars as part of an international collaborative research project sharing broad specialisms on modern Indigenous issues in Taiwan This is one of the first dedicated volumes in English to examine contemporary Taiwan's Indigenous peoples from such a range of disciplinary angles following four section themes long term perspectives the arts education and politics Chapters offer perspectives not only from academic researchers but also from writers bearing rich practitioner and activist experience from
