

NOT TO BE CONFUSED. DO YOU REALLY WANT SOCIALISM?

SOCIAL DEMOCRACY

- ▶ Democratically elected government collects revenue through taxes and spends it on social programs.
- ▶ Exists in a **capitalist** economy; individuals are free to own businesses and industries and voluntarily sell and buy goods. The government, however, taxes them.
- ▶ The government can own corporations only if it founds them itself or buys them from its owners with their consent using tax money.
- ▶ Examples: most European and North American countries.
- ▶ Success rate: depends on the transparency and effectiveness of each government, tax rates and spending practices.

SOCIALISM

- ▶ The state or 'public' owns the means of production (businesses and industries), manages them, and redistributes profits as it sees fit.
- ▶ Requires expropriation of all businesses and profits from private owners without their consent. Private individuals are not allowed to own businesses and keep profits.
- ▶ To be implemented fully in a nation, it requires violence and non-democratic means, as expropriation of businesses without consent cannot be carried out democratically.
- ▶ Examples: USSR, Mao's China, North Korea, Cuba, Eastern Bloc countries of the Cold War such as East Germany.
- ▶ Success rate: each and every time led to mass repressions, poverty, starvation and grave human rights violations.

COMMUNISM

- ▶ 'The goal of socialism' (V. Lenin).
- ▶ A theoretical system, where no state, classes and money exist, and the public has free access to goods.
- ▶ Wages and pay for labour are abolished and so are prices for goods. Buying and selling does not take place.
- ▶ Goods are redistributed based on need. The agent in charge of carrying out redistribution is vaguely defined as 'public' or 'people'.
- ▶ Examples: never taken place in any nation, as a system without money and classes and with free goods is impossible in practice.
- ▶ Success rate: in 1961, the leader of the USSR, Nikita Khrushchev promised communism by 1980... The USSR collapsed in 1991.

Capitalism, Socialism and Democracy Joseph A. Schumpeter, 2010-04-05 Capitalism Socialism and Democracy remains one of the greatest works of social theory written in the twentieth Century Schumpeter's contention that the seeds of capitalism's decline were internal and his equal and opposite hostility to centralist socialism have perplexed engaged and infuriated readers since the book's first publication in 1943 By refusing to become an advocate for either position Schumpeter was able both to make his own great and original contribution and to clear the way for a more balanced consideration of the most important social movements of his and our time This Routledge Classics edition includes a new Introduction by one of the world's leading economists Joseph Stiglitz

Which Socialism? Norberto Bobbio, 1991-01-08 Can democracy provide a path to socialism Can civil rights and democratic institutions be protected and developed in a socialist society Does our view of the nature and value of democracy affect our understanding of socialism itself In a world with regimes which profess to be socialist which socialism is worth defending today In this powerful and provocative volume Norberto Bobbio re-examines the uneasy relation between socialism and democracy He argues that Marxist theory has failed to provide an adequate account of the nature and role of the state in socialist society and defends the concept of representative democracy Bobbio's arguments sparked off a lively debate in Italy this volume includes a reply by Antonio Negri The volume also includes an essay by Bobbio on Marxism and international relations and his classic text on Gramsci's conception of civil society

Law, Socialism and Democracy Q Paul, 2013-10-17 This book explores the political and legal institutions necessary for a democratic socialism in advanced industrial societies It argues that a democratic socialist society needs a firm framework of public law and a formal constitution Populist conceptions of direct democracy and informal justice are argued to be inadequate as the primary means of democratic control in a complex society likewise Marxist views of the withering away of the state are challenged as utopian The book maintains that radical reforms in political institutions are necessary in order to effect social change
