Society for Old Testament Study Book List 1994 Lester L. Grabbe, 1994 *Society for Old Testament Study Booklist*
2003 George J. Brooke, 2003-03-06 The Book List provides short reviews of up to 500 books a year It includes publications not only on the Old Testament directly but also on many related areas including archaeology epigraphy Hebrew and related Semitic languages especially Northwest Semitic relevant ancient Near Eastern history and literature the Hellenistic world early Judaism and social anthropology The main value of the Book List is its comprehensiveness and its immediacy in that it is usually among the first periodicals to review a book **SOTS at 100: Centennial Essays of the Society for Old Testament Study** John Jarick, 2017-01-12 This volume presents an important insight into the history of scholarship on the Old Testament over the last 100 years Presented in collaboration with the Society for Old Testament Study which celebrates its centenary in 2017 the volume examines the shifting patterns in scholarship on the Old Testament over the last century from the types of subject studied to the demographic make up of the scholars working on the Old Testament Hebrew Bible themselves The volume has been written by several longstanding members and officers of the society As such the volume presents a remarkable history of scholarship of Old Testament studies **Judaic Religion in the Second Temple Period** Lester L. Grabbe, 2002-11 The developments in Judaism during the Second Temple period remain important to contemporary Jewish religion This volume provides a much needed encyclopedic study of the period Includes bibliographies cross references and summaries **The Lazarus Story Within the Johannine Tradition** Wendy Sproston North, 2001-05-01 This historical critical study of the Gospel of John and the First Epistle of John challenges the commonly held view that the first Johannine epistle is related to the Gospel Sproston argues that the two writings are indirectly related through a common Johannine tradition A comparison of the two therefore allows traditional material in the evangelist's work to be isolated enhancing our understanding of the creative processes involved in its composition The account of the raising of Lazarus is rigorously analysed as a test case for this kind of analysis *Elenchus of Biblica* Maria J. Schoenmaeckers, Robert Althann, 2004-12-20 Le 23 novembre 1964 jour de la promulgation de Lumen Gentium la constitution dogmatique sur l'Eglise marque un evenement c'est la premiere fois dans l'histoire de l'Eglise qu'une assemblee de la Sainte Eglise s'exprime solennellement sur la vie consacree Le sixieme chapitre de la constitution traite de la signification et de l'essence de la vie religieuse la reliant au mystere de l'Eglise peuple de Dieu Ce texte conciliaire presente la vie religieuse comme un etat canonique celui du chretien qui tend dans un institut de perfection a la charite parfaite et consacre sa vie a Dieu et aux hommes ppar la profession des conseils evangeliques de chastete pauvreté et obeissance De toute evidence cette declaration doctrinale est importante pour l'Eglise et pour le developpement de la vie consacree dans l'Eglise En lisant Lumen Gentium on est assez vite frappe par le debut abrupt du sixieme chapitre sur les religieux car tous les autres chapitres s'ouvrent par une breve introduction Cependant on ne peut deracher ce chapitre de ce qui a ete dit precedemment sur la vocation

universelle a la saintete En fait l histoire du texte fait clairement ressortir le lien qui unit ces chapitres Jewish given Names and Family Names David L. Gold,2001-12-01 This work identifies and describes over 3 000 books essays in books and articles on Jewish given names and family names throughout history spanning the Biblical period to modern times The bibliography is a highly analytic one recording published materials in a wide variety of research languages treating Jewish anthroponymy in the broadest sense from historical sociological and linguistic perspectives The bibliography will be an invaluable resource for any researcher engaged in etymological studies Jewish intralinguistics or Jewish family history

The Bible in Africa Gerald West,Musa Dube,2021-10-01 Although the arrival of the Bible in Africa has often been a tale of terror the Bible has become an African book This volume explores the many ways in which Africans have made the Bible their own The essays in this book offer a glimpse of the rich resources that constitute Africa s engagement with the Bible Among the topics are the historical development of biblical interpretation in Africa the relationship between African biblical scholarship and scholarship in the West African resources for reading the Bible the history and role of vernacular translation in particular African contexts the ambiguity of the Bible in Africa the power of the Bible as text and symbol and the intersections between class race gender and culture in African biblical interpretation The book also contains an extensive bibliography of African biblical scholarship In fact it is one of the most comprehensive collections of African biblical scholarship available in print This publication has also been published in paperback please click here for details

Congress Volume Oslo 1998 A. Lemaire,M. Sæbø,2014-09-03 This Congress Volume comprises not only the main lectures of the XVIth I O S O T Congress held in Oslo 1998 but also the interventions at the two panels on Intertextuality and the Pluralism of Methods and on The Hebrew Bible and History Both the main lectures and the panelists interventions focus on current methodological problems and study central questions in the present study of the Hebrew Bible Old Testament in its environment *Reading the Dead Sea Scrolls* George J. Brooke,2013-10-01 The Dead Sea Scrolls which have long captured the public imagination are now all available in principal editions and accessible translations This book addresses the next stage in their analysis by raising questions about how they should be read and studied The essays collected here illustrate two approaches First some essays argue that traditional methods of studying ancient texts need to be refined and broadened in the light of the Scrolls The volume thus contains studies on text criticism literary traditions lexicography historiography and theology Second the book also argues that innovative methods of study applied fruitfully in other areas now also need to be applied to the Scrolls such as studies that consider the relevance for the Scrolls of deviance theory cultural memory hypertextuality intertextuality genre theory spatial analysis and psychology Many of the examples in these studies relate to how authoritative scripture was handled and appropriated by the groups that gathered the Scrolls together in the caves at and near Qumran so some of the same texts are analyzed from several different perspectives
