Sociological Thought From Comte To Sorokin:

Sociological Thought M. Francis Abraham, John Henry Morgan, 1989 **Classical Theorists in the Social Sciences**

Dejo Abdulrahman, 2023-05-05 This book is a useful companion to every social science student who desires an understanding of classical theoretical developments in and evolution of the disciplines **The Socio-Intellectual Foundations of Malek**

Bennabi's Approach to Civilization Badrane Benlahcene, 2011-01-01 Since the publication of Samuel Huntington's The Clash of Civilizations concern about civilization has been reintroduced into the debate on the world order Malek Bennabi 1905 1973 prominent Algerian thinker and great Muslim intellectual intently focused on unraveling the causes of Muslim decline and the success of Western civilization and culture The key problem he theorized lay not in the Qur'an or Islamic faith but in Muslims themselves The author investigates Bennabi's approach to civilization and the fundamental principles drawn using metatheorizing methodology In doing so he sheds further light on perhaps one of the more intriguing elements of Bennabi's theory that civilization is governed by internal external and social intellectual factors and that an equation can be generated for civilization itself This equation of Man Soil Time Civilization and of which religion according to Bennabi forms the all important catalyst is explained and its significance in terms of the reversal of Muslim decline evaluated What is clearly apparent is that for Bennabi Man is the central force in any civilizing process and without him the other two elements are of no value With regard to outcomes Bennabi's unerring conviction that unless Muslims changed their spiritual condition they could not affect any far reaching meaningful change in society is echoed in the Qur'anic verse Verily never will Allah change the condition of a people until they change what is in themselves 13 11 **Reintroducing Pitirim A. Sorokin**

Lawrence T. Nichols, 2025-12-05 Reintroducing Pitirim A Sorokin acquaints readers with the work and creativity of one of sociology's greatest scholars highlighting the enduring importance of his thought and vision Forced to leave his native Russia by war and revolution Sorokin 1889 1968 had a profound effect on sociology in the United States where he helped to found several mainstream subfields of sociology and developed the discipline in new directions including with his philosophy of Integralism Exploring Sorokin's research on culture civilizational change and the sociology of love as well as his advocacy of a peaceful international order blending the cultures of East and West this book highlights Sorokin's contribution to sociology demonstrating that his work anticipates many of the problems of our new millennium and considering the ways in which his ideas continue to challenge and inspire us while offering routes to addressing the difficulties we face The book will appeal to scholars across the social sciences with interests in social theory and the history of sociology as well as in the sociology of culture the sociology of war and peace and the sociology of morality and altruism **Pitirim A. Sorokin** Barry V.

Johnston, 1995 Pitirim A Sorokin 1889 1968 was one of the most original important and controversial figures in American sociology His spectacular rise from a peasant childhood in Czarist Russia to the Olympian heights of Harvard University provides an unlikely and fascinating lens for examining the history of an entire discipline And as Barry Johnston shows his

equally dramatic fall from favor and unexpected resurrection illuminate both Sorokin's life and the tempestuous world of academic politics. An outspoken revolutionary and secretary to Alexander Kerensky, Sorokin was imprisoned and ordered executed by Lenin, then reprieved and exiled. During the 1920s he flourished as a teacher and scholar at the University of Minnesota, where he published several pioneering books on the Russian Revolution, social mobility, sociological theory, and rural sociology. Harvard president A. Lawrence Lowell was so impressed that he recruited Sorokin to chair the university's first department of sociology. From 1930 to 1944 the department prospered under Sorokin's leadership, attracting an entire generation of young scholars who in their own right would have a profound impact on the discipline. In this period Sorokin published several volumes of his magnum opus, *Social and Cultural Dynamics*, and became embroiled in a bitter battle with rival Talcott Parsons for control of the department. Parsons ultimately deposed Sorokin and transformed sociology into the Department of Social Relations. Sorokin nevertheless stayed on at Harvard, where he established the Center for Creative Altruism but otherwise continued to work in relative obscurity. Finally, in 1963, after years in eclipse, Sorokin was recognized for his accomplishments when he was elected president of the American Sociological Association. During a long and distinguished career, Sorokin amassed an amazingly diverse and substantial body of work, much of which set the standard for the field. At the same time, he broke with the conventions of sociology, frequently ridiculing and taunting his less adventurous colleagues. For his heresy, the flamboyant Sorokin was condemned and driven to the periphery of a profession anxious for legitimacy as a science. As a result, Sorokin's ideas have been consistently ignored and misunderstood for more than a quarter century. Based on exhaustive research in Sorokin's papers and the Harvard archives, as well as interviews with Sorokin's surviving family members, former students, and colleagues, this biography restores Sorokin to his rightful place in the pantheon of American intellectuals.

The Social Thought of Ortega Y Gasset John T. Graham, 2001 **Scholar, Priest, and Pastor** John Henry Morgan, 1998 **Society, State, and Urbanism** Fuad Baali, 1988-07-08

Ilm al umran is an independent science. This science has its own peculiar object that is human civilization and social organization. The discussion of this topic is something new, extraordinary, and highly useful. Penetrating research has shown the way to it. Ibn Khaldun. This book probes the nature, scope, and methods of ilm al umran, the new science of human social organization as it is developed in Ibn Khaldun's 14th-century masterpiece, the *Muqaddimah*. It explores his ideas and observations on society, culture, socialization, social control, the state, *asabiyyah*, social solidarity, history as a cyclical movement, urbanization, and the typology of *badawa* (primitive life) and *hadara* (civilized life or urbanism). Through a comparative perspective, this study illustrates that Khaldun's ideas about society have conceptually preceded those of Machiavelli, Vico, and Turgot, as well as those of Montesquieu, Comte, Durkheim, Gumplowicz, Spengler, Tonnies, and even Marx. *Society, State, and Urbanism* demonstrates that Ibn Khaldun's thought is relevant to contemporary sociological theory and that his very language differs little from that of classical and modern sociologists.

Visions of the Sociological Tradition Donald N. Levine, 1995-09. This book is a masterful

account of the social science enterprise by one of its most accomplished practitioners Moving from the origins of systematic knowledge in ancient Greece to the present day Donald Levine offers a richly detailed ingeniously organized introduction to the cornerstone works of Western social thought **Guru Nanak Journal of Sociology** ,1986
