Sociology And The Twilight Of Man Homocentrism And Discourse In Sociological Theory:

Sociology and the Twilight of Man Charles C. Lemert, 1990 Sociology and the Twilight of Man Charles C.

Lemert, 1979 A critique of modern sociological theory this brilliant new work rather than announcing the twilight of man accepts the event both as an intellectual conclusion and an empirical fact and proceeds systematically to examine the alternatives beyond the Weber Durkheim Parsons episteme Addressing himself to the issues of pluralism in sociological theory Lemert rigorously examines representative writings of important theorists in America and Europe including the writings of Homans Lexical Explanation Blalock Theory Constructionism Parsons Analytic Realism Blumer Symbolic Interactionism Schutz Berger Luckmann Phenomenology Cicourel Ethnomethodology and Habermas Critical Theory Lemert challenges the celebrated pluralism hypothesis in his argument that recent sociological theory is not so pluralistic after all and has not made particular use of available styles of thinking Sociology and the Twilight of Man is an important contribution to the modern sociological enterprise for several reasons First it raises basic questions about the progress made beyond earlier theoretical writings Second it questions the explanatory force of current theories Third it questions whether contemporary theory can continue to develop in a meaningful way without a profound reexamination of its assumptions and premises And fourth it demonstrates the value of discursive analysis to theoretical studies Lemert's critique could lead to fundamental revisions of sociologists' perception of their discipline *Bibliography of Semiotics, 1975-1985*, 1986-01-01 This bibliography of semiotic studies covering the years 1975-1985 impressively reveals the world-wide intensification in the field During this decade national semiotic societies have been founded all over the world a great number of international national and local semiotic conferences have taken place the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field This bibliography is the result of a dedicated effort to approach complete coverage Race of Time Daniel Chaffee, Samuel Han, 2015-11-17 Charles Lemert is one of the most renowned critics of social theory and theorists today The editors of this book have offered and contextualised many of his best essays and situated them against the backdrop of American sociology The breadth of Lemert's work doesn't stop at an academic engagement with theoretical debates such as globalisation or postmodernism but cuts right to the heart of abiding social issues His work is focused and continues to probe pressing questions such as the rise of vulnerabilities in an era of new capitalism By weaving together personal narrative research lucid explanations and a dynamic engagement with social theory of old and new his unique prose renders accessible complex theoretical debates **The Handbook of Discourse Analysis** Deborah Schiffrin, Deborah Tannen, Heidi E. Hamilton, 2008-04-15 The Handbook of Discourse Analysis makes significant contributions to current research and serves as a comprehensive and authoritative guide to the central issues in contemporary discourse analysis Features comprehensive coverage of contemporary discourse analysis Offers an overview of how different disciplines approach the analysis of discourse Provides analysis of a wide range of data including political

speeches everyday conversation and literary texts Includes a varied range of theoretical models such as relevance theory and systemic functional linguistics and methodology including interpretive statistical and formal methods Features comprehensive coverage of contemporary discourse analysis

Structural Lie Charles C. Lemert, 2015-12-22 The Structural Lie tackles one of social science's most mysterious problems How is it possible to derive statements about the grand structures of social life from their effects in the small movements of everyday life Prominent sociologist Charles Lemert shows how Marx and Freud provide some answers to this question Marx derived from the commodity his picture of the capitalist system Freud diagnosed the character of psyches from the details of dreams slips and jokes This wonderfully readable and engaging book lays the foundation for a new social science in an age where a microchip can convey a world of information A Critical Theory Of Public Life Ben Agger, 2013-10-31 This text collects together Ben Agger's essays on the origins significance and applications of critical theory a perspective associated with the Frankfurt School The essays address a variety of topics including the viability of Marxist theory and new social movements
