Visions of the Apocalypse Wheeler Winston Dixon, 2003-09-17 Visions of the Apocalypse examines the cinema's fascination with the prospect of nuclear and or natural annihilation as seen in such films as Saving Private Ryan Bowling for Columbine We Were Soldiers Invasion U S A The Last War Tidal Wave The Bed Sitting

Room The Last Days of Man on Earth and numerous others It also considers the ways in which contemporary cinema has become increasingly hyper conglomerised leading to films with ever higher budgets and fewer creative risks Along the way the author discusses such topics as the death of film itself to be replaced by digital video the political and social tensions that have made these visions of infinite destruction so appealing to the public and the new wave of Hollywood war films coupled with escapist comedies in the post 9 11 era Encompassing both questions of physical and filmic mortality Visions of the Apocalypse is a meditation on the questions of time memory and the cinema s seemingly unending appetite for spectacles of destruction

Universal Human Rights David A. Reidy, Mortimer N. S. Sellers, 2005-07-21 Universal Human Rights brings new clarity to the important and highly contested concept universal human rights The Charter of the United Nations commits nearly all nations of the world to promote to realize and take action to achieve human rights and fundamental freedoms for all yet this formal consensus masks an underlying confusion about the philosophical basis and practical implications of rights in a world made up of radically different national communities This collection of essays explores the foundations of universal human rights in four sections devoted to their nature application enforcement and limits concluding that shared rights help to constitute a universal human community which supports local customs and separate state sovereignty Rights protect the benefits of cultural diversity while recognizing the universal dignity that every human life deserves The eleven contributors to this volume demonstrate from their very different perspectives how human rights can help to bring moral order to an otherwise divided world

The Middle East, Abstracts and Index, 2002 *Sociology and Social Research*, 1929 Includes the section Book notes
