The Garden Watcher:

The Garden Watcher May Moir, 1983 *The Watcher in the Garden* Joan Phipson, 2013-05-22 Trespassing in Mr Lovett's secluded garden was a welcome escape for sixteen year old Catherine. A haven away from the parents who didn't understand her moodiness and from her pretty even tempered sister Diana whom she resented. It was a place to be alone. But this all changes when Catherine is confronted by Mr Lovett and realising he is blind decides to confide in him. And so begins a remarkable friendship. Unexpectedly a third person appears in the garden an intruder Terry abrasive and sullen menacing even has a claim to make on the garden. It is a piece of land he feels should belong to his own family. In his plan neither Mr Lovett nor the garden is safe and it is up to Catherine to stop him. But in Terry she recognises something of herself. A complex and gripping novel of human relationships from one of Australia's foremost authors for young adults. Joan Phipson was born in Sydney of English parents and spent her childhood in England Australia and India. After leaving school she did a correspondence course in journalism then took a number of jobs in London one of which was with Reuters. She returned to Australia in 1937 and spent several years working as a librarian and printer before joining the WAAAF. Joan Phipson won the Children's Book Council of Australia's Book of the Year Award in 1953 and 1963 for *Good Luck to the Ride* and *The Family Conspiracy*. She died in 2003. *The Watcher in The Garden* 1982 by Joan Phipson has been republished by Text Classics for a new generation of readers to appreciate this timeless tale of adolescent angst played out against the backdrop of its uniquely Australian background. The cover design and the wonderful introduction by Margo Lanagan set the mood for this remarkable tale. Jessica's plane develops engine trouble over the dry Australian inland and crashes in thick unfamiliar rainforest. A group she thinks is a search party shows up but it consists of large eyed not quite people who kill all survivors except Jessica and a long haired hippie named Brian. No one is going to come to rescue her. In fact they're not even on Earth. While the pair wrestle their way through the forest in search for help Jessica becomes ever more suspicious of Brian. Why does he know so much about the world where they have ended up? Why is he so insistent on helping her? Jessica has always been able to use her mind to tell animals what to do and now she's hearing voices in her head. Another man is pleading her not to listen to Brian. Except this man can kill someone with a single look and he uses his mental powers to order people around. In this utterly strange and dangerous world where people seem to want something from her who can she trust? A gritty survival story in the vein of *The Hunger Games* set in a Star Wars locality. Napoleon: A Life Told in Gardens and Shadows Ruth Scurr,2021-06-15 Marking the 200th anniversary of his death

Napoleon is an unprecedented portrait of the emperor told through his engagement with the natural world. How should one envisage this subject? With a great pomp of words or with simplicity? Charlotte Brontë's *The Death of Napoleon*, the most celebrated general in history, Napoleon Bonaparte (1769-1821) has for centuries attracted eminent male writers. Since Thomas Carlyle first christened him our last Great Man, regiments of biographers have marched across the same territory, weighing campaigns and conflicts, military tactics and power politics. Yet in all this time, no definitive portrait of Napoleon has endured, and a mere handful of women have written his biography, a fact that surely would have pleased him. With *Napoleon*, Ruth Scurr, one of our most eloquent and original historians, emphatically rejects the shibboleth of the Great Man theory of history, instead following the dramatic trajectory of Napoleon's life through gardens, parks and forests. As Scurr reveals, gardening was the first and last love of Napoleon, offering him a retreat from the manifold frustrations of war and politics. Gardens were at the same time a mirror image to the battlefields on which he fought: discrete settings in which terrain and weather were as important as they were in combat, but for creative rather than destructive purposes. Drawing on a wealth of contemporary and historical scholarship, and taking us from his early days at the military school in Brienne-le-Château through his canny seizure of power and eventual exile, Napoleon frames the general's story through the green spaces he cultivated. Amid Corsican olive groves, ornate menageries in Paris, and lone garden plots on the island of Saint Helena, Scurr introduces a diverse cast of scientists, architects, family members and gardeners, all of whom stood in the shadows of Napoleon's meteoric rise and fall. Building a cumulative panorama, she offers indelible portraits of Augustin Bon-Joseph de Robespierre, the younger brother of Maximilien Robespierre who used his position to advance Napoleon's career; Marianne Peusol, the fourteen-year-old girl manipulated into a Christmas Eve assassination attempt on Napoleon that resulted in her death; and Emmanuel comte de Las Cases, the atlas maker to whom Napoleon dictated his memoirs. As Scurr contends, Napoleon's dealings with these people offer unusual and unguarded opportunities to see how he grafted a new empire onto the remnants of the ancien régime and the French Revolution. Epic in scale and novelistic in its detail, *Napoleon* with stunning illustrations is a work of revelatory range and depth, revealing the contours of the general's personality and power as no conventional biography can.

Bird Watcher's Digest, 2004 **Gardens and Gardening in the Chesapeake, 1700-1805** Barbara Wells Sarudy, 1998-06-05 In *Gardens and Gardening in the Chesapeake*, Barbara Wells Sarudy recovers this lost world using a remarkable variety of sources: historic maps, travelers' accounts, diaries, paintings, some on the back of Baltimore painted chairs, account ledgers, catalogues, and newspaper advertisements. She offers an engaging account of the region's earliest gardens, introducing us to the people who designed and tended these often elaborate landscapes and explaining the forces and finances behind their creation. From the favorite books of early gardeners to the republican balance between table and ornamental gardens, Sarudy includes details that give us an understanding of Chesapeake gardening from settlement through the early national period.
