The Gardens of Delight Ian Watson,2011-09-29 In The Gardens of Delight Ian Watson boldly lands a starship within the hallucinatory terrain of Hieronymus Bosch's painting The Garden of Earthly Delights a medieval masterpiece which enchants and horrifies all who see it for the picture shows what looks to be a paradise of pleasure yet it also displays a terrible hell of torments And so the ship's psychologist Sean Athlone and two women companions explore the luxurious landscape of giant fruits and birds and strange towers and naked celebrating people in quest of the godlike alien intelligence that has transformed a planet according to Bosch's vision populating it with the colonists from a previous starship

The Garden of Delights Fiona J. Griffiths,2011-06-03 In The Garden of Delights Fiona J Griffiths offers the first major study of the Hortus deliciarum a magnificently illuminated manuscript of theology biblical history and canon law written both by and explicitly for women at the end of the twelfth century In so doing she provides a brilliantly persuasive new reading of female monastic culture Through careful analysis of the contents structure and organization of the Hortus Griffiths argues for women's profound engagement with the spiritual and intellectual vitality of the period on a level previously thought unimaginable overturning the assumption that women were largely excluded from the renaissance and reform of this period As a work of scholarship that drew from a wide range of sources both monastic and scholastic the Hortus provides a witness to the richness of women's reading practices within the cloister demonstrating that it was possible even late into the twelfth century for communities of religious women to pursue an educational program that rivaled that available to men At the same time the manuscript's reformist agenda reveals how women engaged the pressing spiritual questions of the day even going so far as to criticize priests and other churchmen who fell short of their reformist ideals Through her wide ranging examination of the texts and images of the Hortus their sources composition and function Griffiths offers an integrated understanding of the whole manuscript one which highlights women's Latin learning and orthodox spirituality The Garden of Delights contributes to some of the most urgent questions concerning medieval religious women the interplay of gender spirituality and intellectual engagement to discussions concerning women scribes and writers women readers female authorship and authority and the visual culture of female communities It will be of interest to art historians scholars of women's and gender studies historians of medieval religion education and theology and literary scholars studying questions of female authorship and models of women's reading
