trail building and the second volume of the cultural landscape report Acadia Trails Treatment Plan 2005 which lays out precise construction and maintenance techniques favoring the historically faithful preservation of Acadia's footpaths. These authoritative resources and the park's Hiking Trails Management Plan were compiled with input from one of the best kept secrets in the National Park Service: the Olmsted Center for Landscape Preservation, a coterie of landscape architects, historians, and writers tucked away in Brookline, Massachusetts. The Olmsted staff collaborated over several years with Acadia's trail crew, one of the best in the 388-unit National Park System. Each year the Acadia Trails Forever project brings more trails up to the rehabilitation standards set forth in the cultural landscape report. Previously neglected features such as iron work, granite steps, bog bridges, log stringers, water bars, rock drains, Bates style cairns, and other historic features are carefully redone or added, complementing Acadia's natural splendor. Audience: Environmentalists, Historians, Educators, and Students would find it interesting to learn about the history of Acadia National Park and the people that work to preserve it.
