The Genius Of Haiku Readings From R H Blyth On Poetry Life Zen:

The Genius of Haiku Reginald Horace Blyth, 1995 **The Routledge Global Haiku Reader** James Shea, Grant Caldwell, 2023-06-30 The Routledge Global Haiku Reader provides a historical overview and comprehensive examination of haiku across the world in numerous languages poetic movements and cultural contexts Offering an extensive critical perspective this volume provides leading essays by poets and scholars who explore haiku s various global developments demonstrating the form s complex and sometimes contradictory manifestations from the twentieth century to the present The sixteen chapters are carefully organized into categories that reflect the salient areas of practice and study Haiku in Transit Haiku and Social Consciousness Haiku and Experimentation and The Future of Global Haiku An insightful introduction surveys haiku s influence beyond Japan and frames the collection historically and culturally questioning commonly held assumptions about haiku and laying the groundwork for new ways of seeing the form Haiku s elusiveness its resistance to definition is partly what keeps it so relevant today and this book traces the many ways in which this global verse form has evolved The Routledge Global Haiku Reader ushers haiku into the twenty first century in a critically minded and historically informed manner for a new generation of readers and writers and will appeal to students and researchers in Asian studies literary studies comparative literature creative writing and cultural studies **Poetic Leaps in Zen's Journey of Enlightenment** Yong Zhi, 2012-08 While the philosophical discussion of Zen spirituality reaches its limit poetry offers an effective expression of the sublime experiences From a poetic perspective enlightenment is understood as poetic leaps in the spiritual journey which brings people from the habitually or conventionally established world toward new horizons of consciousness This leap is a breakthrough in the overall consciousness rather than a progression in contemplative thought Therefore it cannot be adequately described through abstract representation but poetry can metaphorically capture this leap and reveal both the spiritual meaning and the practical wisdom of enlightenment This book will take you on this fantastic journey of enlightenment **Birding and Mysticism Volume 2** George E. Lowe, 2009-09-29 In volume 2 of Birding and Mysticism Enlightenment Through Bird Watching there is no traditional table of contents rather there are the five main parts and their sections and subsections which contain the substantive ideas and memes of volume 2 followed by six appendices The main thrust of volume 2 concerns the many aspects faces and forms of mysticism religious spiritual rational scientific personal and practical **Handbook of Poetic Forms** Jessica Bundschuh, Irmtraud Huber, 2025-10-06 This Handbook of Poetic Forms aims to offer historically informed approaches to a wide variety of poetic forms A particular emphasis will be on considering poetic form in dialogue with the cultural context in which it is being used as well as within the literary tradition of each form and to explore the stable as well as the historically variable affordances of each form in such contexts Hereby the focus lies on prescriptive forms that is on poetic forms which are defined by or at least associated with specific metrical stanzaic or overall structures or the absence of such rather than poetic genres that are primarily characterised by similarities

in subject matter like the elegy or the ode While this Handbook should be accessible to students its aim is not to offer basic introductions but rather to broaden a historical and functional understanding of the poetic forms it covers and to engage with poetic forms not as givens but as historically contingent processes of formation Above all this Handbook s formalism is new formalist in emphasising historical awareness and contextualisation

Memories of Now Han Van Den Boogaard,2013-05-02 In Memories of Now On Non duality and the Permanence of the Present Han van den Boogaard weaves an insightful and sometimes poignant exploration of consciousness childhood and nature the depths and the shallows of experience and the transparent world of unequivocal simplicity that I seemed to have lost somewhere in my youth What seemed divisible became indivisible again and at the same time I knew that it had never been lost This book is not about me not about my travels memories or spiritual experiences Together these only make a two dimensional picture that might contain a three dimensional truth if you re able to look at it with an open mind and a loving heart The picture itself doesn t really matter The important thing is the switch from flat to deep Unknowingly you make this

switch many times a day during those moments in which you suddenly forget yourself But when you re really aware of it the true depth of life will be recognised as the unchanging Now and you will know that this is the only truth from Memories of Now
