Renaissance humanists believed that if you want to build a just society you must begin with the facts of human nature This book argues that the idea of a universal human nature was as important to Shakespeare as it was to every other Renaissance writer In doing so it questions the central principle of post modern Shakespeare criticism Postmodernists insist that the notion of defining a human essence was alien to Shakespeare and his contemporaries as radical anti essentialists the Elizabethans were in effect postmodernists before their time In challenging this claim Shakespeare s Humanism shows that for Shakespeare as for every other humanist writer in this period the key to all wise action was the knowledge of our selves and our human condition
