The Genocide :

The Genocide Convention John Quigley, 2016-03-09 The Genocide Convention explores the question of whether the law and genocide law in particular can prevent mass atrocities The volume explains how genocide came to be accepted as a legal norm and analyzes the intent required for this categorization The work also discusses individual suits against states for genocide and finally explores the utility of genocide as a legal concept 99 - *All you should know about the Genocide* , The book 99 is part of the Recognize 1915 project dedicated to the 100th anniversary of the Armenian Genocide due in 2015 We believe that every person irrespective of nationality must recognize and condemn such crimes against humanity Only by spreading awareness we may achieve a day when all genocides are only in past Mass Media and the Genocide of the Armenians Stefanie Kappler, Sylvia Kasparian, Richard Godin, Joceline Chabot, 2016-03-29 The role of the mass media in genocide is multifaceted with respect to the disclosure and flow of information This volume investigates questions of responsibility denial victimisation and marginalisation through an analysis of the media representations of the Armenian genocide in different national contexts The genocide perpetrated against the Tutsis of Rwanda explained to its children

Jean-Marie Vianney Rurangwa, 2025-07-01 In a dialogical clear pedagogical style and a resolutely scientific documented and reasoned approach the author through his spokesman Professor Jean de Dieu Namahire explains the unheard of crime that bereaved Rwanda in 1994 by answering questions about its genesis its execution and its memory A beautiful work that easily instructs any reader and is a high quality didactic tool for parents and teachers Koulsy Lamko postfacer **Raphael**

Lemkin and the Struggle for the Genocide Convention J. Cooper, 2008-01-17 This book is the first complete biography of Raphael Lemkin the father of the United Nations Genocide Convention based on his papers and shows how his campaign for an international treaty succeeded In addition the book covers Lemkin s inauguration of the historical study of past genocides

The Genocide Paradox Anne O'Byrne, 2023-04-25 We regard genocidal violence as worse than other sorts of violence perhaps the worst there is But what does this say about what we value about the genos on which nations are said to be founded This is an urgent question for democracies We value the mode of being in time that anchors us in the past and in the future that is among those who have been and those who might yet be If the genos is a group constituted by this generational time the demos was invented as the anti genos with no criterion of inheritance and instead only occurring according to the interruption of revolutionary time Insofar as the demos persists we experience it as a sort of genos for example the democratic nation state As a result democracies are caught in a bind disavowing genos thinking while cherishing the temporal forms of genos life they abhor genocidal violence but perpetuate and disguise it This is the genocide paradox O Byrne traces the problem through our commitment to existential categories from Aristotle to the life taxonomies of Linneaus and Darwin through anthropologies of kinship that tether us to the social world the shortfalls of ethical theory into the history of democratic theory and the defensive tactics used by real existing democracies when it came to defining genocide

for the U N Genocide Convention She argues that although models of democracy all make room for contestation they fail to grasp its generational structure or acknowledge the generational content of our lives They cultivate ignorance of the contingency and precarity of the relations that create and sustain us The danger of doing so is immense It leaves us unprepared for confronting democracy s deficits and its struggle to entertain multiple temporalities In addition it leaves us unprepared for understanding the relation between demos and violence and the ability of good enough citizens to tolerate the slow burning destruction of marginalized peoples What will it take to envision an anti genocidal democracy

Civilian-Driven Violence and the Genocide of Indigenous Peoples in Settler Societies Mohamed

Adhikari,2021-07-12 Existing studies of settler colonial genocides explicitly consider the roles of metropolitan and colonial states and their military forces in the perpetration of exterminatory violence in settler colonial situations yet rarely pay specific attention to the dynamics around civilian driven mass violence against indigenous peoples In many cases however civilians were major if not the main perpetrators of such violence The focus of this book is thus on the role of civilians as perpetrators of exterminatory violence and on those elements within settler colonial situations that promoted mass violence on their part

The Genocide Convention John B. Quigley,2006 The Genocide Convention explores the question of whether the law and genocide law in particular can prevent mass atrocities The volume explains how genocide came to be accepted as a legal norm and analyzes the intent required for this categorization The work also discusses individual suits against states for genocide and finally explores the utility of genocide as a legal concept The Genocide Convention United States. Congress. Senate. Committee on Foreign Relations,1950

The Genocide Convention H. G. Van Der Wilt,Harmen van der Wilt,Jeroen Vervliet,2012-05-16 Genocide is acknowledged as the crime of crimes This book is the product of an encounter between scholars of historical and legal disciplines which have joined forces to address the question of whether the legal concept of genocide still corresponds with the historical and social perception of the phenomenon The Genocide Convention

John Quigley,2013-01-28 The Genocide Convention explores the question of whether the law and genocide law in particular can prevent mass atrocities The volume explains how genocide came to be accepted as a legal norm and analyzes the intent required for this categorization The work also discusses individual suits against states for genocide and finally explores the utility of genocide as a legal concept

A Cultural Interpretation of the Genocide Convention Kurt Mundorff,2020-08-25 This book critiques the dominant physical and biological interpretation of the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide Using Raphael Lemkin s personal papers archival materials from the State Department and the UN as well as the mid century secondary literature it situates the convention in the longstanding debate between Enlightenment notions of universality and individualism and Romantic notions of particularism and holism The author conducts a thorough review of the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin s ideas were held widely in the immediate

postwar period Reconstructing the mid century conversation on genocide and situating it in the much broader mid century discourse on justice and society he demonstrates that culture is not a distraction to be read out of the Genocide Convention it is the very reason it exists This volume poses a forceful challenge to the materialist interpretation and calls into question decades of international case law It will be of interest to scholars of genocide human rights international law the history of international law and human rights and treaty interpretation

Ambacide: The Genocide and Extermination Reminiscent of Extermination of Jews (Holocaust) by Adolf Hitler Tatah Mentan, 2021-07-20 Genocide and extermination are no longer mere words promises hopes etc These acts are already a law which can be enforced In practical terms this law means no more extermination no more mass killings no more concentration camps no more sterilisations no more wanton rapes no more killings and burning of people to conceal evidence no more torching of habitats no more breaking up of families The call to stop genocide is often presented as the paramount moral obligation in contemporary global politics The Never Again refrain and the consistent references to the ethical value of Responsibility to Protect genocide stand as calls for urgent political mobilisation Taking a look at the internet blackouts the militarisation of towns and cities all across Southern Cameroons Ambazonia the indiscriminate torching of hundreds of villages schools and health centres the rampant gang rape of females by HIV infected troops mass killings of civilians burning of innocent civilians in their sleep disembowelling pregnant women and slaughtering them and their unborn babies arbitrary arrests and detentions dehumanising raids of residential areas in search of Anglophones mindless torture extortions and looting by La Rpublique du Cameroun troops the genocide and extermination were well planned in advance Professor Tatah Mentan argues that the bloodbath was designed with a clear kinetic theological foundation as its centrepiece The theologians of the genocide were ironically not clerics They were rather journalists and sycophantic pro regime intellectuals who apparently served as the echo chamber of the Biya genocidal regime for his Hitler like Final Solution to crush and assimilate Anglophones the rats cockroaches secessionists separatists or microbes as they were stigmatised The suffering inflicted by Hitler on Jews fell outside the realm of expression Often depicted as the savage lunatic who plunged the world into World War II Adolf Hitler's name has been on the tongues of historians psychologists economists and laymen for ages Similarly President Paul Biya like Hitler the Monster is being depicted as the epitome of Lucifer himself Finally Professor Tatah Mentan concludes that the pandemic genocide and extermination of Ambazonians by La Rpublique du Cameroun genocidaires can only be peacefully resolved by an internationally negotiated separation of both warring Former UN Category B Trust Territories

The Strategy to End the Genocide against the Tutsi in Rwanda Jonathan R. Beloff, 2024-11-25 The Genocide against the Tutsi witnessed the deaths of close to a million Tutsis and non extremist Hutus within a one hundred day period While the genocide is extensively researched the war that led to its conclusion is relatively unexplored The Strategy to End the Genocide against the Tutsi in Rwanda Understanding the War in Kigali by Jonathan R Beloff addresses how the Rwandan

Civil War impacted the rate of killings and how the Rwandan Patriotic Army RPA the military wing of the Rwandan Patriotic Front RPF liberated Rwanda's capital city Kigali Through archival research the testimonies and experiences of genocide survivors and the testimonies of military personnel this book also provides unique insight into Rwandan history and a chronological examination of the war Utilizing strategic theory as a theoretical framework for warfare Beloff examines the various tactics and operations used by the RPA to provide critical insights into decision making during the war and genocide

The Marginalised in Genocide Narratives Giorgia Donà, 2019-05-23 This year marks the twenty fifth anniversary of the Rwanda genocide This volume the product of over 20 years of engagement with Rwanda and its diaspora offers a timely reminder of the necessity of rethinking the genocide's social history Examining a range of marginal stories and using Rwanda as a case study The Marginalised in Genocide Narratives analysis of the transformation of genocide into a powerful narrative of a nation establishes an innovative means of understanding the lived spaces of violence and its enduring legacy In a distinctive approach to the social history of genocide this book engages with the marginalised foregrounds genocide's untold stories and uses the conceptual framework of the constellation of genocide narratives to create connections among multiple social actors and identify narrative themes that address the unequal power and interdependence of narratives Adopting a multi level narrative methodology that addresses the value of multiple narrative framings for understanding genocides The Marginalised in Genocide Narratives will appeal to students and researchers interested in sociology conflict and peace studies history African studies and narrative research It may also appeal to policy makers interested in genocide studies and contemporary social history

Rwanda Before the Genocide J.J. Carney, 2013-09-02 Winner of the Bethwell A Ogot Book Prize of the African Studies Association Between 1920 and 1994 the Catholic Church was Rwanda's most dominant social and religious institution In recent years the church has been critiqued for its perceived complicity in the ethnic discourse and political corruption that culminated with the 1994 genocide In analyzing the contested legacy of Catholicism in Rwanda Rwanda Before the Genocide focuses on a critical decade from 1952 to 1962 when Hutu and Tutsi identities became politicized essentialized and associated with political violence This study the first English language church history on Rwanda in over 30 years examines the reactions of Catholic leaders such as the Swiss White Father Andr Perraudin and Aloys Bigirimwami Rwanda's first indigenous bishop It evaluates Catholic leaders controversial responses to ethnic violence during the revolutionary changes of 1959-62 and after Rwanda's ethnic massacres in 1963-64 1973 and the early 1990s In seeking to provide deeper insight into the many threaded roots of the Rwandan genocide Rwanda Before the Genocide offers constructive lessons for Christian ecclesiology and social ethics in Africa and beyond

After the Genocide in Rwanda Hannah Grayson, Nicki Hitchcott, Laura Blackie, Stephen Joseph, 2019-06-27 Since the Genocide against the Tutsi when up to one million Rwandan people were brutally killed Rwanda has undergone a remarkable period of reconstruction Driven by a governmental programme of unity and reconciliation the last 25 years have seen significant changes at national community

and individual levels This book gathers previously unpublished testimonies from individuals who lived through the genocide These are the voices of those who experienced one of the most horrific events of the 20th Century Yet their stories do not simply paint a picture of lives left destroyed and damaged they also demonstrate healing relationships personal growth forgiveness and reconciliation Through the lens of positive psychology the book presents a range of perspectives on what happened in Rwanda in 1994 and shows how people have been changed by their experience of genocide *The United States and Genocide* Jeffrey Bachman, 2017-11-22 There exists a dominant narrative that essentially defines the US relationship with genocide through what the US has failed to do to stop or prevent genocide rather than through how its actions have contributed to the commission of genocide This narrative acts to conceal the true nature of the US relationship with many of the governments that have committed genocide since the Holocaust as well as the US own actions In response this book challenges the dominant narrative through a comprehensive analysis of the US relationship with genocide The analysis is situated within the broader genocide studies literature while emphasizing the role of state responsibility for the commission of genocide and the crime s ancillary acts The book addresses how a culture of impunity contributes to the resiliency of the dominant narrative in the face of considerable evidence that challenges it Bachman s narrative presents a far darker relationship between the US and genocide one that has developed from the start of the Genocide Convention s negotiations and has extended all the way to present day as can be seen in the relationships the US maintains with potentially genocidal regimes from Saudi Arabia to Myanmar This book will be of interest to scholars postgraduates and students of genocide studies US foreign policy and human rights A secondary readership may be found in those who study international law and international relations *The Armenian Genocide* Alan Whitehorn, 2015-05-26 With its analytical introductory essays more than 140 individual entries a historical timeline and primary documents this book provides an essential reference volume on the Armenian Genocide The Armenian Genocide has often been considered a template for subsequent genocides and is one of the first genocides of the 20th century As such it holds crucial historical significance and it is critically important that today s students understand this case study of inhumanity This book provides a much needed long overdue reference volume on the Armenian Genocide It begins with seven introductory analytical essays that provide a broad overview of the Armenian Genocide and then presents individual entries a historical timeline and a selection of documents This essential reference work covers all aspects of the Armenian Genocide including the causes phases and consequences It explores political and historical perspectives as well as the cultural aspects The carefully selected collection of perspective essays will inspire critical thinking and provide readers with insight into some of the most controversial and significant issues of the Armenian Genocide Similarly the primary source documents are prefaced by thoughtful introductions that will provide the necessary context to help students understand the significance of the material **Gender and the Genocide in Rwanda** Sara E. Brown, 2017-08-09 This book examines the mobilization role and trajectory of women rescuers

and perpetrators during the 1994 genocide in Rwanda While much has been written about the victimization of women during the 1994 genocide in Rwanda very little has been said about women who rescued targeted victims or perpetrated crimes against humanity This book explores and analyzes the role played by women who exercised agency as rescuers and as perpetrators during the genocide in Rwanda As women they took actions and decisions within the context of a deeply entrenched patriarchal system that limited their choices This work examines two diverging paths of women s agency during this period to rescue from genocide or to perpetrate genocide It seeks to answer three questions First how were certain Rwandan women mobilized to participate in genocide and by whom Second what were the specific actions of women during this period of violence and upheaval Finally what were the trajectories of women rescuers and perpetrators after the genocide Comparing and contrasting how women rescuers and perpetrators were mobilized the actions they undertook and their post genocide trajectories and concluding with a broader discussion of the long term impact of ignoring these women this book develops a more nuanced and holistic view of women s agency and the genocide in Rwanda This book will be of much interest to students of gender studies genocide studies African politics and critical security studies The Open Access version of this book available at <https://www.routledge.com/Gender+and+the+Genocide+in+Rwanda+Women+as+Rescuers+and+Perpetrators/Brown/p/book/9780367188092> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
