## **The George W Bush Presidential Deck:**

**The George W. Bush Presidential Deck** Parody Productions, 2004-01-01      **The George W. Bush Presidency** Robert E. Denton Jr., 2012-07-21 To date there are only a couple dozen or so books specifically about the Presidency of George W Bush Political operatives members of the media and former administration officials have written most of the volumes Additionally the early books on the Bush presidency focus on the various aspects and dimensions of the War on Terror In essence these studies challenge the justification of our deployment the Bush doctrine and the assumptions of nation building Few volumes focus on his quite substantial legislative record and impact There are a few academic volumes on the Bush presidency but they were completed while he was still in office They tend to be biased and uniformly negative The George W Bush Presidency A Rhetorical Perspective seeks to remedy this lack of academic investigation of the 43rd president and his rhetorical strategies This volume is unique because the contributors analyze the Bush Presidency from a largely rhetorical perspective The chapters look at the rhetoric of Bush across the contexts of domestic policy foreign policy the wars and politics in general Further this thorough study examines the Inaugural addresses State of the Union addresses and addresses before joint sessions of Congress Others analyze his political philosophy policy issues and his rocky relationship with the news media Collectively this essential text provides insight into the role of public discourse in the campaigning and governing of the George W Bush presidency      **The President of War** Elizabeth Gerteiny, 2009-09-29 THE PRESIDENT OF WAR is a brilliant concise review of the Bush presidency Everyone should read this book to glimpse step by step the attempts of the war president to destroy the traditional values that had exemplified the hopes and dreams of America Ms Gerteinys prose stirs your mind her poetry touches your heart Its easy to forget some of the nuances that we have trudged through during the past 8 years This book brings them to light W Leon Smith Publisher The Lone Star Iconoclast      **Public Papers of the Presidents of the United States, George W. Bush** United States. President (2001-2009 : Bush), 2003      **Public Papers of the Presidents of the United States, George W. Bush, 2004, Book 2, July 1 to September 30, 2004** George W. Bush,      Public Papers of the Presidents of the United States, George W. Bush, 2007-03 Contains public messages and statements of the President of the United States released by the White House from January 1 to June 30 2002      **Presidents on Political Ground** Bruce Miroff, 2018-01-19 How much power does a president really have Theories and arguments abound pointlessly Bruce Miroff says if we don t understand the context in which presidents operate Borrowing from Machiavelli Miroff maps five fields of political struggle that presidents must traverse to make any headway media powerful economic interests political coalitions the high risk politics of domestic policy and the partisan politics of foreign policy The prince readying for war Machiavelli writes must learn the nature of the terrain and know how mountains slope how valleys open how plains lie and understand the nature of rivers and swamps So it is with presidents navigating the political landscape The variability of political ground and of the conflicts fought on it is a core

proposition of this study The swift collapse of the Soviet Union the terrorist attacks of 9 11 and the financial crisis of 2008 recent history offers a quick lesson in fortune s role in the careers of presidents Taking a historical perspective which opens on an array of cases Miroff explores the various ways in which a president s agenda is constrained or facilitated by political conditions on the ground His book reveals how political identity is constructed and contested in the media through the ever changing presidential spectacle what happens when Democrats in the White House tangle with the titans of the economy why presidents claiming to represent the entire nation have to manage political coalitions that direct rewards to their own followers why domestic policy has become tough terrain for presidents and how partisan polarization has reshaped presidential leadership in foreign policy an area once considered beyond politics Providing a new perspective on why and how presidents succeed or fail in each of these areas this book is an indispensable resource for understanding the forces that shape presidencies and the power of a president to fight on such fraught terrain George W. Bush: bk. 2. July 1 to September 30, 2004 United States. President (2001-2009 : Bush),2007 *Black Sea Affair* Don Brown,2009-05-26 It s a mission that could bring the world to the brink of nuclear war Now time is running out It starts with a high stakes theft weapons grade plutonium is stolen from Russia The Russian army is about to attack Chechnya to get it back But U S intelligence discovers that the stolen shipment is actually on a rogue Russian freighter in the Black Sea It turns into a global nightmare a secret mission gone awry an American submarine commander arrested and hauled before a military tribunal in Moscow and a game of brinksmanship so dangerous that war might be its only possible conclusion As the U S Navy searches for weapons grade plutonium that has been smuggled out of Russia by terrorists a submarine mishap escalates the international crisis With the world watching JAG Officer Zack Brewer is called to Moscow to defend submarine skipper Pete Miranda and his entire crew It is a heart stopping race against the clock With Russian missiles activated and programmed for American cities Brewer stalls for time as the U S Navy frantically searches the high seas for a floating hydrogen bomb that could threaten New York Harbor Disarming Iraq Glen Segell,2004 **The Pen and the Sword** Calvin F. Exoo,2010 The Pen and the Sword is the only comprehensive examination of how the media have covered the 21st century s 1 news story terrorism and the wars in Afghanistan and Iraq This is the full story from 9 11 to the Obama doctrine including **Translog** ,2004 **Women, Power, and Politics** Lori Cox Han,Caroline Heldman,2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life

and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics

The Legacy of George W. Bush's Foreign Policy Ilan Peleg, 2018-04-17 This volume incisively analyzes the foreign policy of George W Bush Examining the legacy of the forty third President author Ilan Peleg explains the complex factors underlying the Bush Doctrine neoconservative ideology real and perceived challenges to US world supremacy Bush s personality the White House s unique decision making process and the impact of September 11 Peleg argues that in its shift from deterrence and containment to prevention and preemption from multilateral leadership to unilateral militarism and from consensual realism to radical neoconservatism the Bush administration has effected a true revolution in the foundational goals as well as in the means of US foreign policy Peleg also offers a series of judicious recommendations for future administrations including the reestablishment of a bipartisan consensus on foreign policy increased emphasis on multilateralism the demilitarization of US foreign policy renewed focus on the resolution of serious regional conflicts and more realistic expectations about noncoerced democratization around the world

**Militainment, Inc.** Roger Stahl, 2009-12-04 Militainment Inc offers provocative sometimes disturbing insight into the ways that war is presented and viewed as entertainment or militainment in contemporary American popular culture War has been the subject of entertainment for centuries but Roger Stahl argues that a new interactive mode of militarized entertainment is recruiting its audience as virtual citizen soldiers The author examines a wide range of historical and contemporary media examples to demonstrate the ways that war now invites audiences to enter the spectacle as an interactive participant through a variety of channels from news coverage to online video games to reality television Simply put rather than presenting war as something to be watched the new interactive militainment presents war as something to be played and experienced vicariously Stahl examines the challenges that this new mode of militarized entertainment poses for democracy and explores the controversies and resistant practices that it has inspired This volume is essential reading for anyone interested in the relationship between war and media and it sheds surprising light on the connections between virtual battlefields and the international conflicts unfolding in Iraq and Afghanistan today

Controversies of the George W. Bush Presidency Nancy S. Lind, Bernard I. Tamas, 2006-12-30 The George W Bush administration has become one of the most controversial in American history The president that once enjoyed a post 9 11 astronomical approval rating of 88 percent ranked almost as low in his second term as any president in history Throughout the social security and stem cell research debates the Enron trial the Patriot Act the Abu Ghraib prisoner abuse scandal No Child Left Behind and the administration s lackluster response to Hurricane Katrina George Bush s presidency has been white hot controversial Fueling the controversies have been Bush s speeches and public

statements axis of evil mission accomplished etc This volume is packed with primary document excerpts from presidential speeches public statements and letters and from opposing congressional arguments an excellent resource for helping students understand events that will affect the U S for years to come Introductory sections set the context for each document and extensive lists of web sites and further reading sources supplement the material This volume is an excellent resource for helping students understand events that will affect the U S for years to come

**It's Still the Economy, Stupid** Paul Begala, 2010-05-11 When he took office in 2001 George W Bush inherited the strongest economy in American history He inherited the largest federal budget surplus in American history and the prospect of paying off the entire national debt in just eight years He inherited a strong dollar and sound fiscal policy He inherited a nation whose economy was so strong that commentators who just a decade before were predicting American decline were now complaining about American dominance And yet Dubya blew it Squandered everything he d inherited from President Clinton We thought if Junior was good at anything it was inheriting things It s Still the Economy Stupid is the story of how America s CEO our first MBA president has trashed our economy It shows How he wasted the surplus on massive tax cuts for the hyper rich How he talked down the economy for his short term political gain then passed an economic program that has put 1 8 million Americans out of work and cost investors 4 4 trillion How he abandoned his free trade rhetoric to adopt protectionist tariffs effectively raising taxes on consumers How he walked away from needed investments in education training and all the things that make us smarter safer and stronger economically How he plans to go on from here to cripple Social Security and to allow the privileged to avoid even more taxes It makes you wonder What do they teach you at Harvard Business School

Nimitz-Class Aircraft Carriers Brad Elward, 2011-03-15 The Nimitz class aircraft carrier is the ultimate symbol of the United States superpower status A true behemoth this is an unsurpassed weapons platform that overshadows all of its nearest rivals A history of the world s largest aircraft carriers with runways over 300 meters long this book looks at the development and deployment of the nuclear powered Nimitz class aircraft carriers from 1975 when the USS Nimitz the lead ship of the class was commissioned to the present day All of the class are still operational and the tenth and last of the class the USS George H W Bush was commissioned in 2009 Here Brad Elward provides a detailed overview of their design and development highlighting their unique features from jet blast deflectors to cutting edge radar systems and a history of the Nimitz class in service from deployment in the Gulf during Operation Desert Storm through to the enforcement of the no fly zone over Bosnia
