# The German Problem Basic Questions Of German Political Life Past And Present

**Steven E. Aschheim**

## **The German Problem Basic Questions Of German Political Life Past And Present:**

**The German Problem** Gerhard Ritter, 1965      **The Routledge Handbook of German Politics & Culture** Sarah Colvin, 2014-11-27 The Routledge Handbook of German Politics and Culture offers a wide ranging and authoritative account of Germany in the 21st century It gathers the expertise of internationally leading scholars of German culture politics and society to explore and explain historical pathways to contemporary Germany the current Berlin Republic society and diversity Germany and Europe Germany and the world This is an essential resource for students researchers and all those looking to understand contemporary German politics and culture      **The German Problem Transformed** Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe s central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the détente of the 1960s and 1970s the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University      **Communities, Politics, and Reformation in Early Modern Europe** Thomas Brady, 2021-10-25 The studies united in this volume explore themes of community politics religion gender and social conflict and accommodation during the first decades of the Reformation movement Other chapters investigate historiographical themes especially the interpretation of early modern German history Two longer chapters address European themes the historical sociology of early modern societies in terms of legal definitions of status and modern conceptions of economic class and the difference between central and western European development in a global context Taken together the studies explore the transition zone between medieval and modern history in both microhistorical especially urban and regional and broadly comparative contexts Some of the studies are supplementary to the author s books on the sixteenth century Protestant Reformation at Strasbourg in southern Germany and in the Holy Roman Empire      [Encyclopedia of Historians and Historical Writing](#) Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800

entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies      *Conflicted Memories* Konrad Hugo Jarausch, Thomas Lindenberger, Annelie Ramsbrock, 2007 Despite the interest in general European history the European dimension is surprisingly absent from much of the writing of contemporary history In most countries the historiography on the 20th century is dominated by national perspectives This book focuses on the development of a shared conception of European history      **Frontiers of History** Donald R. Kelley, 2006-01-01 In 1764 65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro* plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais's visit to Madrid he never went to Seville and a re-creation of the society that fired his imagination Drawing on Beaumarchais's letters and commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the inspirations for such widely recognized characters as the barber valet Figaro the lordly Count Almaviva and the beautiful but deceived Rosine Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais      **Studies in Contemporary Jewry: IV: The Jews and the European Crisis, 1914-1921** Jonathan Frankel, 1988-06-30 Nazism Normalcy and the German Sonderweg by Steven E Aschheim The Hebrew University Signed by author      *In the House of the Hangman* Jeffrey K. Olick, 2005-09 The central question for both the victors and the vanquished of World War II was just how widely the stain of guilt would spread over Germany Political leaders and intellectuals on both sides of the conflict debated whether support for National Socialism tainted Germany's entire population and thus discredited the nation's history and culture The tremendous challenge that Allied officials and German thinkers faced as the war closed then was how to limn a postwar German identity that accounted for National Socialism without irrevocably damning the idea and character of Germany as a whole In *In the House of the Hangman* chronicles this delicate process exploring key debates about the Nazi past and German future during the later years of World War II and its

aftermath What did British and American leaders think had given rise to National Socialism and how did these beliefs shape their intentions for occupation What rhetorical and symbolic tools did Germans develop for handling the insidious legacy of Nazism Considering these and other questions Jeffrey K Olick explores the processes of accommodation and rejection that Allied plans for a new German state inspired among the German intelligentsia He also examines heated struggles over the value of Germany's institutional and political heritage Along the way he demonstrates how the moral and political vocabulary for coming to terms with National Socialism in Germany has been of enduring significance as a crucible not only of German identity but also of contemporary thinking about memory and social justice more generally Given the current war in Iraq the issues contested during Germany's abjection and reinvention how to treat a defeated enemy how to place episodes within wider historical trajectories how to distinguish varieties of victimhood are as urgent today as they were sixty years ago and In the House of the Hangman offers readers an invaluable historical perspective on these critical questions *Holocaust:*

*Hitler, Nazism and the "racial state"* David Cesarani, Sarah Kavanaugh, 2004 **Bibliography On Holocaust Literature**

Abraham J Edelheit, 2021-11-28 In this second supplement to their Bibliography on Holocaust Literature the authors have compiled 4000 new entries to keep pace with the outpouring of literature on the subject Readers attention is directed to new materials and to items newly available including books pamphlets and journal articles many of which are catalogued for the first time There is a new section on Soviet anti-Semitism and expanded coverage of neo Nazism neo fascism Murder in

Our Midst Omer Bartov, 1996-02-29 War endlessly tries to mask itself The myth of the heroic soldier testing his individual courage stands in stark contrast to the reality of mass anonymous death and the suppression of individual actions Murder in Our Midst shows that this fundamental tension reached its natural conclusion in the Holocaust and that disguising it has required an ongoing effort to misrepresent war and the Holocaust as something other than industrial killing Examining a broad range of the representations of war's horrors from scholarly depictions to those in popular literature poetry art and the movies Omer Bartov finds they have some things in common Societies and cultures have attempted to form coherent images of horrific events to draw didactic lessons from them and to exploit them to legitimate ideological or political positions Made up of interconnected essays this book is both a scholarly and an often personal and passionate examination of the emergence implementation and representation of industrial killing Bartov draws out the links between recent revisionist attempts to minimize and deny the Holocaust and Hollywood's ongoing fascination with National Socialism and Hitler's Final Solution Arguing that the modern predicament reflects the effects of the Nazi genocide on current perceptions of war history and memory this book is a plea for compassion and commitment in an increasingly violent and indifferent world *In Times of Crisis* Steven E. Aschheim, 2001-02-01 The nineteenth and twentieth century relationship between European culture German history and the Jewish experience produced some of the West's most powerful and enduring intellectual creations and perhaps in subtly paradoxical and interrelated ways our century's darkest genocidal moments In Times of Crisis explores the

flashpoints of this vexed relationship mapping the coordinates of a complex triangular encounter of immense historical import In essays that range from the question of Nietzsche's legacy to the controversy over Daniel Goldhagen's *Hitler's Willing Executioners* the distinguished historian Steven E. Aschheim presents this encounter as an ongoing dialogue between two evolving cultural identities He touches on past dimensions of this exchange such as the politics of Weimar Germany and on present dilemmas of grasping and representing it such as the Israeli discourse on the Holocaust His work inevitably traces the roots and ramifications of Nazism but at the same time brings into focus historical circumstances and contemporary issues often overshadowed or distorted by the Holocaust These essays reveal the ubiquitous charged inscriptions of Nazi genocide within our own culture and illuminate the projects of some later thinkers and historians from Hannah Arendt to George Mosse to Saul Friedlander who have wrestled with its problematics and sought to capture its essence From the broadly historical to the personal from the politics of Weimar Germany to the experience of growing up German Jewish in South Africa the essays expand our understanding of German Jewish history in particular but also of historical processes in general

**No Simple Victory** Norman Davies, 2008-08-26 One of the world's leading historians re-examines World War II and its outcome A clear-eyed reappraisal of World War II that offers new insight by reevaluating well-established facts and pointing out lesser-known ones *No Simple Victory* asks readers to reconsider what they know about the war and how that knowledge might be biased or incorrect Norman Davies poses simple questions that have unexpected answers Can you name the five biggest battles of the war What were the main political ideologies that were contending for supremacy The answers to these questions will surprise even those who feel that they are experts on the subject Davies has established himself as a preeminent scholar of World War II *No Simple Victory* is an invaluable contribution to twentieth-century history and an illuminating portrait of a conflict that continues to provoke debate

**Businessmen and Politics in the Rhineland, 1789-1834** Jeffrey M. Diefendorf, 2014-07-14 In an attempt to understand the political history of the German middle class in the nineteenth century Jeffrey Diefendorf studies in detail the political social and economic behavior of three business communities on the Left Bank of the Rhine between 1789 and 1834 Originally published in 1980 The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**The Fourth Reich** Gavriel D. Rosenfeld, 2019-03-14 The first history of postwar fears of a Nazi return to power in Western political intellectual and cultural life

**Fragile Spaces** Steven E. Aschheim, 2018-09-24 This book consists of a range of essays covering the complex crises tensions and dilemmas but also the positive potential in the meeting of Jews with Western culture In numerous contexts and through the work of fascinating individuals and thinkers the work

examines some of the consequences of political cultural and personal rupture as well as the manifold ways in which various Jewish intellectuals politicians and occasionally spies sought to respond to these ruptures and carve out new sometimes profound sometimes fanciful options of thought and action It also delves critically into the attacks on liberal and Enlightenment humanism In almost all the essays the fragility of things is palpably present and the book touches on some of the ironies problematics and functions of responses to that condition The work mirrors the author s ongoing fascination with the always fraught fragile and creatively fecund confrontation of Jews and others with European modernity its history politics culture and self definition In a time of increasing anxiety and feelings of fragility this work may be helpful in understanding how people at an earlier and sometimes contemporary period sought to come to terms with a similar predicament

The German Question Dirk Verheyen, 2018-05-04 The German Question long a subject of debate is considered here at the close of a turbulent century after Germany s defeat in two world wars the Weimar failure and Nazi disaster Cold War division and the nation s unexpected recent reunification This book systematically explores the issue in terms of its four central dimensions Germany s identity national unity power and role in world politics Ambitious in conception and meticulous in execution Dirk Verheyen s wide ranging analysis incorporates historical and geopolitical considerations in an intellectually rigorous yet accessible discussion

The Birth of Fascist Ideology Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994 When The Birth of Fascist Ideology was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell s controversial interpretations In Sternhell s view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity

**The Modern Schism** Martin E. Marty, 2012-09-01 The reality of the secular has come to obsess modern religious thinkers notes Martin E Marty This volume analyzes from the first time the complex story of THE MODERN SCHISM an episode in the cultural and spiritual history of the West which has had fateful consequences for contemporary society Dr Marty argues that during the previous century there occurred a cluster of events more devastating

to and potentially more hopeful for Christianity than anything that happened during such similar periods as the Renaissance and the Enlightenment He traces three different types of secularization which together make up the modern schism shows how they have developed in the West and where they are leading man today By contrasting the ways in which the old Christian order was attacked in Europe ignored in England and transformed in America the author points to present alternatives to that order and what they mean for society
