The Germans We Trusted:

The Germans We Trusted Pamela Howe Taylor, 2003 An inspiring collection of thirty six true accounts of friendships formed between German prisoners of war and their enemies during the Second World War **The Germans We Trusted**

Pamela Howe Taylor, 2003 In Spies We Trust Rhodri Jeffreys-Jones, 2013-06-13 The full story of the Anglo American intelligence relationship ranging from the deceptions of World War I to the mendacities of 9 11 now told for the first time

The German Church on the American Frontier Carl E. Schneider, 2009-03-02 Since its original release in 1939 Carl Schneider's *The German Church on the American Frontier* has been the premier published resource on the unique Evangelischer Kirchenverein des Westens Evangelical Church Society of the West 1840-66 which later assumed a wider denominational identity as the German Evangelical Synod of North America the church of the Niebuhr family Known eventually as the Evangelical Synod of North America the group's ecumenical and irenic heritage contributed to mergers that resulted in the Evangelical and Reformed Church 1934-1957 and thereafter in the United Church of Christ *In the Court We Trust* Rob van Gestel, Jurgen de Poorter, Jurgen Constantinus Abraham Poorter, 2019-12-19 Explains the lack of dialogue between the CJEU and Supreme Administrative Courts offering scenarios for fruitful co-actorship between them *In Foodture We Trust* Heinz R. Gisel, 2009-03 The distance between natural foods and what the average American family puts on their dinner table grows wider every year In *Foodture We Trust* the author explores the role that politics and profit play in over processing all nutritional value out of foods turning the Creator's abundant widely varied gift into an indigestible sludge that only marginally resembles the original design Learn the history of the genetic engineering of food misappropriation of scientific studies to support the profits of big business the effort to convince the American public it needs drugs created for diseases that never existed before and legislation aimed at outlawing natural foods processes and remedies for the sake of protecting profits Gain a scientific understanding of the benefits of natural foods and learn about evidence that the bureaucracy responsible for protecting the health and nutrition of Americans is dedicated to destroying them instead For thirty years Heinz Gisel traveled the world innovating cutting edge medical technology and providing doctors with new instruments to treat illness As the CEO of medical laser companies he learned that funding disease fighting technology was difficult but not for devices used in elective procedures plastic surgery aesthetic treatments and vision correction He observed that many people seeking such treatments would be better served rejuvenating from the cellular level starting with nutrition But most people had either forgotten how to balance their diet with lifestyle or they didn't know to begin with The author invested years into nutrition research and technology development for analyzing disease susceptibility of presumed healthy people After opening clinics in various countries it surfaced that many clients who thought to be healthy were at the brink of a major health challenge which they could forestall by simple lifestyle modifications and by making conscientious food choices Can We Trust the Gospels? Peter J. Williams, 2018-12-10 Is there evidence to believe the Gospels The

Gospels Matthew Mark Luke John are four accounts of Jesus's life and teachings while on earth. But should we accept them as historically accurate? What evidence is there that the recorded events actually happened? Presenting a case for the historical reliability of the Gospels, New Testament scholar Peter Williams examines evidence from non-Christian sources, assesses how accurately the four biblical accounts reflect the cultural context of their day, compares different accounts of the same events, and looks at how these texts were handed down throughout the centuries. Everyone from the skeptic to the scholar will find powerful arguments in favor of trusting the Gospels as trustworthy accounts of Jesus's earthly life.

Great Britain and the German Navy E.L. Woodward, 2019-05-23 First published in 1935 in this volume E. L. Woodward reconstructs with his usual painstaking industry the various phases of Anglo-German naval relations from the enactment of the German navy laws of 1898-1900 to the months of the apparent détente just before the outbreak of war in 1914. The principle documentary collections have been carefully consulted and the material drawn from them is woven into an extended account of negotiations which for several years kept London and Berlin preoccupied with comparative shipbuilding programmes, fleet ratios and political formulas. With excellent judgement the author skilfully sets his central theme against the background of concurrent developments in the realm of European diplomacy. Though the importance of the Navy as an international power is indubitably diminished at the moment, the matter of the actual strength of the Navy is still a matter of controversy. To some extent today we can say of this book as the reviewer in *The Times Literary Supplement* said on its first publication in 1935: 'The circumstances of today in which naval competition has again begun may differ from those of thirty years ago, but those who read and digest this balanced and accurate account of that period will not fail to observe familiarities in the two situations.'

In Sam We Trust Bob Ortega, 1999 From a single tiny store in a backwater town in Arkansas, Sam Walton created Wal-Mart, the world's largest retailer. In this business history, the author reveals the retailing genius and obsessive vision of the man.

In Knives We Trust Geoff Brookes, 2018-10-16 An atmospheric murder mystery set in Victorian Swansea in 1880. Evokes a convincing portrayal of life in a nineteenth-century Welsh town. A plot which uses authentic locations and voices. The first in a series featuring Inspector Rumsey Bucke. Inspector Rumsey Bucke, a still-grieving widower, must find Daniel Guy, who has tried and failed to murder his own wife. He tracks him steadily through the murky streets of Swansea's poorest communities with little help from a corrupt and incompetent police force. Two fatal stabbings, which may or may not be connected, put Bucke's position under threat from a scheming superior. However, he finds the will and the support to change his life from an unlikely source: the wife of a prime murder suspect. As he finally confronts his own sorrow, he discovers that terrible secrets lurk beneath the surface of the ordinary lives around him. No one can ever escape from the secret burdens they carry with them. But there are unknown figures lurking in the shadows, and Bucke is drawn into the dangerous world of international politics, with assassins playing out a clandestine war on the streets of the town, ready to kill the innocent to protect themselves. As he desperately runs out of time to prevent another murder, Bucke has to find the

answers which have eluded him Who is the murderer Is it Daniel Guy Is it someone else Just how many murderers are there There is a bigger question for him too If as they say justice is blind are there occasions when the law should be blind too

Learning from the Germans Susan Neiman, 2019-08-27 As an increasingly polarized America fights over the legacy of racism Susan Neiman author of the contemporary philosophical classic *Evil in Modern Thought* asks what we can learn from the Germans about confronting the evils of the past In the wake of white nationalist attacks the ongoing debate over reparations and the controversy surrounding Confederate monuments and the contested memories they evoke Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings Neiman is a white woman who came of age in the civil rights era South and a Jewish woman who has spent much of her adult life in Berlin Working from this unique perspective she combines philosophical reflection personal stories and interviews with both Americans and Germans who are grappling with the evils of their own national histories Through discussions with Germans including Jan Philipp Reemtsma who created the breakthrough *Crimes of the Wehrmacht* exhibit and Friedrich Schorlemmer the East German dissident preacher Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust In the United States she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching as well as lesser known social justice activists in the South to provide a compelling picture of the work contemporary Americans are doing to confront our violent history In clear and gripping prose Neiman urges us to consider the nuanced forms that evil can assume so that we can recognize and avoid them in the future

In Guns We Trust William J. Kole, 2025-10-14 In this unsettling investigation into white evangelicals fusion of the gospel and guns veteran journalist William J Kole exposes how some Christians are standing in the way of reasonable restrictions on firearms and how it makes us all less safe On the evening that the bass player on his worship team casually showed him his handgun the author's world shifted In that moment Kole who was the AP's New England bureau chief when a gunman massacred twenty six people at Sandy Hook Elementary knew he had to figure out what was going on Why were white evangelicals more likely than other Americans to own a weapon What made them treat the Second Amendment as if it were God breathed And how did his own faith rooted in Jesus's call to turn the other cheek get hijacked In the pages of *In Guns We Trust* Kole looks at the unholy alliance between white evangelicals guns and politics Writing in the tradition of Tim Alberta and Kristin Kobes du Mez he takes us into sanctuaries where worshippers raise hands and pack heat to a rural church that

does outreach through target practice with assault rifles and into the lucrative gun making industry in which evangelicals play an outsized role He introduces us to global Christians who can't imagine owning firearms and dissidents in the US who are working for change including activists beating guns into garden tools and nuns who bought company stock so they could sue a gun manufacturer Our nation is awash in more guns than citizens With meticulous research humanizing interviews and immersive narrative Kole pulls back the curtain on the locked and loaded Christianity that got us here Ignoring gun toting believers Kole argues means the violence will continue But when intentional conversation and faithful resistance bear fruit peace may yet prevail
