the Broadstreet Bullies era to more recent stars like captain Claude Giroux **UFOs** Stuart Webb,2012-07-15 Whether or not UFOs are evidence of life outside of Earth s atmosphere no one can argue with the reality of strange objects in the sky and their impact on culture Since claims of experience with flying saucers by Kenneth Arnold s people have been enthralled by UFOs This book explores some of the most popular UFO sightings of the past century offers explanations and discusses their impact on society *HAUNEBU: THE SECRET FILES* David Childress,2020-01-01 David Childress popular author and star of the History Channel show Ancient Aliens brings us the incredible tale of the German flying disk known as the Haunebu Although rumors of German flying disks have been around since the late years of WWII it was not until 1989 when a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft craft which we would classify today as UFOs or flying saucers Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate flying saucers and submarines around the world in the decades after the end of the war This activity involving a flying saucer known as the Haunebu was particularly notable in South America but it ultimately involved all the continents of the world including Antarctica Join Childress as he shows us the secret files involving the Haunebu the Vril craft the Andromeda craft and others Includes a 16 page color section Over 120 photographs and diagrams *Our Haunted Planet* John A. Keel,2002 *Handbook of Nordic New Religions* ,2015-06-24 When James R Lewis one of the editors of the current collection first moved to Norway in late 2009 he was unprepared to discover that so many researchers in Nordic countries were producing innovative scholarship on new religions and on the new age subculture In fact over the past dozen years or so an increasingly disproportionate percentage of new religions scholars have arisen in Nordic countries and teach at universities in Denmark Finland Norway Sweden and the Baltic countries Nordic New Religions co edited with Inga B T llefsen surveys this rich field of study in this area of the world focusing on the scholarship being produced by scholars in this region of northern Europe **Vril: Secrets of the Black Sun** David Hatcher Childress,2024-03-04 Childress reveals numerous secrets of the Black Sun in this final volume in his series about the Fourth Reich David Childress popular author and star of the History Channel show Ancient Aliens unveils the amazing story of the German flying disks designed and built during WWII It was not until 1989 that a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft including the Vril Haunebu and Andromeda Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long

time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate aircraft and submarines around the world in the decades after the end of the war This volume closes with how the SS operates today in the Ukraine and how the Wagner second in command Dimitry Utkin killed in the fiery crash of Yevgeny Prigozhin s private jet between Moscow and St Petersburg in August of 2023 had SS tattoos on his shoulders and often signed his name with the SS runes Chapters include Secrets of the Black Sun The Extra Territorial Reich The Rise of the SS The SS Never Surrendered Secret Submarines Antarctica Secret of the Vril The Marconi Connection Spectre the SS and 007 Yellow Submarine Ukraine and the Battalion of the Black Sun more Includes an 8 page color section Over 120 photographs and diagrams

Andromeda: The Secret Files David Hatcher Childress,2021-11-01 David Childress popular author and star of the History Channel show Ancient Aliens brings us the amazing story of the German Andromeda craft designed and built during WWII Along with flying disks the Germans were making long cylindrical airships that are commonly called motherships large craft that house several smaller disk craft It was not until 1989 that a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft including the Andromeda Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate aircraft and submarines around the world in the decades after the end of the war Much of this activity has been attributed to UFO activity but Childress lifts the veil shrouding some of these cases and shows that Andromeda and Haunebu craft were involved in many of these incidents over the decades Join Childress as he shows us the secret files involving the Andromeda Haunebu and Vril craft Chapters include Gravity s Rainbow The Motherships The MJ 12 UFOs and the Korean War The Strange Case of Reinhold Schmidt Secret Cities of the Winged Serpent The Green Fireballs Submarines That Can Fly The Breakaway Civilization more Includes a 16 page color section Over 120 photographs and diagrams
