The Ghosts of Justice Ashok Kara, 2001 It is not possible to read Heidegger s text without the image of his arm raised in the Nazi salute haunting it The image compels us to examine Heidegger s philosophy in terms of its susceptibility to Nazi ideology Heidegger s philosophy was inscribed at the end of the history of philosophy a time when Nazism was on the rise and on its way to the renewal of German destiny In paragraph six of *Being and Time* Heidegger outlined his agenda for the renewal of philosophy The renewal necessitated the destruction of the errant history of ontology in order to retrieve the pure primordial experiences The parallels between the forms of two agendas are coincidental However my work shows where they overlapped I explore the consequence of this overlap by soliciting the first text of philosophy The Anaximander Fragment that speaks about justice and injustice Justice is also at issue in the text of Jacques Derrida Derrida s primary resource is paragraph six of Heidegger s *Being and Time* a fact that caused some of his readers to assimilate him to Heidegger Derrida has tried to distance himself from Heidegger and in a late text he has offered us the prescriptive phrase Deconstruction is justice to guide our reading of his text The phrase invites us to examine Derrida s work in light of its saying This is what I try to do I show that a separation cannot be accomplished without a price because whether an author intends it or not justice is something ghostly and it keeps its own account Heidegger s arm and Derrida s hand caught in the trap of paragraph six tell another story different from the stories the authors tell The limbs tell the story about the ghosts of justice

When reporter Tanisha Costello approaches her, Kelly is understandably skittish. But Tanisha isn't after a story; she needs help. She's being haunted. Scott,2023-11-01 In Telling Silence Charles E Scott speaks of silence often indirectly in such ways as to create occasions in which people might become more aware of silence in their experiences of themselves and the world around them The core question of the book is how can people be aware of silence without turning it into a thing and losing it Lack of awareness of silence is lack of awareness of a major dimension of lives both human and nonhuman Attunements with silence enable

attunements with being alive in the fragility that invests even the strengths of living beings Telling Silence performs this attunement in descriptive accounts and instances of non reflective awareness awareness that does not deliberate or ponder In twenty three fragments poems stories and ways of thinking and speaking are brought together to intensify intimations of silence telling of itself

Silence and Society Charles Lemert, 2025-07-31 Silence and Society addresses the reality that social sciences have ignored the importance of silence in human communication Without communication there is no community and thus no society Yet as classic communication theory explains communication must always deal with noise Increasingly as cyber technologies and media have gained the upper hand in social life so have they become purveyors of empty noise from mindless sitcom television to uninformed talk radio to cable news blather and more The book is organized into three sections each corresponding to a level of social order Each bears a distinctive relation to the general problem of silence and noise in

human community Part One Social Facts of Silence presents examples of the ways silence intrudes on vital aspects of human life in personal self understanding in the irony that direction communication requires a third absent party such as Goffman's ego identity in the fact that personal identity is the challenge of dealing with the trouble of deciding who we are in a given social setting Part Two Noise Dreams and Identity Confusions considers a range of community issues from the strange noises of quiet neighborhoods to the way the necessity of social conformity silences individual autonomy to the fact that the dead are ever present in daily language and behavior especially in common religious practices Finally Part Three Waste Death and the Beyond of Time suggests the principal ways the growing global environment aggravates human inequality by forcing the poor into zones of exclusion by increasing the mountain of human waste that in turn wastes human lives by the extent to which global theories and programs for economic development are little more
