The Gift Of Wealth:

The Cycle of the Gift James E. Hughes, Jr., Susan E. Massenzio, Keith Whitaker, 2012-10-17 A comprehensive guide to giving well to family members Giving is at the core of family life and with current law allowing up to 5 120 000 in tax free gifts at least through December 2012 the ultra affluent are faced with the task of giving at perhaps largest scale in history Beyond the tax saving and wealth management implications giving to family members opens up a slew of thorny questions the biggest of which is How do I prepare recipients of such large gifts With that question and others in mind Hughes Massenzio and Whitaker have written The Cycle of the Gift in three main parts The Who of Giving The How of Giving and The What and Why of Giving The first part focuses on the people most deeply involved in family giving especially the recipients and givers parents grandparents spouses trustees The second part The How of Giving addresses the delicate balance of givers who want to maintain some level of control and recipients who want some level of freedom in accepting and growing their gifts The final part The What and Why of Giving describes various types of gifts from money to business interests to values and rituals The authors also introduce their family bank concept as a model that combines loans trusts and outright gifts It embodies a framework and set of practices for long term family growth Even families without great wealth or those who have already made large gifts to their children and grandchildren can benefit from the human wisdom and practical advice found in The Cycle of the Gift

The Enigma of the Gift Maurice Godelier, 1999-02-03 When we think of giving gifts we think of exchanging objects that carry with them economic or symbolic value But is every valuable thing a potentially exchangeable item whose value can be transferred In The Enigma of the Gift the distinguished French anthropologist Maurice Godelier reassesses the significance of gifts in social life by focusing on sacred objects which are never exchanged despite the value they possess Beginning with an analysis of the seminal work of Marcel Mauss and Claude Lévi Strass and drawing on his own fieldwork in Melanesia Godelier argues that traditional theories are flawed because they consider only exchangeable gifts By explaining gift giving in terms of sacred objects and the authoritative conferral of power associated with them Godelier challenges both recent and traditional theories of gift giving provocatively refreshing a traditional debate Elegantly translated by Nora Scott The Enigma of the Gift is at once a major theoretical contribution and an essential guide to the history of the theory of the gift

Marriage Gifts and Social Change in Ancient Palestine T. M. Lemos,2010-03-31 In Marriage Gifts and Social Change in Ancient Palestine T M Lemos traces changes in the marriage customs of ancient Palestine over the course of several hundred years The most important of these changes was a shift in emphasis from bridewealth to dowry the latter of which clearly predominated in the Hellenistic and Roman periods Whereas previous scholarship has often attributed these shifts to the influence of foreign groups Lemos connects them instead with a transformation that occurred in Palestine s social structure during the very same period In the early Iron Age Israel was a kinship based society with a subsistence economy but as the centuries passed it became increasingly complex and developed marked divisions between rich and poor At the same time the importance of its kinship groups waned greatly Utilizing an interdisciplinary approach that draws heavily on anthropological research cultural theory archaeological evidence and historical critical methods Lemos posits that shifts in marriage customs were directly related to these wider social changes

Inter-generational Financial Giving and Inequality Karen Rowlingson, Ricky Joseph, Louise Overton, 2017-04-07 This book makes a major contribution to our understanding of 21st century families in Britain through an exploration of intergenerational relationships Drawing on new and extensive quantitative and qualitative research the authors explore the giving and receiving of financial gifts Despite growing concern about intergenerational tension and even possible conflict the book finds evidence of a significant degree of intergenerational solidarity both within families at the micro level and between generations more generally within society at the macro level in Britain However given substantial inequalities within different generations as a result in particular of social class divisions some families are able to support each other far more than others This means that strong intergenerational solidarity may lead to the entrenchment of existing intragenerational inequalities The book will be of interest to scholars and students researching Sociology Social Policy Family Sociology
