The Girl in the Bog Keith Donohue, 2024-08-13 Ancient heroes from Irish mythology and folklore come to life in the modern world in this dark atmospheric story At once a thrilling chase novel and a wry reimaging of Ireland's oldest epic it is sure to enthrall readers of Neil Gaiman and Cassandra Khaw Everybody is after the girl in the bog One morning in a field in Connemara a farmer unearths the body of a young woman two thousand years old preserved under layers of peat Later that evening she awakens in unfamiliar modern Ireland ripping a hole through space and time and setting awirl old animosities and long held grudges Shadowy figures follow her from the pagan past and each emerges with a claim on the girl from the bog With help from a trio of wannabe teenage witches she goes on the run Joining in the chase is an American archaeologist who wants to keep the discovery for herself and two befuddled farmers trapped in the plot Hosts of fairies out for the night work their magic and mischief and in the blue hour before sunrise the saga unfolds in a battle for the ages Part fantasy part mystery part thriller part send up this comic and poignant love song to Irish literature and the gift of gab does not merely bend genres it braids them into Celtic knots

XiFeng,2020-04-01 purple path to immortality **Lair of Dreams** Libba Bray,2015-08-25 The thrilling supernatural sequel in The Diviners series by 1 New York Times bestselling author Libba Bray The longing of dreams draws the dead and this city holds many dreams After a supernatural show down with a serial killer Evie O'Neill has outed herself as a Diviner With her uncanny ability to read people's secrets she's become a media darling and earned the title America's Sweetheart Seer Everyone's in love with the city's newest It Girl everyone except the other Diviners Piano playing Henry Dubois and Chinatown resident Ling Chan are two Diviners struggling to keep their powers a secret for they can walk in dreams And while Evie is living the high life victims of a mysterious sleeping sickness are turning up across New York City As Henry searches for a lost love and Ling strives to succeed in a world that shuns her a malevolent force infects their dreams And at the edges of it all lurks a man in a stovepipe hat who has plans that extend farther than anyone can guess As the sickness spreads can the Diviners descend into the dreamworld to save the city In this heart stopping sequel to The Diviners Printz award winning and New York Times bestselling author Libba Bray takes readers deeper into the mystical underbelly of New York City Youth's Companion,1906 **Covert Plants** Prudence Gibson,Baylee Brits,2018 Covert Plants contributes to newly emerging discourses on the implications of vegetal life for the arts and culture This stretches to changes in our perception of nature and to the adapting roles of botany evolutionary ecology and environmental aesthetics in the humanities Its editors and contributors seek various expressions of vegetal life rather than the mere representation of such and they proceed from the conviction that a rigorous approach to thinking with and through vegetal life must be interdisciplinary At a time when urgent calls for restorative care and reparative action have been sounded for the environment this essay volume presents a range of academic and creative perspectives from evolutionary biology to literary theory philosophy to poetry which respond to the perplexing problems and paradoxes of vegetal thinking Representations of vegetal life often include

plant analogies and plant imagery These representations have at times obscured the diversity of plant behavior and experience Covert Plants probes the implications of vegetal life for thought and how new plant science is changing our perception of the vegetal around us and in us How can we think speak and write about plant life without falling into human nature dyads or without tumbling into reductive theoretical notions about the always complex relations between cognition and action identity and value subject and object A full view of this shifting perspective requires a stereoscopic lens through which to view plants but also simultaneously to alter our human centered viewpoint Plants are no longer the passive object of contemplation but are increasingly resembling subjects stakeholders or actors As such the plant now makes unprecedented demands upon the nature of contemplation itself Moreover the aesthetic political and legal implications of new knowledge regarding plants ability to communicate sense and learn require intensive cross disciplinary investigation By doing this we can intervene into current attitudes to climate change and sustainability and hopefully revise for the better human philosophies ethics and aesthetics that touch upon plant life
